

Piraeus, 29 December 2017

PRESS RELEASE

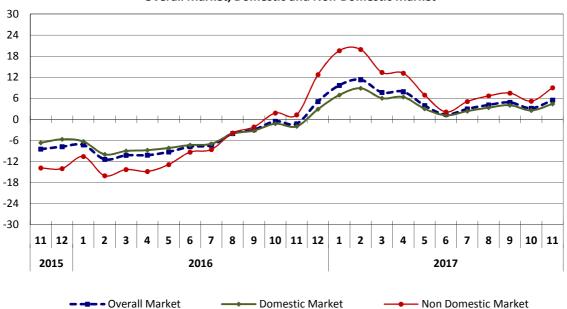

PRODUCER PRICE INDEX IN INDUSTRY: November 2017, y-o-y increase of 5.5%

The Overall Producer Price Index in Industry (total of domestic and non domestic market) with base year 2010=100.0 in November 2017 recorded an increase of 5.5% compared with November 2016. The corresponding index in November 2016 had recorded a decrease of 1.2% compared with November 2015 (Table 1.I).

The Overall Producer Price Index (PPI) in November 2017 recorded an increase of 1.4% compared with October 2017. The corresponding index in November 2016 had recorded a decrease of 0.8% compared with October 2016 (Table 1.II).

The average Overall Index for the twelve-month period from December 2016 to November 2017 increased by 5.6% in comparison with the corresponding index for the period from December 2015 to November 2016, while the decrease recorded between the previous twelve-month periods amounted to 6.7% (Table 6).

The time series of PPI are available on the website of ELSTAT, at: <u>http://www.statistics.gr/en/statistics/-/publication/DKT15/-</u>

1. Annual rates of change: November 2017 compared with November 2016

The increase of 5.5% in the Overall Producer Price Index in Industry in November 2017 compared with November 2016 is on account of the annual changes of the sub-indices of the markets as follows:

a. 4.4% increase in the PPI of the Domestic Market (Table 2.I).

More specifically, the aforementioned increase was the result of the yearly changes of the sub-indices in the following NACE Rev.2 Divisions:

Code	Division	Rates of change (%)
05	Mining of coal and lignite	21.2
19	Manufacture of coke and refined petroleum products	17.8
24	Manufacture of basic metals	5.1
35	Electricity, gas, steam and air conditioning supply	2.4
23	Manufacture of other non-metallic mineral products	2.0
20	Manufacture of chemicals and chemical products	1.1
22	Manufacture of rubber and plastic products	1.0
11	Manufacture of beverages	-1.4
27	Manufacture of electrical equipment	-4.9
21	Manufacture of basic pharmaceutical products and pharmaceutical preparations	-5.2

b. 9.0% increase in the PPI of the Non-Domestic Market (Table 3.I).

More specifically, the aforementioned increase was the result of the yearly changes of the sub-indices in the following NACE Rev.2 Divisions:

Code	Division	Rates of change (%)
19	Manufacture of coke and refined petroleum products	23.0
27	Manufacture of electrical equipment	9.5
10	Manufacture of food products	4.4
24	Manufacture of basic metals	3.4
20	Manufacture of chemicals and chemical products	3.2
25	Manufacture of fabricated metal products except machinery and equipment	2.9
08	Other mining and quarring	1.8
22	Manufacture of rubber and plastic products	1.4
11	Manufacture of beverages	-2.8
12	Manufacure of tobacco products	-3.2

2. Monthly rates of change: November 2017 compared with October 2017

The increase of 1.4% in the Overall Producer Price Index in Industry in November 2017 compared with October 2017 is on account of the monthly changes of the sub-indices of the markets as follows:

a. 1.1% increase in the PPI of the Domestic Market (Table 2.II).

