Piraeus, 31 July 2017

PRESS RELEASE

STATISTICS ON INTERNATIONAL TRADE IN GOODS BY ENTERPRISE CHARACTERISTICS (TEC), 2015

The Hellenic Statistical Authority (ELSTAT) announces through this press release, data on international trade in goods by enterprise characteristics, presenting the value of imports and exports by economic activity sector of NACE Rev.2 and employment size class of the enterprises, for the year 2015.

On the basis of the available data, in 2015 the total number of enterprises which carried out imports, exports or both types of transactions amounted to 37,455: out of this number 22,854 enterprises had transactions with EU countries and 25,133 enterprises with third countries. The total value of imports and exports amounted to 67,237.0 million euro: 35,684.4 million euro correspond to transactions with EU countries and 31,552.6 million euro to transactions with third countries. The enterprises in sections "Manufacturing, Electricity, gas, steam and air conditioning supply, Water supply, sewerage, waste management and remediation activities and Mining and quarrying" accounted for 55.0 % of the value of transactions; the enterprises belonging to "Agriculture, forestry and fishing, Construction and Other services (excluding wholesale and retail sale, etc.)" accounted for 9.6 % of the total value of transactions and the enterprises in the section "Wholesale and retail trade, repair of motor vehicles and motorcycles" stood for 35.4 % of the value of the transactions (Table 1).

More specifically, as regards imports, 31,590 enterprises had import transactions whose value amounted to 41,957.2 million euro. The enterprises in sections “Manufacturing, Electricity, gas, steam and air conditioning supply, Water supply, sewerage, waste management and remediation activities and Mining and quarrying”, which represent 21.3 % (6,741) of the total number of enterprises, accounted for 46.9 % of the total imports value (19,673.2 million euro). The enterprises in “Agriculture, forestry and fishing, Construction and Other services (excluding Wholesale and retail trade, etc.)”, which represent 19.8 % (6,246 enterprises) of the total number of enterprises, accounted for 10.7 % (4,486.7 million euro) of the total value of imports. Finally, the enterprises in “Wholesale and retail trade, repair of motor vehicles and motorcycles”, which stand for 58.9 % (18,603 enterprises) of the total number of enterprises, accounted for 42.4 % (17,797.2 million euro) of the total value of imports (Table 1- Graph 1.1).

Accordingly, as regards exports, 17,732 enterprises had export transactions amounting to 25,279.8 million euro. The enterprises in sections “Manufacturing, Electricity, gas, steam and air conditioning supply, Water supply, sewerage, waste management and remediation activities and Mining and quarrying”, which represent 33.1 % (5,865) of the total number of enterprises, accounted for 68.6 % (17,336.9 million euro) of the total exports value. The enterprises in sections “Agriculture, forestry and fishing, Construction and Other services (excluding Wholesale and retail, etc.)”, which represent 17.9% (3,179) of the total number of enterprises, accounted for 7.7 % (1,955.3 million euro) of the total exports value. Finally, the enterprises in “Wholesale and retail trade, repair of motor vehicles and motorcycles”, which stand for 49.0 % (8,688) of the total number of enterprises, accounted for 23.7 % (5,987.6 million euro) of the total value of exports (Table 1- Graph 1.1).

As regards the breakdown of import data by employment size class of the enterprises, it can be observed that small enterprises with less than 50 employees, which represent 87.5 % of the total number of import enterprises accounted for 31.7 % of the total value of imports, namely 13,302.9 million euro. Medium-sized enterprises, with 50 to 249 employees, which represent 4.5 % of the total number of import enterprises, accounted for 23.6 % of the total value of imports, namely 9,892.0 million euro, and large enterprises, with more than 250 employees, which stand for 1.2 % of the total number of import enterprises, accounted for 44.4 % of the total value of imports, namely 18,636.0 million euro (Table 2.1- Graph 2.1).

As regards the breakdown of exports data by employment size class of the enterprises, it can be observed that small companies with less than 50 employees, which represent 85.6 % of the total number of exporting enterprises, accounted for 28.0 % of the total value of exports, namely 7,096.0 million euro. Medium-sized enterprises with 50 to 249 employees, which represent 6.2 % of the total number of exporting enterprises,

accounted for 21.7 % of the total value of exports, namely 5,479.6 million euro and large enterprises with more than 250 employees, which represent 1.5 % of the total number of exporting enterprises, accounted for 50.0 % of the total value of exports, amounting to 12,640.7 million euro (Table 2.2- Graph 2.2).

On the basis of the available data on the concentration of trade value by size of the enterprises in terms of value of transactions, it is observed that the top 5 enterprises, in terms of value of transactions, accounted for 25.9 % of the total value of imports and the top 100 enterprises accounted for, approximately, half of the total value of imports (47.7 %), while the top 1.000 enterprises stood for 76.7 % of the total value of imports. As regards exports, it is observed that the top 5 enterprises, in terms of value of transactions, accounted for 25.9 % of the total value of exports, the top 100 enterprises stood for, approximately, half of the total value of exports (53.6 %), while the top 500 enterprises accounted for 75.1 % of the total value of exports (Table 3- Graph 3).

