

PRESS RELEASE

EVOLUTION OF TURNOVER OF ENTERPRISES UNDER SUSPENSION OF OPERATION DUE TO THE PANDEMIC OF THE CORONA VIRUS DISEASE 2019 (COVID-19)

APRIL 2021

The Hellenic Statistical Authority (ELSTAT) announces data on the evolution of turnover of the enterprises that were under suspension of operation in March 2020, on the basis of state order, due to the pandemic of the corona virus disease 2019 (COVID-19) (corresponding link, available only in Greek, [KAD of closed enterprises](#)).

Moreover, additional discrete data are announced for the enterprises that were under suspension of operation in November 2020, on the basis of state order, for the limitation of the dispersion of the corona virus (COVID-19) (corresponding links, available only in Greek, [Government Gazette B'/4899/06.11.2020](#) and [List of KAD under suspension of operation](#)).

The current publication is a sequel of the relevant Press Releases published by ELSTAT ([PR link](#)), incorporating the most recent data on turnover from Administrative Sources for **April 2021**. Similar publications have been scheduled and are issued on a monthly basis, during the whole period in which the recording of the impact of COVID-19 on the performance of Greek enterprises that were under suspension of operation in the framework of the confinement measures remains relevant and warranted.

In addition, tables and graphs presenting aggregated turnover data for all enterprises and sectors of the economy throughout the period under review have been incorporated, as a comparative basis for the assessment of the effects of COVID-19 pandemic, in terms of turnover rates of change, in total and by sector.

The purpose served by these publications is to both monitor and present the evolution of the basic economic concept of interest (turnover from Administrative Sources) for the enterprises under suspension of operation, in distinct periods ranging from the beginning of the year 2020, as well as in the year 2021 during the periods of the implementation of the confinement measures and during the periods of the gradual lifting of these measures, as well as in comparison with the corresponding months of each previous year.

The published data can on the one hand highlight, which enterprises suffer more in terms of turnover decrease during the implementation periods of the confinement measures and on the other hand the relative speed at which enterprises recovered upon the gradual lifting of these measures.

Moreover, on the basis of the published data, it can be concluded from the supply side, which enterprises responded – adapted faster to the lifting of the confinement measures and to the operation under the newly imposed conditions due to the pandemic. In parallel, from the demand side, useful conclusions can be drawn indirectly as regards the enterprises that were chosen in priority and more massively by the consumers (natural persons and enterprises) during the periods of the lifting of the confinement measures, in order to satisfy their basic and other needs.

Starting from the press release published in May 2021 (reference period March and 1st quarter 2021), an updated framework for the determination of enterprises under suspension of operation and of the total of enterprises in the Greek Economy is used, which occurs from the linking at micro-data level of administrative registers of enterprises, of the reference year 2020, administrative transactions files of the reference years 2019, 2020 and 2021 and of the final Statistical Business Register, of the reference year 2018, that provides a standardized set of data, harmonized with European classifications.

More specifically,

The number of enterprises under suspension of operation in March 2020, according to the updated determination framework¹ amounted to 210,217 enterprises, which corresponds to 14.8% of the Total of Enterprises in the Greek Economy. The biggest percentage of the enterprises under suspension was recorded in section Education (89.3%) followed by section of Accommodation and Food Service Activities (85.0%). The corresponding smallest percentages were recorded in section Professional, Scientific and Technical Activities (0.2%) and in section Information and Communication (1.1%). In the following sections of economic activity there are no enterprises under obligatory suspension of operation (Table 1):

- Agriculture, Forestry and Fishing
- Mining and Quarrying
- Manufacturing
- Electricity, Gas, Steam and Air Conditioning Supply
- Water Supply, Sewerage, Waste Management and Remediation Activities
- Construction
- Transportation and Storage
- Financial and Insurance Activities
- Real Estate Activities
- Public Administration and Defense; Compulsory Social Security.

Concerning **the enterprises and the activities of the economy as a whole**, the turnover in the first quarter 2021 amounted to 63,560,924 thousand euro, recording a decrease of 5.4% in comparison with the first quarter 2020, when the respective turnover was 67,158,036 thousand euro. The biggest increase in turnover per 12.5% in the first quarter 2021 compared with the first quarter 2020 was recorded from the enterprises of the section Agriculture, Forestry and Fishing. The biggest decrease in turnover per 70.4% in the first quarter 2021 compared with the first quarter 2020 was recorded from the enterprises of the section Arts, Entertainment and Recreation, while the smallest decrease in turnover per 1.6% was recorded from the enterprises of the section Construction (Table 2a).

For **the enterprises of the economy as a whole, obliged to double-entry accounting bookkeeping**, for which data are available on a monthly basis, the turnover in April 2021 amounted to 20,420,801 thousand euro, recording an increase of 42.2% in comparison with April 2020, when the respective turnover was 14,356,847 thousand euro. The biggest increase in turnover in April 2021 compared with April 2020 was recorded from the enterprises of the section Arts, Entertainment and Recreation and of the section Accommodation and Food Service Activities per 733.1% and 96.9% respectively. The smallest increase in turnover in April 2021 compared with April 2020 was recorded from the enterprises of the section Construction and of the section Public Administration and Defense; Compulsory Social Security per 22.2% and 23.3% respectively (Table 2b).

