

PRESS RELEASE

GREEK MERCHANT FLEET: August 2018 (Provisional data)

The Hellenic Statistical Authority (ELSTAT) announces data on the Greek Merchant Fleet (for vessels of 100 GRT¹) for August 2018. Particularly:

- The Greek Merchant Fleet increased by 0.2% in August 2018 compared with August 2017. An increase of 1.3% was also recorded in August 2017 compared with August 2016 (Table 1).
- The gross tonnage of the Greek Merchant Fleet, for vessels of 100 GRT and over, recorded a decrease of 3.6% in August 2018 compared with August 2017. An increase of 0.8% was observed in August 2017 compared with August 2016 (Table 1).

METHODOLOGICAL NOTES

Greek Merchant Fleet Survey	The Survey on the Greek Merchant Fleet is conducted on a monthly basis since 1964 without any major methodological changes ever since. The purpose of the survey is to fully record statistical data on the number and basic characteristics of the Greek merchant ships, thus depicting the evolution over the course of time of the Greek merchant fleet.
Legal Framework	The survey is conducted in compliance with the joint Ministerial Decision (No 6792/G-81/11-4-97), signed by the Minister of National Economy and the Minister of Mercantile Marine.
Reference Period	The results of the survey refer to the end of August 2018.
Coverage	The survey covers all domestic Port Authorities, as well as Greek Consular Port Authorities abroad, which keep ship registers. These Authorities have to send a report on a monthly basis to the Hellenic Statistical Authority (ELSTAT) pertaining to the changes in the Greek merchant ships registered in their ship registers.
Definitions	<p>Merchant ship: Seagoing self-propelled vessel, at least of 10 GRT, designed for the carriage of goods, transport of passengers, for fishing, towing or specially fitted out for other commercial maritime activities.</p> <p>Greek merchant fleet: The total number of the merchant ships registered in Greece, which belong to natural or legal persons residing on the Greek territory. The Greek flag carried by these ships means that all their maritime activities (subsidies for ship building, cargo limitations and other tax provisions) are governed by commercial and economic rules which are laid down by the respective Greek authorities.</p> <p>Gross Register Tonnage (GRT): Refers to the spaces within the hull and of the enclosed spaces above the deck which are available for carrying goods, food, passengers and crew, GRT is equal to the volume of 100 cubic feet or 2.83 m³.</p> <p>Net Register Tonnage (NRT): It is derived from the gross tonnage by deducting allowances in respect of spaces used for the crew, navigating and propelling machinery, fuel and water ballasts, and other spaces not used for passengers or cargo.</p> <p>Age of ship: indicated by the year of original construction of the hull or that of the hull containing the engine room.</p>
Methodology	<p>It is an exhaustive survey conducted by all domestic Port Authorities and Greek Consular Port Authorities abroad, which report to ELSTAT, on a monthly basis, on changes in the ships pertaining to: a) new registrations of ships in the ship registers, b) change in the name of a ship, c) change of ownership, d) transfers to or from a different port, e) deletion of a ship from a ship a register, f) final measurement – remeasurement of ships, g) replacement of the ship's engine.</p> <p>All these data, after being dully processed, are used to update, through a specially designed software application, the Official Register of Greek Merchant Ships. This Register is used for the production of monthly and annual statistical results.</p>
