ANONYMIZATION CRITERIA FOR PUBLIC USE FILES OF ELSTAT

1. Survey on Income and Living Conditions (EU-SILC)

1.1. With reference year until and including 2012 and reference period of the income until and including 2011, respectively

- Non-inclusion of the full name of individuals, the postal address of their dwelling and the Municipality where their dwelling is located.
- Non-inclusion of the Department and Region (NUTS 2) where the individuals’ dwelling is located.
- Inclusion of the Great Geographical Area (NUTS 1) where the individuals’ dwelling is located.
- Inclusion of the degree of urbanisation of the Municipal/Local Community where the individuals’ dwelling is located, on the basis of the most populated settlement, broken down into three (3) categories: urban, semi-urban and rural.
- Inclusion of the extrapolation factor of households and individuals, as well as of the size of households (1, 2, 3, 4 and 5 and over members).
- Inclusion of the month and year of birth of individuals, with the exception of those aged over 85 years, who will appear under one category.
- Inclusion of the citizenship of individuals, broken down into three (3) categories: Greek, EU Member States, Other countries.
- Inclusion of the country of birth of individuals, broken down into three (3) groups: Greece, EU Member States and Other countries.
- Inclusion of the family status of individuals, broken down into three (3) categories: a) single, b) married or in a civil partnership and c) widowed / divorced / separated.
- Inclusion of the occupation of individuals by 1-digit ISCO code.
- Inclusion of the branch of main economic activity of enterprises in which the individuals work, broken down into three (3) categories: Primary, Secondary and Tertiary sectors (i.e., Agriculture-Livestock-Fishery, Manufacturing-Construction, Trade and Services).
- Inclusion of the working hours of individuals.
- Inclusion of the number of rooms of the dwellings in which the households reside, with the exception of dwellings with 6 and over rooms, which will appear under one category.

1.2. With reference year from 2013 until and including 2017 and reference period of the income from 2012 until and including 2016, respectively

- Non-inclusion of the full name of individuals, the postal address of their dwelling and the Municipality where their dwelling is located.
- Non-inclusion of the Department and Region (NUTS 2) where the individuals’ dwelling is located.
• Inclusion of the Great Geographical Area (NUTS 1) where the individuals' dwelling is located.
• Inclusion of the degree of urbanisation of the Municipal/Local Community where the individuals' dwelling is located, on the basis of: a) the most populated settlement, broken down into three (3) categories: urban, semi-urban and rural and b) the population density, broken down into three (3) categories: high; medium; and low density.
• Inclusion of the extrapolation factor of households and individuals, as well as of the size of households (1, 2, 3, 4 and 5 and over members).
• Inclusion of the month and year of birth of individuals, with the exception of those aged over 85 years, who will appear under one category.
• Inclusion of the citizenship of individuals, broken down into three (3) categories: Greek, EU Member States, Other countries.
• Inclusion of the country of birth of individuals, broken down into three (3) groups: Greece, EU Member States and Other countries.
• Inclusion of the family status of individuals, broken down into three (3) categories: a) single, b) married or in a civil partnership and c) widowed / divorced / separated.
• Inclusion of the occupation of individuals by 1-digit ISCO code.
• Inclusion of the branch of main economic activity of enterprises in which the individuals work, broken down into three (3) categories: Primary, Secondary and Tertiary sectors (i.e., Agriculture-Livestock-Fishery, Manufacturing-Construction, Trade and Services).
• Inclusion of the working hours of individuals.
• Inclusion of the number of rooms of the dwellings in which the households reside, with the exception of dwellings with 6 and over rooms, which will appear under one category.

