The Hellenic Statistical Authority (ELSTAT), within the context of the Experimental Statistics series it compiles, informs users that on 24 July 2026 an announcement on short-term rental accommodation establishments operating through digital platforms will be published.

These statistics aim to improve the coverage of tourism activity on an annual basis complementing the existing tourism statistics compiled by ELSTAT.

The Experimental Statistics are based on administrative data and capture the movement of short-term rental accommodations up to the level of the Region (NUTS 2), while providing information on their seasonality and geographical distribution.
