ANNOUNCEMENT

The Hellenic Statistical Authority (ELSTAT), within the context of Experimental Statistics series it produces, informs users that on 21 July 2025 a special release on short-term rental accommodation establishments operating through digital platforms will be published.

This release aims to improve the coverage of tourism activity on an annual basis, by complementing the existing tourism statistics compiled by ELSTAT, in accordance with European Regulation (EU) 692/2011.

The new Experimental Statistics are based on administrative data and capture the movement of short-term rental accommodation establishments up to the level of the Region (NUTS 2), while providing information on their seasonality and geographical distribution.