1.3. With reference year from 2018 onwards and reference period of the income from 2017 onwards, respectively
• Non-inclusion of the full name of individuals, the postal address of their dwelling and the Municipality where their dwelling is located.
• Non-inclusion of the Department where the individuals' dwelling is located.
• Inclusion of the Region (NUTS 2) where the individuals' dwelling is located.
• Inclusion of the degree of urbanisation of the Municipal/Local Community where the individuals' dwelling is located, on the basis of: a) the most populated settlement, broken down into three (3) categories: urban, semi-urban and rural and b) the population density, broken down into three (3) categories: high; medium; and low density.
• Inclusion of the extrapolation factor of households and individuals, as well as of the size of households (1, 2, 3, 4 and 5 and over members).
• Inclusion of the month and year of birth of individuals, with the exception of those aged over 85 years, who will appear under one category.
• Inclusion of the citizenship of individuals, broken down into three (3) categories: Greek, EU Member States, Other countries.
• Inclusion of the country of birth of individuals, broken down into three (3) groups: Greece, EU Member States and Other countries.
• Inclusion of the family status of individuals, broken down into three (3) categories: a) single, b) married or in a civil partnership and c) widowed / divorced / separated.
• Inclusion of the occupation of individuals by 1-digit ISCO code.
• Inclusion of the branch of main economic activity of enterprises in which the individuals work, broken down into three (3) categories: Primary, Secondary and Tertiary sectors (i.e., Agriculture-Livestock-Fishery, Manufacturing-Construction, Trade and Services).
• Inclusion of the working hours of individuals.
• Inclusion of the number of rooms of the dwellings in which the households reside, with the exception of dwellings with 6 and over rooms, which will appear under one category.

2. Labour Force Survey (LFS)

2.1. With reference quarter until and including the 4th quarter of 2012
• Non-inclusion of the full name of individuals, the postal address of their dwelling and the Municipality where their dwelling is located.
• Non-inclusion of the Department where the individuals’ dwelling is located.
• Non-inclusion of the reference week of the quarterly survey data.
• Inclusion of the Region (NUTS 2) where the individuals’ dwelling is located.
• Inclusion of the degree of urbanisation of the Municipal/Local Community where the individuals’ dwelling is located, broken down into three (3) categories: urban, semi-urban and rural.
• Inclusion of the extrapolation factor of households and individuals.
• Inclusion of the age of individuals, with the exception of those aged over 85 years, who will appear under one category.
• Inclusion of the citizenship of individuals, broken down into three (3) categories: Greek, EU Member States, Other countries.
• Inclusion of the country of birth of individuals, broken down into three (3) groups: Greece, EU Member States and Other countries.
• Inclusion of the family status of individuals, broken down into three (3) categories: a) single, b) married or in a civil partnership and c) widowed / divorced / separated.
• Inclusion of the occupational status of individuals, broken down into three (3) categories: self-employed (with or without staff), salaried employees and assistants in the family business.
• Inclusion of the number of employed persons of the local units in which the individuals work, broken down into the following size classes 1-10, 11-19, 20-49, 50 and over employees.
• Inclusion of the occupation of individuals, by 2-digit ISCO code.
• Inclusion of the branch of main economic activity of the enterprises in which the individuals work, by 2-digit NACE code.
• Inclusion of the working hours of individuals, with the exception of individuals whose working hours exceed eighty (80) hours, who will appear under one category.

2.2. With reference quarter from the 1st quarter of 2013 onwards
• Non-inclusion of the full name of individuals, the postal address of their dwelling and the Municipality where their dwelling is located.
• Non-inclusion of the Department where the individuals’ dwelling is located.
• Non-inclusion of the reference week of the quarterly survey data.
• Inclusion of the Region (NUTS 2) where the individuals’ dwelling is located.
• Inclusion of the degree of urbanisation of the Municipal/Local Community where the individuals’ dwelling is located, on the basis of: a) the most populated settlement, broken down into three (3) categories: urban, semi-urban and rural and b) the population density, broken down into three (3) categories: high; medium; and low density.
• Inclusion of the extrapolation factor of households and individuals.
• Inclusion of the age of individuals, with the exception of those aged over 85 years, who will appear under one category.
• Inclusion of the citizenship of individuals, broken down into three (3) categories: Greek, EU Member States, Other countries.
• Inclusion of the country of birth of individuals, broken down into three (3) categories: Greece, EU Member States and Other countries.
• Inclusion of the family status of individuals, broken down into three (3) categories: a) single, b) married or in a civil partnership and c) widowed / divorced / separated.
• Inclusion of the occupational status of individuals, broken down into three (3) categories: self-employed (with or without staff), salaried employees and assistants in the family business.
• Inclusion of the number of employed persons of the local units in which the individuals work, broken down into the following size classes 1-10, 11-19, 20-49, 50 and over employees.
• Inclusion of the occupation of individuals, by 2-digit ISCO code.
• Inclusion of the branch of main economic activity of the enterprises in which the individuals work, by 2-digit NACE code.
• Inclusion of the working hours of individuals, with the exception of individuals whose working hours exceed eighty (80) hours, who will appear under one category.

