(*) Note: The main characteristic of the 2007 data is the remarkably increased response of hotels and similar establishments in the survey, which corresponds to 18,5% more operational bed places, as compared to 2006. Thus, in order to extract correct conclusions, a case-by-case combinative analysis of the data is required.

(**) Revised data, compared to the press release of occupancy in hotels, similar establishments and camping during 2007 (24-7-2008)
