METHODOLOGICAL NOTES

General	The Turnover Indices for divisions of Services Sector are quarterly indices which were first released in 2000, with base year (b.y.) the year 2005=100.0
Purpose of the Indices	The Turnover Indices for divisions of Services Sector are business cycle indices, which illustrate the quarterly activity of the services sector in terms of value. Turnover comprises the total values invoiced by the observation unit during the reference period corresponding to the market sales of goods or services supplied to third parties.
- Definitions	Turnover also includes all the other charges (transport, packaging etc.) passed on to the customer, even if these charges are listed separately on the invoice. Turnover excludes VAT and other similar deductible taxes directly linked to turnover, as well as all duties and taxes on the goods or services invoiced by the enterprises.
Legal framework	The Turnover Indices for divisions of Services Sector are short-term indices and are compiled pursuant to Council Regulation (EC) No 1165/98 concerning short-term statistics, in the framework of the requirements of Regulation No 1158/2005 of the European Parliament and of the Council amending Council Regulation (EC) No 1165/98 as well as Regulation (EU) No 2152/2019 and Implementing Regulation (EU) 2020/1197 of the Commission.
Reference period	Quarterly.
Base year	2015=100.0.
Revision	The Turnover Indices for divisions of Services Sector are revised every 5 years, in compliance with Council Regulation No 1165/98, according to which the short-term indices are revised every 5 years, with base year ending in 0 or 5.
Statistical classification	The statistical classification of economic activities NACE Rev.2 is applied, in accordance with Regulation (EC) No 1893/2006 of the European Parliament and of the Council.
Geographical coverage	Turnover Indices for divisions of Services Sector cover the whole country.
Coverage of economic activities	<ul style="list-style-type: none"> • Land transport and transport via pipelines (Section H division 49) • Water transport (Section H division 50) • Air transport (Section H division 51) • Warehousing and support activities for transportation (Section H division 52) • Postal and courier activities (Section H division 53) • Accommodation activities (Section I division 55) • Food Service activities (Section I division 56) • Accommodation and food service activities (Section I division 55-56) • Publishing activities (Section J division 58) • Motion picture, video and television program production, sound recording and music publishing activities (Section J division 59) • Programming and broadcasting activities (Section J division 60) • Telecommunications (Section J division 61) • Computer programming, consultancy and related activities (Section J division 62) • Information service activities (Section J division 63) • Legal and accounting activities (Section M division 69) • Management consultancy activities (Section M group 70.2) • Architectural and engineering activities, technical testing and analysis (Section M division 71) • Advertising and market research (Section M division 73) • Other professional, scientific and technical activities (Section M division 74) • Employment activities (Section N division 78) • Travel agency, tour operator reservation service and related activities (Section N division 79) • Security and investigation activities (Section N division 80) • Services to buildings and landscape activities (Section N division 81) • Cleaning activities (Section N group 81.2) • Office administrative, office support and other business support activities (Section N division 82)
Statistical survey	The sampling unit used is the enterprise. The population for the above mentioned divisions of the NACE Rev. 2 statistical classification is 12,825 enterprises in the reference base year 2015, from which a random representative sample of 1,076 enterprises was therefore selected and surveyed. for the divisions (53, 58, 61, 62, 63, 69, 71, 73, 74, 78, 80, 81, 82, group 70.2 and 81.2) and 29,149 enterprises in the reference base year 2015, from which a random representative sample of 799 enterprises for the divisions (49, 50, 51, 52, 55, 56, 59, 60, 79).

Compilation of indices	The indices are compiled by applying the chain-linking method, while the indices are adjusted to a typical quarter by multiplying the estimated turnover values with an adjustment factor in accordance to the working days of each quarter. The typical quarter refers to the real number of working days.
Publication of data	The data of the Turnover Indices for divisions of Services Sector with base year 2015=100.0 are released quarterly since the 4 th quarter 2018, with retrospective data from the 1 st quarter 2000. From the Press release for the 1 st quarter 2021, a consolidated publication for all Turnover Indices for divisions of Services Sector takes place.