3. Household Budget Survey (HBS)

3.1. With reference year from 2008 until and including 2013
• Non-inclusion of the full name of individuals, the postal address of their dwelling and the Municipality where their dwelling is located.
• Non-inclusion of the Department and Region (NUTS 2) where the individuals’ dwelling is located.
• Inclusion of the Great Geographical Area (NUTS 1) where the individuals’ dwelling is located.
• Inclusion of the degree of urbanisation of the Municipal/Local Community where the individuals’ dwelling is located, on the basis of the population density, broken down into three (3) categories: high; medium; and low density.
• Inclusion of the extrapolation factor of households, as well as of their size (1, 2, 3, 4 and 5 and over members).
• Inclusion of the age of individuals, with the exception of those aged over 85 years, who will appear under one category.
• Inclusion of the citizenship of individuals, broken down into three (3) categories: Greek, EU Member States, Other countries.
• Inclusion of the country of birth of individuals, broken down into three (3) groups: Greece, EU Member States and Other countries.
• Inclusion of the country of residence of individuals, broken down into three (3) groups: Greece, EU Member States and Other countries.
• Inclusion of the family status of individuals, broken down into three (3) categories: a) single, b) married or in a civil partnership and c) widowed / divorced / separated.
• Inclusion of the occupation of individuals, by 1-digit ISCO code.
• Inclusion of the branch of main economic activity of the enterprises in which the individuals work, broken down into three (3) categories: Primary, Secondary and Tertiary sectors (i.e., Agriculture-Livestock-Fishery, Manufacturing-Construction, Trade and Services).
• Inclusion of the occupational status of individuals, broken down into the following categories: a) Self-employed, b) Salaried employee, c) Non-paid assistant in the family business and d) Apprentice with remuneration.
• Inclusion of the current main activity of individuals during the week before the beginning of the survey, broken down into the following categories: a) Employed, b) Unemployed, c) Pensioner, d) Pupil, student, soldier, e) Housewife, f) Unable to work or with permanent disability and other cases.
• Inclusion of the breakdown of species and services at 4-digit level.

3.2. With reference year from 2014 onwards

• Non-inclusion of the full name of individuals, the postal address of their dwelling and the Municipality where their dwelling is located.
• Non-inclusion of the Department where the individuals' dwelling is located.
• Inclusion of the Region (NUTS 2) where the individuals' dwelling is located.
• Inclusion of the degree of urbanisation of the Municipal/Local Community where the individuals' dwelling is located, on the basis of the population density, broken down into three (3) categories: high; medium; and low density.
• Inclusion of the extrapolation factor of households, as well as of their size (1, 2, 3, 4 and 5 and over members).
• Inclusion of the age of individuals, with the exception of those aged over 85 years, who will appear under one category.
• Inclusion of the citizenship of individuals, broken down into three (3) categories: Greek, EU Member States, Other countries.
• Inclusion of the country of birth of individuals, broken down into three (3) groups: Greece, EU Member States and Other countries.
• Inclusion of the country of residence of individuals, broken down into three (3) groups: Greece, EU Member States and Other countries.
• Inclusion of the family status of individuals, broken down into three (3) categories: a) single, b) married or in a civil partnership and c) widowed / divorced / separated.
• Inclusion of the occupation of individuals, by 1-digit ISCO code.
• Inclusion of the branch of main economic activity of the enterprises in which the individuals work, broken down into three (3) categories: Primary, Secondary and Tertiary sectors (i.e., Agriculture-Livestock-Fishery, Manufacturing-Construction, Trade and Services).
• Inclusion of the occupational status of individuals, broken down into the following categories: a) Self-employed, b) Salaried employee, c) Non-paid assistant in the family business and d) Apprentice with remuneration.
• Inclusion of the current main activity of individuals during the week before the beginning of the survey, broken down into the following categories: a) Employed, b) Unemployed, c) Pensioner, d) Pupil, student, soldier, e) Housewife, f) Unable to work or with permanent disability and other cases.
4. Survey on the Use of Information and Communication Technologies (ICT) by Households

