182 years

statistical data

The Special Bureau of Public Finance is established in the Ministry of Interior, which conducts Censuses on the basis of administrative data on a yearly basis for the period 1836-1845 and later on at bigger intervals (1848, 1853, 1856)

1834

The General Statistical Service of Greece is established within the Ministry of National Economy gathering all state statistics

1925

The new Statistical Law 3832/2010 enters into force, establishing the Hellenic Statistical Authority (ELSTAT) as an Independent Authority and the Hellenic Statistical System (ELSS)

2010

The Bureau of Public Finance is divided into four (4) Sections, one of them being the Statistics Section. It is the first time that a Specialised Service for Statistics is established within the public administration

1861

A Section of Statistics is set up in the newly established created Ministry of Agriculture, Commerce and Industry, which in 1911 is renamed to Ministry of National Economy. In 1913, the Statistics Section is upgraded to a Central Division of Statistics, responsible for collecting, processing and publishing all the national statistics

1910

The National Statistical Service of Greece (NSSG) is established by virtue of the Legislative Decree 3627/1956. By virtue of the Presidential decree 224/1986 the General Secretariat of the National Statistical Service of Greece (GS NSSG) is established, belonging to the Ministry of National Economy

4
pillars

QUALITY AND RELIABILITY:
improving the quality and reliability of statistics, by unswervingly observing the principles of the European Statistics Code of Practice and by restructuring the processes and more generally the approach for the production of statistics.

GOOD GOVERNANCE:
focusing on good governance in the Statistical Authority, regarding its operation and management, by applying a rulesbased system, which enhances, inter alia, the effectiveness of statistical works.

COOPERATION: cooperating closely with the users of statistical data and being responsive to their needs, as well as coordinating and cooperating with other ELSS producers of statistical data with a view to improving the quality of statistics.

INTERNATIONAL PRESENCE:
cooperating intensively and undertaking initiatives in the European and the international statistical community.
