pillars

QUALITY AND RELIABILITY:
improving the quality and reliability of statistics, by unswervingly observing the principles of the European Statistics Code of Practice and by restructuring the processes and more generally the approach for the production of statistics.

GOOD GOVERNANCE:
focusing on good governance in the Statistical Authority, regarding its operation and management, by applying a rules based system, which enhances, inter alia, the effectiveness of statistical works.

COOPERATION: cooperating closely with the users of statistical data and being responsive to their needs, as well as co-ordinating and cooperating with other ELSS producers of statistical data with a view to improving the quality of statistics.

INTERNATIONAL PRESENCE:
cooperating intensively and undertaking initiatives in the European and the international statistical community.