4.1. With reference year until and including 2013

- Non-inclusion of the full name of individuals, the postal address of their dwelling and the Municipality where their dwelling is located.
- Non-inclusion of the Department and Region (NUTS 2) where the individuals’ dwelling is located.
- Inclusion of the Great Geographical Area (NUTS 1) where the individuals’ dwelling is located.
- Inclusion of the degree of urbanisation of the Municipal/Local Community where the individuals’ dwelling is located, on the basis of the most populated settlement, broken down into three (3) categories: urban, semi-urban and rural.
- Inclusion of the extrapolation factor of households and individuals.
- Inclusion of the citizenship of individuals, broken down into three (3) categories: Greek, EU Member States, Other countries.
- Inclusion of the country of birth of individuals, broken down into three (3) groups: Greece, EU Member States and Other countries.
- Inclusion of the occupation of individuals, by 1-digit ISCO code.
- Inclusion of the current main activity of individuals during the conduct of the survey, broken down into the following categories: a) Employed, b) Unemployed, c) Pupil-student and d) Other cases (pensioner, housewife, rentier, unable to work, etc.).

4.2. With reference year from 2014 onwards

- Non-inclusion of the full name of individuals, the postal address of their dwelling and the Municipality where their dwelling is located.
- Non-inclusion of the Department and Region (NUTS 2) where the individuals’ dwelling is located.
- Inclusion of the Great Geographical Area (NUTS 1) where the individuals’ dwelling is located.
- Inclusion of the degree of urbanisation of the Municipal/Local Community where the individuals’ dwelling is located, on the basis of: a) the most populated settlement, broken down into three (3) categories: urban, semi-urban and rural and b) the population density, broken down into three (3) categories: high; medium; and low density.
- Inclusion of the extrapolation factor of households and individuals.
- Inclusion of the citizenship of individuals, broken down into three (3) categories: Greek, EU Member States, Other countries.
- Inclusion of the country of birth of individuals, broken down into three (3) groups: Greece, EU Member States and Other countries.
- Inclusion of the occupation of individuals, by 1-digit ISCO code.
- Inclusion of the current main activity of individuals during the conduct of the survey, broken down into the following categories: a) Employed, b) Unemployed, c) Pupil-student and d) Other cases (pensioner, housewife, rentier, unable to work, etc.).