From **the 210,217 enterprises that were under suspension of operation in March 2020**, the turnover in the first quarter 2021 amounted to 2,773,843 thousand euro, recording a decrease of 39.1% in comparison with the first quarter 2020, when the respective turnover was 4,554,288 thousand euro. An increase in turnover per 21.7% in the first quarter 2021 compared with the first quarter 2020 was recorded from the enterprises of the activity class Architectural and engineering activities; technical testing and analysis. The biggest decrease in turnover per 92.6% in the first quarter 2021 compared with the first quarter 2020 was recorded from the enterprises of the activity class Motion picture, video and television programme production, sound recording and music publishing activities, while the smallest decrease in turnover per 4.1% was recorded from the enterprises of the activity class Social work activities without accommodation (Table 3a).

¹ **Updated determination framework:** occurs from the linking at micro-data level of administrative registers of enterprises, of the reference year 2020, administrative transactions files of the reference years 2019, 2020 and 2021 and of the final Statistical Business Register, of the reference year 2018, that provides a standardized set of data, harmonized with European classifications.

For **the enterprises under suspension of operation in March 2020, obliged to double-entry accounting bookkeeping**, for which data are available on a monthly basis, the turnover in April 2021 amounted to 880,368 thousand euro, recording an increase of 222.2% in comparison with April 2020, when the respective turnover was 273,218 thousand euro. The biggest increase in turnover in April 2021 compared with April 2020 was recorded from the enterprises in the activity class Architectural and engineering activities; technical testing and analysis and of the activity class Gambling and betting activities per 2,469.1% and 1,330.9% respectively. The smallest increase in turnover in April 2021 compared with April 2020 was recorded from the enterprises in the activity class Activities of membership organisations and of the class activity Creative, arts and entertainment activities per 16.8% and 21.7% respectively (Table 3b).

In comparison with the enterprises that were under suspension of operation in March 2020, **in November 2020 were additionally under suspension of operation** enterprises of the activity class Travel agency, tour operator and other reservation service and related activities and enterprises of the activity class Human health activities (Tables 4a and 4b).

Graph 4. Turnover (in thousand €) only for the Enterprises under Suspension of Operation in March 2020, obliged to double-entry accounting bookkeeping (monthly data submission)

METHODOLOGICAL NOTES

Generally The present Press Release provides statistical data on enterprises classified in the economic activity classes that were or are under suspension of operation on the basis of state order in March 2020, due to the pandemic of the corona virus disease 2019 (COVID-19), (relevant link from the Ministry of Finance webpage, available only in Greek, [KAD of closed enterprises](#)).

These statistical data have been compiled on the basis of the linking and processing of primary data from the following sources:

- The final Statistical Business Register of ELSTAT, of the reference year 2018.
- Administrative registers of enterprises, of the reference year 2020.
- Administrative transactions files (tax, etc) of the reference years 2019, 2020 and 2021.

In particular, the following primary data have been used per source:

- Active enterprises and the economic activity class from the final Statistical Business Register of the reference year 2018.
- The population of legal units (VAT number) classified in KAD (Codes of Activity) with temporary suspension of operation, from administrative registers of enterprises, of year 2020.
- Income data from administrative transactions files of the years 2019, 2020 and 2021.

It has to be noted, that after the process of matching the KAD codes to the classes of the Statistical Classification of Economic Activities (NACE Rev. 2), for which a total (referring to all the underlying activities) or a partial suspension of operation is applied for the enterprises that are classified to them on the basis of state order in March 2020, follows the linking with the data of the final Statistical Business Register of the year 2018, which is the main reference framework for the current Press Release. This linking leads to different results as regards the share of enterprises under suspension of operation per economic activity class NACE Rev.2, (mainly, because there are enterprises that were operating during the whole or part of the year 2018 and they were closed from 2019 onwards).

After the application of the same methodology, the number of enterprises that were under suspension of operation in November 2020, on the basis of state order, has been defined (corresponding links, available only in Greek, [Government Gazette B'/4899/06.11.2020](#) and [List of KAD under suspension of operation](#)).

Statistical classifications For the economic activities, the European statistical classification of economic activities [NACE Rev. 2](#) is used. It is noted that an automatic transition from KAD to codes of NACE Rev. 2 classification was applied on the basis of valid correspondence rules.

Reference Period April 2021.

Statistical unit The statistical unit is the legal unit (distinct VAT numbers).

Comparability The announced statistical data are comparable with the data of the final Statistical Business Register of ELSTAT, of the reference year 2018 (relevant link from the webpage of ELSTAT, where tables and information on the methodology applied are provided [Statistical Business Register](#)).

References Analytical tables are available under ELSTAT's website (www.statistics.gr) at the following link: <https://www.statistics.gr/en/statistics/-/publication/SBR02/>

ANNEX

List of Codes of National Activities (KAD), for which suspension of operation holds, which correspond to part of classes of specific divisions of the Statistical Classification of Economic Activities (NACE Rev. 2)

Statistical Classification of Economic Activities (NACE Rev. 2)		Codes of Activities (KAD) under suspension of operation