As regards the concentration of trade value by sector of economic activity, for imports the following are observed: in sections "Manufacturing, Electricity, gas, steam and air conditioning supply, Water supply, sewerage, waste management and remediation activities and Mining and quarrying", the top 5 enterprises, in terms of value transactions, accounted more than 1/2 (51.5 %) of the total value of imports. In "Agriculture, forestry and fishing, Construction and Other services (excluding Wholesale and retail trade, etc.)", the top 20 enterprises, in terms of value transactions, stood approximately for half (48.1 %) of the total value of imports. In "Wholesale and retail trade, repair of motor vehicles and motorcycles", the top 100 enterprises, in terms of value transactions, accounted for 39.8 % of the total value of imports and the top 500 enterprises for 2/3 (65.4 %) of the total value of imports (Table 3 - Graph 3).

Accordingly as regards exports, on the basis of available data broken down by sector of economic activity, it is observed that in "Manufacturing, Electricity, gas, steam and air conditioning supply, Water supply, sewerage, waste management and remediation activities and Mining and quarrying", the top 20 enterprises, in terms of value transactions accounted for more than half (51.9 %) of the total value of exports. In "Agriculture, forestry and fishing, Construction and Other services (excluding Wholesale and retail trade, etc.)", the top 20 enterprises, in terms of value transactions, stood approximately for half the total value of exports (41.5 %). In "Wholesale and retail trade, repair of motor vehicles and motorcycles", the top 100 enterprises, in terms of value transactions, accounted for more than half of the total value of exports (52.1 %) and the biggest 500 enterprises for 78.2 % of the total value of exports (Table 3 - Graph 3).

EXPLANATORY NOTES

| | |
|---|--|
| International trade in goods by enterprise characteristics | <p>Statistics on International Trade in Goods by Enterprise Characteristics are compiled on a yearly basis and refer to the total value of imports and exports on the basis of the economic activity sector and employment size class of the enterprises. International Trade in Goods Statistics, when combined with data on other characteristics of the enterprises, can provide a more comprehensive view for assessing the economy of a country.</p> |
| Legal framework | <p>The data on International Trade in Goods by Enterprise Characteristics are compiled pursuant to Regulations 638/2004 and 471/2009 of the European Parliament and of the Council.</p> |
| Reference period | <p>The year 2015.</p> |
| Frequency | <p>Annual.</p> |
| Definitions | <p>International Trade in Goods Statistics: it refers to the compilation of statistics on trade with EU countries (Intra Union Trade) and with Third countries (Extra Union Trade), on a monthly basis.</p> <p>The transactions with EU countries are compiled on the basis of the data submitted to the Intrastat system of ELSTAT by the enterprises which have <u>intra EU trade transactions</u> the value of which is above 100,000 euro for imports and 90,000 euro for exports (statistical threshold for 2014), on a yearly basis. The trade transactions <u>with Third countries</u> are compiled on the basis of data transmitted by the Customs Authorities of the country.</p> <p>Type of trader: refers to the type of trade transactions of the enterprise, namely if the enterprise is only an importer, only an exporter or a two-way trader (importer and exporter).</p> <p>Classification by section of economic activity: The classification of the enterprises by sector of economic activity is in compliance with the European standard statistical classification of economic activities, NACE Rev.2, as laid down in Annex I of Regulation (EC) 1893/2006 of the European Parliament and of the Council. Economic activities are classified into four distinct breakdown levels, namely: 21 Sections (one-digit level, A-U), 88 Divisions (two-digit level), 272 Groups (three-digit level) and 615 Classes (four-digit level).</p> <p>Size class of the enterprise (employment size class): the classification of the enterprises by size class is based on the number of employees of the enterprise, in accordance with the definitions laid down in Regulation (EC) 250/2009 on Structural Business Statistics.</p> |
| Methodology | <p>Statistics on International Trade in Goods by Enterprise Characteristics are compiled on the basis of data on imports and exports of international trade in goods and data on the characteristics of these enterprises deriving from the Statistical Business Register and the Structural Business Statistics.</p> <p>In this framework, Statistics on International Trade in Goods by Enterprise Characteristics are compiled, on a yearly basis, by combining information from the aforementioned sources at the level of the enterprise. Subsequently, tables are compiled with aggregate data pertaining to the number of enterprises and the value of international trade transactions by section of economic activity and employment size class of the enterprise.</p> <p>For the purposes of this statistical work, the data are broken down at one-digit level of NACE Rev. 2, namely at the level of the Section. The data of the Sections have been grouped and presented as follows:</p> <p>A) "Manufacturing, Electricity, gas, steam and air conditioning supply, Water supply, sewerage, waste management and remediation activities, Mining and quarrying",</p> <p>B) "Agriculture, forestry and fishing, Construction and Other services (excluding wholesale and retail trade, etc.)"</p> <p>It should be noted that "<u>Other services</u>" include: Transportation and storage, Accommodation and food service activities, Information and communication, Financial and insurance activities, Real estate activities, Professional, scientific and technical activities, Public administration and defence, Compulsory social security, Education, Human health and social work activities, Arts, entertainment and recreation, Other service activities, Activities of households as employers, undifferentiated goods- and services-producing activities of households for own use, Activities of extraterritorial organisations and bodies.</p> <p>C) "Wholesale and retail trade, repair of motor vehicles and motorcycles".</p> <p>More information concerning Statistics on International Trade in Goods by Enterprise Characteristics can be found on the portal of ELSTAT at: http://www.statistics.gr/en/statistics/itr.</p> |
