

Piraeus, 27 February 2015

PRESS RELEASE

ROAD ACCIDENTS: December 2014

In December 2014 the road traffic accidents, which occurred in Greece resulting in injured or killed persons, decreased by 5.2% in comparison with the corresponding month of 2013 (913 road accidents in December 2014 against 963 road accidents in December 2013).

Among the casualties of the injury-causing accidents that occurred in December 2014, 69 persons were killed, 77 persons were seriously injured and 1,018 persons were slightly injured. In contrast, in December 2013 the corresponding figures were: 67 persons killed, 86 seriously injured and 1,065 slightly injured. Therefore, road accident casualties in December 2014 recorded an increase by 3.0% for persons killed, a decrease by 10.5% for persons seriously injured and by 4.4% for persons slightly injured.

EXPLANATORY NOTES

Survey on **Road Accidents**

The survey on road accidents is conducted on a monthly basis and it records, for each Department of Greece and for each month separately, the number of accidents by fatal and/or non-fatal accident, as well as the number of persons injured by categories (drivers, passengers, pedestrians). On a yearly basis, road accidents are further analyzed.

The competent agencies for filling in/collecting the questionnaires on road accidents are the local Police Authorities and the local Port Authorities of

The lower level of analysis for the place where an injury road accident occurred is the settlement (oikismos), which is described by a 8-digit geographic code. Data are collected on a monthly basis.

The main variables are the following: place of accident, kind of road, casualties, conditions of road surface and type of road.

Legal basis

The Survey on Road Traffic Accidents is governed by Council Decision 93/704/EC.

Reference Period

01.12.2014 to 31.12.2014

Results

Availability of Provisional data: 2 months after the accident Final data: 1 year after the reference year

National Definitions

Road accident (injury accident): Any accident involving at least one road motor vehicle in motion on a public road or square to which the public has access (excluding yards, industrial sites or vehicle depot of public transport enterprises), resulting in at least one injured or killed person. Accidents with only material damages are not included.

Person killed: Any person killed immediately or dying within 30 days as a result of an injury accident (This national definition applies since 01.01.1996)

Person injured: Any person who sustained an injury as result of an injury accident, and who normally needs medical treatment.

Seriously injured: Any person who sustained an injury as result of an injury accident, such as brain damages, mutilation, multiple injuries, which may result in lack of awareness or which are life-threatening.

Slightly injured: Any person injured who sustained minor and not lifethreatening injuries.

Vehicle: For the purposes of road accidents statistics, vehicles include motor vehicles, trolleybuses, motorcycles, bicycles, motorbikes, agricultural and road making machines, animal and hand-drawn vehicles. Railway vehicles are excluded, unless the road accident involves one of the aforementioned types of vehicles and therefore, railway vehicles are considered vehicles.

Methodology

The questionnaires of the survey are filled in by the local Police Authorities and the local Port Authorities as well.
