

HELLENIC REPUBLIC
HELLENIC STATISTICAL AUTHORITY

Piraeus, 27 May 2021

ANNOUNCEMENT

The Hellenic Statistical Authority (ELSTAT), in the context of its mission to produce topical and relevant statistics, presents the results of the survey on the Expectations of Greek Export Enterprises for the year 2021, with a Press Release that will be announced on 31 May 2021. The survey is part of the Experimental Statistics of ELSTAT.

The survey was conducted for the first time in 2020 and aims to capture the expectations of enterprises for the level of exports that they are going to carry out during the current calendar year, providing an ex-ante estimate of the trend of Greek exports in goods.

In particular, the Press Release presents:

- the results of the survey on the Expectations of Greek Export Enterprises for their exports of goods, for the current year, 2021, in total, as well as per exported product category and export partner country.
- the comparative results regarding the 1st and 2nd estimates of the export expectations of goods for the year 2020, which were presented with a Press Release by ELSTAT in July 2020, and the respective accrued results.

Information on the Experimental Statistics of ELSTAT is available on the website of ELSTAT at the link <https://www.statistics.gr/en/exp-stats>.
