

PRESS RELEASE

TURNOVER INDICES FOR SPECIFIC ACTIVITIES OF THE SERVICES SECTOR: 2nd quarter 2019

The Hellenic Statistical Authority (ELSTAT) announces the Turnover Indices for Specific Activities of the Services Sector, with base year 2015=100.0 for the 2nd quarter of 2019. The evolution of the Turnover Indices for Specific Activities of the Services Sector, according to provisional and working day adjusted data, has as follows:

NACE Rev.2 Code	Specific activities of services	Annual rate of change (%) Q2 2019 / Q2 2018
H53	Postal and courier activities	5.3
J58	Publishing activities	25.2
J61	Telecommunications	0.3
J62	Computer programming, consultancy and related activities	6.0
J63	Information service activities	25.4
M69	Legal and accounting activities	-0.7
M70.2	Management consultancy activities	-1.5
M71	Architectural and engineering activities; technical testing and analysis	-2.3
M73	Advertising and market research	5.2
M74	Other professional, scientific and technical activities	-14.5
N78	Employment activities	21.1
N80	Security and investigation activities	-7.5
N81	Services to buildings and landscape activities	3.3
N81.2	Cleaning activities	-5.1
N82	Office administrative, office support and other business support activities	2.2

METHOLOGICAL NOTES

General The Turnover Indices for Specific Activities of the Services Sector are quarterly indices and have been compiled since 2000.

Purpose of the Indices - Definitions The Turnover Indices for Specific Activities of the Services Sector are business cycle indicators, which illustrate the quarterly activity of the services sector in terms of value. Turnover comprises the total values invoiced by the observation unit during the reference period corresponding to the market sales of goods or services supplied to third parties. Turnover also includes all the other charges (transport, packaging, etc.) passed on to the customer, even if these charges are listed separately on the invoice.

Turnover excludes VAT and other similar deductible taxes directly linked to turnover, as well as all duties and taxes on the goods or services invoiced by the enterprise

Legal framework The Turnover Indices for Specific Activities of the Services Sector are short-term indices and are compiled pursuant to Council Regulation (EC) No 1165/98 concerning short-term statistics, in the framework of the requirements of Regulation No 1158/2005 of the European Parliament and Council amending Council Regulation (EC) No 1165/98.

Reference period Quarterly.

Base year 2015=100.0.

Revision The Turnover Indices for Specific Activities of the Services Sector are revised every 5 years, in compliance with Council Regulation No 1165/98, according to which the short-term indices are revised every 5 years, with base year ending in 0 or 5.

Statistical classification The statistical classification of economic activities NACE Rev.2 is applied, in accordance with Regulation (EC) 1893/2006 of the European Parliament and the Council.

Geographical coverage Turnover Indices for Specific Activities of the Services Sector cover the whole country.

Coverage of economic activities

- Postal and courier activities (Section H division 53)
- Publishing activities (Section J division 58)
- Telecommunications (Section J division 61)
- Computer programming, consultancy and related activities (Section J division 62)
- Information service activities (Section J division 63)
- Legal and accounting activities (Section M division 69)
- Management consultancy activities (Section M group 70.2)
- Architectural and engineering activities; technical testing and analysis (Section M division 71)
- Advertising and market research (Section M division 73)
- Other professional, scientific and technical activities (Section M division 74)
- Employment activities (Section N division 78)
- Security and investigation activities (Section N division 80)
- Services to buildings and landscape activities (Section N division 81)
- Cleaning activities (Section N group 81.2)
- Office administrative, office support and other business support activities (Section N division 82)

Statistical survey The sampling unit used is the enterprise. The population for the above mentioned divisions and groups of the NACE Rev. 2 statistical classification according to the business register of ELSTAT with reference year 2015 is 12,825 enterprises. Due to the big population of enterprises, a representative sample of 1,076 enterprises was selected. The total turnover of the above mentioned enterprises exceed 67 – 70 % of the total turnover for each divisions/groups of the NACE Rev. 2. The single - stage stratified random sampling was used for the selection of the enterprises for the sample. For each division/group, the enterprises included in the survey were stratified in size classes, based on their turnover during 2015.

- Compilation of indices** The indices are compiled by applying the chain-linking method, while the indices are adjusted to a typical quarter by multiplying the estimated turnover values with an adjustment factor in accordance to the working days of each quarter. The typical quarter refers to the real number of working days.
- Publication of data** The data of the Turnover Indices for Specific Activities of the Services Sector with base year 2015=100.0 are published from the fourth quarter 2018 onwards, while backcasted data are available from the first quarter 2000.
- References** More information concerning the compilation methodology of the Turnover Indices for Specific Activities of the Services Sector, as well as backcasted data are available on the website of ELSTAT (www.statistics.gr/en/home) and particularly on link www.statistics.gr/en/statistics/-/publication/DKT54/-
