The publication will be updated with the most recent data on a quarterly basis and will be posted on the portal of ELSTAT on the first Wednesday of January, April, July and October.

(4) For the years 2011, 2014, 2016 and 2017, the impact of the support to financial institutions has been positive for the General Government balance. This is due to the fees accruing on the inter-bank lending guarantees and the bond loan scheme and the revenues from bank preference shares, being greater than the expenditures accrued. For the remaining years, the expenditures of the support were larger than the related revenues.

(5) The support to the financial institutions includes the on-going revenues and expenditures associated with interventions starting from 2008, in addition to new revenues and expenditures that arose during the years 2011 to 2016 for the banks' resolution and the recapitalisation of the four core banks.

(2) Debt as defined in the Maastricht Treaty.

(3) For the second and fourth quarters of 2016 and the fourth quarter of 2017, the impact of the support to financial institutions has been positive for the General Government balance. This is due to the fees accruing on the inter-bank lending guarantees and the bond loan scheme, and the revenues from bank preference shares, being greater than the expenditures accrued. For the remaining quarters, the expenditures of the support were larger than the related revenues.

(1) Any kind of extraction of energy products from natural sources to a usable form is called primary production. Primary production takes place when the natural sources are exploited, for example in coal mines, crude oil fields, hydro power plants or fabrication of biofuels. Transformation of energy from one form to another, like electricity or heat generation in thermal power plants or coke production in coke ovens is not primary production.

(2) The ratio is estimated on the basis of the estimated population on the 30th June of the relevant year.

(3) The total number of offenders includes the offenders who were identified in the month when the offence was registered and the offenders who were unknown during the same month and who were identified later during the year, principal offenders and accomplices, arrested or not.
