

Piraeus, 10 March 2026

COMMERCIAL TRANSACTIONS OF GREECE : January 2026

(Provisional Data)

The total value of imports, in January 2026 amounted to 6,441.5 million euros (7,538.3 million dollars) in comparison with 6,958.3 million euros (7,183.1 million dollars) in January 2025, recording a drop, in euros, of 7.4%. The corresponding value excluding oil products in January 2026 recorded a drop of 247.5 million euros or 4.8% and the corresponding value excluding oil products and ships in January 2026 recorded a drop of 242.3 million euros or 4.7%, in comparison with January 2025 (Table 1).

The total value of exports, in January 2026 amounted to 3,633.2 million euros (4,277.4 million dollars) in comparison with 4,124.3 million euros (4,283.2 million dollars) in January 2025, recording a drop, in euros, of 11.9%. The corresponding value excluding oil products recorded in January 2026 a drop of 103.2 million euros or 3.5% and the corresponding value excluding oil products and ships in January 2026 recorded a drop of 100.5 million euros or 3.4%, in comparison with January 2025 (Table 1).

The deficit of the trade balance, in January 2026 amounted to 2,808.3 million euros (3,260.9 million dollars) in comparison with 2,834.0 million euros (2,899.9 million dollars) in January 2025, recording a drop, in euros, of 0.9%. The corresponding value of deficit excluding oil products in January 2026 recorded a drop of 144.3 million euros or 6.6% and the corresponding value excluding oil products and ships in January 2026 recorded a drop of 141.8 million euros or 6.5%, in comparison with January 2025 (Table 1).

The monthly data of Intra-Union transactions, have been adjusted to the total trade transactions with EU countries, including the transactions below the statistical threshold⁽¹⁾, on the basis of the Recapitulative Statements of Intra-EU Deliveries and Acquisitions that are submitted by the enterprises to the Independent Authority of Public Revenue. Accordingly, the provisional data from the “incomplete customs declarations” have been incorporated in the monthly data on trade with third countries and, after having been completed, they will be replaced by the final data.

⁽¹⁾ By virtue of Union Regulations on the compilation of intra-Union trade statistics, Member States set out a “statistical exemption threshold”. On the basis of the exemption threshold, the enterprises whose transactions are below the statistical threshold are exempted from the obligation to submit data on their intra-Union transactions (Intrastat declaration). The aim is to reduce the burden on enterprises. The statistical exemption threshold, valid for each year, is specified and released by Hellenic Statistical Authority on a yearly basis.

⁽¹⁾ Provisional data

* Wherever necessary, the data have been rounded up, thus, a slight difference may occur between the sum of the figures and their total.

EXPLANATORY NOTES

Commercial Transactions The Commercial Transactions are recorded on a monthly basis aiming at monitoring the total value of imports, exports and their changes. This recording does not include the imports and exports of services.

Legal Framework The survey is conducted for Intra-Union trade and for trade with third countries in accordance with Regulations (EU) 2019/2152 and (EU) 2020/1197.

Reference Period **January 2026**

Provision of Results 38 days after the end of the reference month (provisional data). The provisional data are revised and disseminated on a monthly basis for all the previous months until the finalization of the yearly data, which takes place ten months after the end of the reference year.

Definitions **INTRASTAT** is the system for collecting Intra-Union statistical data (among the EU countries). It was implemented on January 1st, 1993.

Import is considered every import of goods from a country of the EU.

Export is considered every export of goods to a country of the EU.

Extra-Union trade is the system for collecting external trade data with third countries (countries outside the EU).

Import is considered every import of goods from a third country (outside the EU).

Export is considered every export of goods to a third country (outside the EU).

Methodology **INTRASTAT:** It is an exhaustive statistical survey. The parties responsible for providing statistical information through Intrastat System are the enterprises which perform Intra-Union trade transactions and they have exceeded the applied statistical thresholds. The statistical thresholds are readjusted each year. The statistical thresholds for 2026 are the following:

- Intra-Union Imports: € 250,000.00 (95.2% coverage)
- Intra-Union Exports: € 90,000.00 (98.7% coverage)

The statistical data of Intra-Union Trade include also the transactions of the enterprises, which are not obliged to submit Intrastat data since the value of their transactions is below the applied statistical threshold. In compliance with the obligations provided in the EU Regulations regarding the compilation of external trade statistics, these transactions are calculated on the basis of the Recapitulative Statements of Intra-EU Deliveries and Acquisitions that all the enterprises are obliged to submit to the Independent Authority of Public Revenue .

ELECTRONIC SUBMISSION: Intrastat declarations are submitted electronically via the following links: <http://eurostat.statistics.gr> or www.statistics.gr.

Extra-Union trade: It is a statistical survey where data are collected by administrative sources. The Customs Authorities collect the relevant statistical data on trade by filling in the Single Administrative Document (SAD). All the transactions with third countries are registered. At the end of each month Customs Authorities transmit to the Hellenic Statistical Authority an electronic file with the customs data of statistical relevance of the previous reference month.

The statistical data of imports and exports of goods with the Third Countries, are derived from the data transmitted by the Customs Authorities.

Henceforth, the provisional data from the "incomplete customs declarations" - which concern mainly petroleum products - are incorporated in the monthly data on trade with third countries; the "incomplete customs declarations" data after having been completed will be replaced by the final data.

IMPORTS AND EXPORTS OF SHIPS AND AIRCRAFTS: In accordance with EU Regulations entered into force in 2010 (Regulations (EU) 2010/96, 2010/113) and in accordance with Regulations (EU) 2019/2152 and (EU) 2020/1197 entered into force in 2022, the EU Member States are obliged to record the transactions of special goods and movements and more specifically of vessels and aircrafts in line with the principle of economic ownership.

"Economic ownership" means the right of a taxable person to claim the benefits associated with the use of a vessel or aircraft in the course of an economic activity by virtue of accepting the associated risks.

For the compilation of statistics on imports and exports of ships are used Intrastat statistical survey data, data from administrative sources (Customs, Ministry of Marine and Island Policy), as well as data from national and international commercial databases based on the estimation model of the Bank of Greece for the Greek shipping (see Press Release on Balance of Payments published by the Bank of Greece on 20.11.2018).

The compilation of statistics on imports and exports of aircrafts is based on Intrastat statistical survey data and data from administrative sources (Customs, Hellenic Civil Aviation Authority).

Classification of goods: The goods are classified in compliance with the 8-digit Combined Nomenclature Code (CN8) and the Standard International Trade Classification (SITC).

References More information concerning the survey on Commercial Transactions is available on the website of the Hellenic Statistical Authority (www.statistics.gr) under the link "Statistics / International Trade in Goods".
