METHODOLOGICAL NOTES

Generally

The current announcement provides statistical data on turnover for all enterprises and sections of the economy.

These statistical data have been compiled on the basis of the linking and processing of primary data from the following sources:

- The final Statistical Business Register of ELSTAT, of the reference year 2023.
- Administrative registers of enterprises, of the reference years 2024 and 2025.
- Administrative transactions files (tax, etc) of the reference years 2019 to 2026.

In particular, the following primary data have been used per source:

- Active enterprises and the economic activity class from the final Statistical Business Register of the reference year 2023.
- The economic activity class for the enterprises that started their activity after the reference year 2023 and have a significant turnover, from administrative registers of enterprises of the reference years 2024 and 2025.
  Specifically, enterprises from all economic activity sections that were established in 2024 or 2025 and recorded an annual turnover of at least 5,000 thousand euro in 2025 were included in the framework. In particular, for the section "Accommodation and Food Service Activities", enterprises established in the same period and recorded an annual turnover of at least 500 thousand euro in 2025 were included.
- Income data from administrative transactions files of the reference years 2019 to 2026.

Statistical classifications

For the economic activities, the European statistical classification of economic activities NACE Rev. 2 is used.

Reference Period

September and 3rd quarter 2026.

Comparability

The announced statistical data are comparable with the data of the final Statistical Business Register of ELSTAT, of the reference year 2023 (relevant link from the webpage of ELSTAT, where tables and information on the methodology applied are provided *Statistical Business Register*).

Revision of data

The data for economic activity section "R: Arts, Entertainment and Recreation", as well as the corresponding aggregate data for the economy as a whole, have been revised for the 1st and 2nd quarter of 2026, as well as for the period February–August 2026.

The revision was carried out following the update of the determination framework of enterprises, through the inclusion of additional enterprises in economic activity section R. As a result, turnover data were revised both for this specific economic activity section and for the economy as a whole.

The revised data for the 1st and 2nd quarter of 2026, as well as the monthly data for the period February–August 2026, are available in Table 1 of ELSTAT's website.