5. Survey on Energy Consumption in Households

With reference period 2011 – 2012
• Non-inclusion of the full name of individuals, the postal address of their dwelling and the Municipality where their dwelling is located.
• Non-inclusion of the Department and Region (NUTS 2) where the individuals' dwelling is located.
• Inclusion of the Great Geographical Area (NUTS 1) where the individuals' dwelling is located.
• Inclusion of the degree of urbanisation of the Municipal/Local Community where the individuals' dwelling is located, on the basis of the most populated settlement, broken down into three (3) categories: urban, semi-urban and rural.
• Inclusion of the extrapolation factor of households.
• Inclusion of the age of individuals, with the exception of those aged over 85 years, who will appear under one category.
• Inclusion of the citizenship of individuals, broken down into three (3) categories: Greek, EU Member States, Other countries.
• Inclusion of the country of birth of individuals, broken down into three (3) groups: Greece, EU Member States and Other countries.
• Inclusion of the family status of individuals, broken down into three (3) categories: a) single, b) married or in a civil partnership and c) widowed / divorced / separated.
• Inclusion of the occupation of individuals, by 1-digit ISCO code.
• Inclusion of the branch of main economic activity of the enterprises in which the individuals work, broken down into three (3) categories: Primary, Secondary and Tertiary sectors (i.e., Agriculture-Livestock-Fishery, Manufacturing-Construction, Trade and Services).
• Inclusion of the occupational status of individuals, broken down into the following categories: a) Salaried employee, b) Self-employed, c) Non-paid assistant in the family business and d) Apprentice with remuneration.
• Inclusion of the current main activity of individuals during the week before the beginning of the survey, broken down into the following categories: a) Employed, b) Employed but temporarily absent, c) Unemployed, d) Pensioner e) Rentier, f) Pupil-student, g) Soldier, h) Housewife, i) Unable to work and other cases.

6. National Health Survey
6.1. With reference year 2009

• Non-inclusion of the full name of individuals, the postal address of their dwelling and the Municipality where their dwelling is located.
• Non-inclusion of the Department and Region (NUTS 2) where the individuals' dwelling is located.
• Inclusion of the Great Geographical Area (NUTS 1) where the individuals' dwelling is located.
• Inclusion of the degree of urbanisation of the Municipal/Local Community where the individuals' dwelling is located on the basis of the most populated settlement, broken down into three (3) categories: urban, semi-urban and rural.
• Inclusion of the extrapolation factor of individuals.
• Inclusion of the age of individuals, with the exception of those aged over 85 years, who will appear under one category.
• Inclusion of the citizenship of individuals, broken down into three (3) categories: Greek, EU Member States, Other countries.
• Inclusion of the country of birth of individuals, broken down in three (3) groups: Greece, EU Member States and Other countries.
• Inclusion of the family status of individuals, broken down into three (3) categories: a) single, b) married or in a civil partnership and c) widowed / divorced / separated.
• Inclusion of the occupation of individuals, by 1-digit ISCO code.
• Inclusion of the branch of main economic activity of the enterprises in which the individuals work, broken down into three (3) categories: Primary, Secondary and Tertiary sector (i.e., Agriculture-Livestock-Fishery, Manufacturing-Construction, Trade and Services).
• Inclusion of the occupational status of individuals, broken down into the following categories: a) Salaried employee, b) Self-employed, c) Non-paid assistant in the family business and d) Apprentice with remuneration.
• Inclusion of the current main activity of individuals during the week before the beginning of the survey, broken down into the following categories: a) Employed, b) Employed but temporarily absent, c) Unemployed, d) Pensioner e) Rentier, f) Pupil-student, g) Soldier, h) Housewife, i) Unable to work and other cases.

