

**HELLENIC REPUBLIC**  
**HELLENIC STATISTICAL AUTHORITY**

Piraeus, July 3, 2019

## **ANNOUNCEMENT**

It is a great pleasure and honour for the Hellenic Statistical Authority (ELSTAT) to announce that the Postgraduate Programme in “Mathematics - Statistics and Modelling” of the Department of Mathematics of the Aristotle University of Thessaloniki (AUTH) is the first Greek Master Programme that managed to be awarded the prestigious **EMOS label (European Master in Official Statistics)**, thus joining the select network of Master programmes providing postgraduate education in the area of official statistics at the European level. The EMOS label is recognised by all European National Statistical Institutes, Central Banks and other European and National Agencies.

The award of the EMOS label was the result of several months’ intensive efforts by ELSTAT, which also initiated and supported this endeavour (by jointly drawing up the statistical curriculum and participating in it as regards official statistics), and by the School of Mathematics of the Aristotle University of Thessaloniki.

The award of EMOS label is one of the milestones of ELSTAT’s strategy for fostering statistical literacy in Greece.
