

## **PRESS RELEASE**

### **Building Activity Survey: October 2018**

The Hellenic Statistical Authority (ELSTAT) announces the provisional data, for the month October 2018, of the Building Activity Survey. More Specifically:

- The Total Building Activity (private-public) in Greece, in October 2018 which is calculated on the basis of the number of issued building permits, amounted to 1,595. This figure corresponds to 408.5 thousand m<sup>2</sup> of surface and 1,921.4 thousand m<sup>3</sup> of volume, reflecting, respectively, a 23.4% increase in the number of building permits, a 26.0% increase in surface and a 22.0% increase in volume, compared with the corresponding month of 2017 (Table 1).
- The building permits for the Private Building Activity issued in Greece in October 2018 amounted to 1,575. This figure corresponds to 398.8 thousand m<sup>2</sup> of surface and 1,883.1 thousand m<sup>3</sup> of volume. In comparison with the same month of 2017 there is a 23.2% increase in the number of building permits, a 33.7% increase in surface and a 38.9% increase in volume (Table 2).
- The building permits for the Public Building Activity issued in Greece in October 2018 amounted to 20. This figure corresponds to 9.7 thousand m<sup>2</sup> of surface and 38.2 thousand m<sup>3</sup> of volume. Public Building Activity accounted for 2.0% of the total building volume in October 2018.
- In the last twelve months, from November 2017 until October 2018, Total Building Activity (private-public) in Greece, calculated on the basis of the number of issued building permits, amounted to 15,118. This figure corresponds to 3,334.2 thousand m<sup>2</sup> of surface and 14,570.1 thousand m<sup>3</sup> of volume. In comparison with the corresponding period from November 2016 until October 2017, there is a 9.8% increase in the number of building permits, an 18.2% increase in surface and a 16.1% increase in volume (Table 3).
- In the same period, from November 2017 until October 2018, Private Building Activity in Greece recorded a 9.6% increase in the number of issued building permits, a 17.6% increase in surface and a 16.2% increase in volume, compared with the corresponding period from November 2016 to October 2017 (Table 4). During the same period, Public Building Activity accounted for 3.3% of the total building volume.
- During the period January - October 2018, Total Building Activity (private-public) in Greece recorded a 10.9% increase in the number of issued building permits, a 20.1% increase in surface and a 17.9% increase in volume, compared with the corresponding period of 2017 (Table 5). During the same period, January - October 2018, Private Building Activity in Greece recorded a 10.6% increase in the number of issued building permits, a 19.9% increase in surface and an 18.8% increase in volume, in comparison with the corresponding period of January - October 2017 (Table 6).

<b>Greece, Total</b>	<b>1,293</b>	<b>1,595</b>	<b>23.4</b>	<b>324.1</b>	<b>408.5</b>	<b>26.0</b>	<b>1,574.8</b>	<b>1,921.4</b>	<b>22.0</b>

\*Provisional data for October 2018

It should be noted that the increase or decrease in the number of the issued building permits does not imply, necessarily, an increase or decrease in the underlying surface or volume. This is due to individual building permits involving big surface or volume or to building permits that do not concern surface or volume.

## EXPLANATORY NOTE

<b>Building Activity Survey</b>	The Building Activity Survey has been providing data on a monthly and yearly basis, since 1964. The purpose of this survey is to register the total number of building permits issued by the responsible administrative authorities, which are devolved to complete the questionnaire. The survey covers all the features of building activity, such as the type of building permit, the type of construction, the type and the characteristics of the building and its auxiliary spaces, as well as building usage, surface, volume and value.
<b>Legal Framework</b>	The survey is fully harmonized with the European legislation. The primary legislative act is Regulation (EU) 1165/1998, as it was amended according to Regulation (EU) 1158/2005.
<b>Reference Period</b>	October 1, 2018 to October 31, 2018
<b>Coverage</b>	The survey is exhaustive and covers the total number of issued building permits across the country.
<b>Geographical classification</b>	The geographical classification is based on <i>Nomenclature of Territorial Units for Statistics</i> .

Map of the 13 Regions (NUTS 2) of Greece

**Definitions** **Building Permit** refers to all types of building permits. These are permits for new buildings or permits for additions, repair, renovation, demolition, legitimization, amendment and modification of a building.

The denotation of "built-property" is equal to "building".

**Building** is every permanent and independent structure, which has walls and a roof and consists of one or more rooms and other complementary spaces. Normally, buildings feature four walls. However, a construction open from one or even two sides will be considered a building, as long as it has a roof.

**New building** is any built-property raised on an uncovered site or in the place of an old building that has been demolished.

**Building Addition** is every construction that adds building volume (space) to an existing building, in terms of surface, height or both and creates a residence, a shop or both.

**Building volume** (the gross building volume) refers to the area that is included between the external surface of the external walls, the lowest level (the basement or the sub-basement, if it exists) and the roof of the building. If there is an open ground floor not enclosed within walls between the lower floor and the roof, its volume is taken into account. The relevant authorities calculate the volume of the building during the issuing of the building permit.

**Surface of new-built property** is considered to be the sum of each floor space along with the outer space of the outer walls.

**General Remark** Any delineation that may occur between the sum of sub totals and the totals is due to rounding.

**References** More information (questionnaires, methodology) with regards to the Building Activity Survey is available on ELSTAT's web-site: [www.statistics.gr](http://www.statistics.gr), under the link: <http://www.statistics.gr/en/statistics/-/publication/SOP03/->
