

PRESS RELEASE

Building Activity Survey: May 2019

The Hellenic Statistical Authority (ELSTAT) announces the provisional data, for the month May 2019, of the Building Activity Survey. More Specifically:

- The Total Building Activity (private-public) in Greece, in May 2019 which is calculated on the basis of the number of issued building permits, amounted to 1,453. This figure corresponds to 268.9 thousand m² of surface and 1,159.9 thousand m³ of volume, reflecting, respectively, a 7.4% increase in the number of building permits, a 5.7% decrease in surface and a 2.1% increase in volume, compared with the corresponding month of 2018 (Table 1).
- The building permits for the Private Building Activity issued in Greece in May 2019 amounted to 1,442. This figure corresponds to 265.1 thousand m² of surface and 1,147.3 thousand m³ of volume. In comparison with the same month of 2018 there is a 7.3% increase in the number of building permits, a 3.9% decrease in surface and a 5.8% increase in volume (Table 2).
- The building permits for the Public Building Activity issued in Greece in May 2019 amounted to 11. This figure corresponds to 3.8 thousand m² of surface and 12.6 thousand m³ of volume. Public Building Activity accounted for 1.1% of the total building volume in May 2019.
- In the last twelve months, from June 2018 until May 2019, Total Building Activity (private-public) in Greece, calculated on the basis of the number of issued building permits, amounted to 15,334. This figure corresponds to 3,365.1 thousand m² of surface and 14,890.2 thousand m³ of volume. In comparison with the corresponding period from June 2017 until May 2018, there is a 7.9% increase in the number of building permits, a 10.7% increase in surface and a 12.1% increase in volume (Table 3).
- In the same period, from June 2018 until May 2019, Private Building Activity in Greece recorded a 7.7% increase in the number of issued building permits, an 11.2% increase in surface and a 13.0% increase in volume, compared with the corresponding period from June 2017 to May 2018 (Table 4). During the same period, Public Building Activity accounted for 3.7% of the total building volume.
- During the period January - May 2019, Total Building Activity (private-public) in Greece recorded a 0.1% decrease in the number of issued building permits, a 13.3% decrease in surface and a 10.7% decrease in volume, compared with the corresponding period of 2018 (Table 5). During the same period, January - May 2019, Private Building Activity in Greece recorded a 0.1% increase in the number of issued building permits, an 11.9% decrease in surface and a 9.0% decrease in volume, in comparison with the corresponding period of January - May 2018 (Table 6).

*Provisional data for May 2019

It should be noted that the increase or decrease in the number of the issued building permits does not imply, necessarily, an increase or decrease in the underlying surface or volume. This is due to individual building permits involving big surface or volume or to building permits that do not concern surface or volume.

Table 2. Private Building Activity, by Region (NUTS II), May 2018 and 2019*

Region	Number of Building Permits			Surface (in thousand m ²)			Volume (in thousand m ³)		
	May		Change (%)	May		Change (%)	May		Change (%)

EXPLANATORY NOTE

Building Activity Survey	The Building Activity Survey has been providing data on a monthly and yearly basis, since 1964. The purpose of this survey is to register the total number of building permits issued by the responsible administrative authorities, which are devolved to complete the questionnaire. The survey covers all the features of building activity, such as the type of building permit, the type of construction, the type and the characteristics of the building and its auxiliary spaces, as well as building usage, surface, volume and value.
Legal Framework	The survey is fully harmonized with the European legislation. The primary legislative act is Regulation (EU) 1165/1998, as it was amended according to Regulation (EU) 1158/2005.
Reference Period	May 1, 2019 to May 31, 2019
Coverage	The survey is exhaustive and covers the total number of issued building permits across the Country.
Geographical classification	The geographical classification is based on <i>Nomenclature of Territorial Units for Statistics</i> .

Map of the 13 Regions (NUTS 2) of Greece

Definitions **Building Permit** refers to all types of building permits. These are permits for new buildings or permits for additions, repair, renovation, demolition, legitimization, amendment and modification of a building.

The denotation of "built-property" is equal to "building".

Building is every permanent and independent structure, which has walls and a roof and consists of one or more rooms and other complementary spaces. Normally, buildings feature four walls. However, a construction open from one or even two sides will be considered a building, as long as it has a roof.

New building is any built-property raised on an uncovered site or in the place of an old building that has been demolished.

Building Addition is every construction that adds building volume (space) to an existing building, in terms of surface, height or both and creates a residence, a shop or both.

Building volume (the gross building volume) refers to the area that is included between the external surface of the external walls, the lowest level (the basement or the sub-basement, if it exists) and the roof of the building. If there is an open ground floor not enclosed within walls between the lower floor and the roof, its volume is taken into account. The relevant authorities calculate the volume of the building during the issuing of the building permit.

Surface of new-built property is considered to be the sum of each floor space along with the outer space of the outer walls.

General Remark Any delineation that may occur between the sum of sub totals and the totals is due to rounding.

References More information (questionnaires, methodology) with regards to the Building Activity Survey is available on ELSTAT's web-site: www.statistics.gr, under the link: <http://www.statistics.gr/en/statistics/-/publication/SOP03/->
