⁽¹⁾Provisional data

⁽²⁾Revised data

Note: The Turnover Indices for divisions of Services are published rounded up to one decimal digit.

General	The Turnover Indices for divisions of Services Sector are quarterly indices which were first released in 2000, with base year (b.y.) the year 2005=100.0
Purpose of the Indices	The Turnover Indices for divisions of services are business cycle indices, which illustrate the quarterly activity of the services sector in terms of value. Turnover comprises the total values invoiced by the observation unit during the reference period corresponding to the market sales of goods or services supplied to third parties. Turnover also includes all the other charges (transport, packaging, etc.) passed on to the customer, even if these charges are listed separately on the invoice.
- Definitions	Turnover excludes VAT and other similar deductible taxes directly linked to turnover, as well as all duties and taxes on the goods or services invoiced by the enterprise
Legal framework	The Turnover Indices for divisions of services are short-term indices and are compiled pursuant to Council Regulation (EC) No 1165/98 concerning short-term statistics, in the framework of the requirements of Regulation No 1158/2005 of the European Parliament and of the Council amending Council Regulation (EC) No 1165/98.
Reference period	Quarterly.
Base year	2015=100.0.
Revision	The Turnover Indices for divisions of services are revised every 5 years, in compliance with Council Regulation No 1165/98, according to which the short-term indices are revised every 5 years, with base year ending in 0 or 5.
Statistical classification	The statistical classification of economic activities NACE Rev.2 is applied, in accordance with Regulation (EC) No 1893/2006 of the European Parliament and of the Council.
Geographical coverage	Turnover Indices for divisions of services cover the whole country.
Coverage of economic activities	<ul style="list-style-type: none"> • Postal and courier activities (Section H division 53) • Publishing activities (Section J division 58) • Telecommunications (Section J division 61) • Computer programming, consultancy and related activities (Section J division 62) • Information service activities (Section J division 63) • Legal and accounting activities (Section M division 69) • Management consultancy activities (Section M group 70.2) • Architectural and engineering activities; technical testing and analysis (Section M division 71) • Advertising and market research (Section M division 73) • Other professional, scientific and technical activities (Section M division 74) • Employment activities (Section N division 78) • Security and investigation activities (Section N division 80) • Services to buildings and landscape activities (Section N division 81) • Cleaning activities (Section N group 81.2) • Office administrative, office support and other business support activities (Section N division 82)
Statistical survey	The sampling unit used is the enterprise. The population for the above mentioned divisions of the NACE Rev. 2 statistical classification is 12,825 enterprises in the reference base year 2015, from which a random representative sample of 1,076 enterprises was therefore selected and surveyed.
Compilation of indices	The indices are compiled by applying the chain-linking method, while the indices are adjusted to a typical quarter by multiplying the estimated turnover values with an adjustment factor in accordance to the working days of each quarter. The typical quarter refers to the real number of working days.
Publication of data	The data of the Turnover Indices for divisions of services with base year 2015=100.0 are released quarterly since the 4 th quarter 2018, with retrospective data from the 1 st quarter 2000.
References	More information on the methodology for compiling and calculating the turnover indices for divisions of services, as well as on the timeseries, can be found on ELSTAT website: www.statistics.gr/en/statistics/-/publication/DKT54/-