6.2. With reference year 2014
• Non-inclusion of the full name of individuals, the postal address of their dwelling and the Municipality where their dwelling is located.
• Non-inclusion of the Department and Region (NUTS 2) where the individuals’ dwelling is located.
• Inclusion of the Great Geographical Area (NUTS 1) where the individuals’ dwelling is located.
• Inclusion of the degree of urbanisation of the Municipal/Local Community where the individuals’ dwelling is located, on the basis of: a) the most populated settlement, broken down into three (3) categories: urban, semi-urban and rural, and b) the population density, broken down into three (3) categories: high; medium; and low density.
• Inclusion of the extrapolation factor of individuals.
• Inclusion of the age of individuals, with the exception of those aged over 85 years, who will appear under one category.
• Inclusion of the citizenship of individuals, broken down into three (3) categories: Greek, EU Member States, Other countries.
• Inclusion of the country of birth of individuals, broken down in three (3) groups: Greece, EU Member States and Other countries.
• Inclusion of the family status of individuals, broken down into three (3) categories: a) single, b) married or in a civil partnership including those who are separated and c) widowed or divorced.
• Inclusion of the occupation of individuals, by 1-digit ISCO code.
• Inclusion of the branch of main economic activity of the enterprises in which the individuals work, broken down into three (3) categories: Primary, Secondary and Tertiary sectors (i.e., Agriculture-Livestock-Fishery, Manufacturing-Construction, Trade and Services).
• Inclusion of the occupational status of individuals, broken down into the following categories: a) Salaried employee permanent or with indefinite contract, b) Salaried employee on a fixed-term contract/temporary work, c) Self-employed with salaried employees, d) Self-employed without salaried employees / Assistant in the family business.
Inclusion of the current labour status – occupation of individuals, broken down into the following categories: a) Employed (including the non-paid assistants in the family business, the apprentices with remuneration and those temporarily absent from their work), b) Unemployed, c) Pensioner normally or early retired (excluding the pensioners due to disability/health problems), d) With permanent disability (including those who have long-standing health problems or illness and the pensioners due to disability), e) pupil, student, postgraduate, apprentice without remuneration, f) Soldier, g) Housework, h) Other cases (e.g. rentier, etc.).

7. Time Use Survey

With reference period 2013 – 2014

- Non-inclusion of the full name of individuals, the postal address of their dwelling and the Municipality where their dwelling is located.
- Non-inclusion of the Department and Region (NUTS 2) where the individuals’ dwelling is located.
- Inclusion of the Great Geographical Area (NUTS 1) where the individuals’ dwelling is located.
- Inclusion of the degree of urbanisation of the Municipal/Local Community where the individuals’ dwelling is located on the basis of: a) the most populated settlement, broken down into three (3) categories: urban, semi-urban and rural, and b) on the basis of the population’s density, broken down into three (3) categories: high, medium and low density.
- Inclusion of the extrapolation factor of individual and day.
- Inclusion of the age of individuals, with the exception of those aged over 85 years, who will appear under one category.
- Inclusion of the citizenship of individuals, broken down into three (3) categories: Greek, EU Member States, Other countries.
- Inclusion of the country of birth of individuals, broken down into three (3) groups: Greece, EU Member States and Other countries.
- Inclusion of the family status of individuals, broken down into three (3) categories: a) single, b) married or in a civil partnership and c) widowed / divorced / separated.
- Inclusion of the occupation of individuals, by 1-digit ISCO code.
- Inclusion of the branch of main economic activity of the enterprises in which the individuals work, broken down into three (3) categories: Primary, Secondary and Tertiary sectors (i.e., Agriculture-Livestock-Fishery, Manufacturing-Construction, Trade and Services).
- Inclusion of the occupational status of individuals, broken down into the following categories: a) Salaried employee and b) Self-employed or assistant in the family business without remuneration.
- Inclusion of the current main activity of individuals during the week before the beginning of the survey, broken down into the following categories: a) Employed, employed but temporarily absent, assistant in the family business without remuneration, b) Unemployed, c) Pupil, student, postgraduate, employee without pay for gaining experience, d) Pensioner at normal age or not, or having ceased the operations of his/her business, e) Unfit for work or having permanent disability, f) Soldier, g) Housewife and/or having the care of children/elderly, h) Other cases.

8. Survey on Road Traffic Accidents
• Non-inclusion of the Municipality or Community and the Settlement of the accident place.
• Non-inclusion of the road and number or the square, in the case where the accident occurred in a residential area.
• Non-inclusion of the name of the national/provincial road on which the accident occurred.
• Non-inclusion of the vehicle brand.
• Inclusion of the Department of the accident place.
• Inclusion of the type of the road on which the accident occurred (New national, Old national, Provincial, Municipal, Communal, Other).
• Inclusion of the nationality of the number plates, broken down into four (4) categories: Greek, EU Member States, Other countries.
• Inclusion of the citizenship of the driver and of the victims, broken down into three (3) categories: Greek, EU Member States, Other countries.