More specifically, the aforementioned increase was the result of the monthly changes of the sub-indices in the following NACE Rev.2 Divisions:

Code	Division	Rates of change (%)
19	Manufacture of coke and refined petroleum products	5.8
28	Manufacture of machinery and equipment n.e.c.	0.4
20	Manufacture of chemicals and chemical products	0.4
35	Electricity, gas, steam and air conditioning supply	0.3
17	Manufacture of paper-pulp, paper and paper products	0.3
13	Manufacure of textiles	0.1
18	Printing and reproduction of recorded media	-0.1
10	Manufacture of food products	-0.2
24	Manufacture of basic metals	-0.4
27	Manufacture of electrical equipment	-0.5

b. 2.3% increase in the PPI of the Non-Domestic Market (Table 3.II).

More specifically, the aforementioned increase was the result of the monthly changes of the sub-indices in the following NACE Rev.2 Divisions:

Code	Division	Rates of change (%)
19	Manufacture of coke and refined petroleum products	6.7
07	Mininigs of metal ores	5.1
32	Other manufacturing	3.3
27	Manufacture of electrical equipment	1.1
26	Manufacture of computer, electronic and optical products	0.4
12	Manufacure of tobacco products	0.3
22	Manufacture of rubber and plastic products	0.2
24	Manufacture of basic metals	-0.2
10	Manufacture of food products	-0.2
14	Manufacure of wearing apparel	-0.9

METHODOLOGICAL NOTES

	METHODOLOGICAL NOTES
Generally	The Producer Price Index (PPI) in Industry, in its current form, has been compiled since January 2005, when it replaced the Wholesale Price Index which was compiled since 1963.
Purpose of the index – definitions	The purpose of the Producer Price Index in Industry is to measure the monthly rates of change in the prices of goods that are produced in the domestic market and are sold in this market or are exported to the non-domestic market.
	The Producer Price Index in Industry is a monthly index and it is composed by the sub-indices of the Domestic and Non-Domestic Market. The Index of the Non-Domestic Market, in its turn, is broken down in the Euro-zone Index and the Non-Euro-zone Index.
	The collected prices for products sold in the domestic market are basic prices, i.e. prices excluding VAT and other similar deductible taxes directly linked to turnover and also, excluding duties and other taxes on products. Moreover, subsidies on products are included in the basic prices. The prices collected for products sold in the non-domestic market are quoted FOB (Free on board) prices.
	The price data collected in the framework of the compilation of PPI refer mainly to transactions between the enterprises that produce and sell the surveyed products and the enterprises that buy those products, irrespective of whether those products are to be used as raw materials or as merchandise.
Legal basis	The compilation of PPI is governed by Council Regulation (EC) 1165/98 concerning short-term statistics and Regulation 1158/05 (amending the above mentioned Regulation) of the European Parliament and of the Council. Furthermore, the PPI is governed by Regulation (EC) 1893/2006 of the European Parliament and of the Council, the Commission Regulation (EC) 656/2007 and Regulation (EC) 451/2008 of the Council.
Reference period	Month.
Base year	2010=100.0.
Revision	The PPI is a fixed-base index. Pursuant to the provisions of Council Regulation 1165/98 concerning short-term statistics, the index is updated every five (5) years, in years ending in 0 or 5.
Statistical classifications	At the level of branches of economic activities the new Eurostat classification NACE Rev. 2 was used (Regulation 1893/2006), while at the level of main industrial groups, the allocation of two-digit and three-digit NACE Rev. 2 headings to categories of aggregate classification was used, in accordance with Commission Regulation 656/2007. At product level, the new Eurostat classification CPA 2008 was used, according to Council Regulation 451/2008.
Geographical coverage	The Index covers the whole of the country, with data from 41 prefectures.
Coverage of economic activities	The index covers all the sections of Industry, the main industrial groups and all the levels of economic activities (divisions, groups, classes) and the relevant products.
Statistical survey	The data are collected from approximately 1,000 enterprises and the total number of observations (prices) amounts approximately to 2,500. More specifically, 407 products sold in the domestic market and 174 products sold in the non-domestic market were selected. Out of the 174 products sold in the non-domestic market, 151 products are sold in the euro-zone countries and 156 products are sold in the non-euro-zone countries.
Publication of data	The PPI with the new base year 2010=100.0 is released since February 2015, with January 2015 as the first reference month. Data with base year 2010=100.0 are available from January 2000 onwards.
References	More information on the methodology concerning the compilation and calculation of the index, as well as the
