HELLENIC STATISTICAL AUTHORITY

Piraeus, 19 August 2011

PRESS RELEASE

The New Orders Index in Industry recorded an decline of 5.5% in June 2011 compared with June 2010.

NEW ORDERS INDEX IN INDUSTRY: June 2011

The New Orders Index in Industry (both domestic and non-domestic market) in June 2011 compared with June 2010 recorded an decline of 5.5%. In June 2010, the annual rate of change of the New Orders in Industry was 5.2%.

The average New Orders Index in Industry for the 12-month period from July 2010 to June 2011, compared with the 12-month period from July 2009 to June 2010, increased by 4.4%. In June 2009, the corresponding average rate of change of the New Orders Index in Industry was -10.8%.

The decrease of the New Orders Index in Industry by 5.5% in June 2011, compared with June 2010, was due to the annual changes of the indices of the markets as following:

- The New Orders Index in Industry for the domestic market decreased by 17.1%.
- The New Orders Index in Industry for the non-domestic market increased by 8.6%.

The increase of the New Orders Index in Industry for the non-domestic market by 8.6% in June 2011, compared with June 2010, was due to the annual changes as following:

- The New Orders Index in Industry for the Eurozone countries increased by 8.3%.
- The New Orders Index in Industry for the non-Eurozone countries increased by 12.9%.

METHODOLOGICAL NOTES

Generally	The New Orders Index in Industry is being compiled since 2006.
Purpose of the index	The purpose of this index is to assess the future evolution of demand for goods and services in industry as an indication of future production. An order is defined as the value of the contract which links a producer and a third party in respect of the provision of goods and services by producer. The New Orders Index is also suitable to indicate whether the demand originates from the domestic or the non-domestic market.
Legal basis	The compilation and publication of this index is based on the framework of requirements of the Council Regulation (EC) No 1165/98 concerning short-term statistics (STS-R), as well as the amendment Regulation (EC) No 1158/05 of the European Parliament and Council, amending the Council Regulation (EC) No 1165/98. Furthermore, this index is governed by the Regulation (EEC) No.1893/2006 of the European Parliament and of the Council, by the Commission Regulation (EEC) No.656/2007 and by the Regulation (EEC) No.451/2008 of the Council.
Reference period	Month
Base year	2005=100.0.
Revision	The last revision of the New Orders Index in Industry with base year 2005=100.0 is done in the framework of the Short – Term Statistics (STS) Council Regulation (EC) No 1165/98 concerning short-term statistics. According to this regulation the index in question is updated every five years, in years ending in 0 or 5.
Statistical classifications	At the level of categories of economic activities the new Eurostat classification NACE Rev. 2 was used (Regulation 1893/2006), while at the level of main industrial groups, the allocation of two-digit and three-digit NACE Rev. 2 headings to categories of aggregate classification was used, in accordance with the Commission Regulation 656/2007. At product level, the new Eurostat classification CPA 2008 was used, according to the Council Regulation 451/2008.
Geographical coverage	The Index covers the whole country.
Coverage of economic activities	The New Orders Index in Industry covers the whole country and is compiled for the activities listed in Section D (manufacturing) of the NACE Rev.2 classification and specifically only for the divisions: 13,14,17, 20, 21, 24, 25, 26, 27, 28, 29 and 30.
Computation of the Index	The New Orders Index in Industry is a fixed base index. This index is calculated initially at the four-digit level of economic activity and subsequently, with the implementation of appropriate weighting coefficients, the index is calculated at higher levels (three-level, two-level and one-level of economic activity) or at the level of Main Industrial Groupings (MIGs).
Publication of data	The New Orders Index with the new base year (2005) is being released since April 2009 with January 2009 as first reference month. Data with base year 2005=100.0 are available from January 2000 onwards.
References	More information about the methodology concerning the compilation and calculation of the index and for the time series is available on the Hellenic Statistical Authority (ELSTAT) website (www.statistics.gr).
