Graphs: Quarterly Evolution of Producer Price Indices for Services

METHODOLOGICAL NOTES

Generally	The Producer Price Indices for Services (SPPI) are quarterly indices compiling and publishing for first time in Greece, with base year 2006=100.0, while, the recent rebasing was with base year 2010=100.0.
Purpose of the indices	The purpose of these indices is to measure the quarterly rates of change in the producer prices of services and to record the prices evolution that reflect the supply and demand conditions in the service markets, for the analysis of the real changes in the economy and in monitoring inflationary pressures.
Definitions of the indices	<p>The Producer Price Indices for Services are output price indices for the service production of resident producers. The SPPI cover services provided in the market for all uses, that is intermediate expenditure, final consumption and exports. However, the intermediate expenditure dominates, because the SPPI are found to those branches of services whose production is directed mainly to other productive units (Business to Business), but did not differ significantly in the overall index (Business to All). Exceptions cases: the air transport services index, that is compiled as overall index (Business to All-B2All) and the two indices for postal and courier services, that are compiled as overall indices and also as partial indices for enterprises (Business to Business-B2B) and for consumers (Business to Consumer-B2C). Particularly in new branches of services: the sea and short sea shipping index, is compiled as overall index (B2All) and telecommunication indices, are compiled both as overall indices and sub-indices for businesses (B2B) and for consumers (B2C).</p> <p>The SPPI measure the prices of real transactions that reflect the price that the producer receives for services that are sold really to purchasers, including discounts, rebates or other surcharges. The collected prices are the basic prices for services sold. i.e. prices excluding VAT and other similar deductible taxes directly linked to turnover and also excluding all other taxes on products, but including any subsidies on products.</p>
Legal basis	The Producer Price Indices for Services are compiled in compliance with the Council Regulation (EEC) No.1165/98 “concerning short-term statistics” as it was amended by the Regulations No.1158/05, 1503/2006 of the European Parliament and of the Council. Moreover, the aforementioned indices are compiled in compliance with the Regulation (EEC) No.1893/2006 of the European Parliament and of the Council, as well as by the Regulation (EEC) No.451/2008 of the Council.
