The monthly data of Intra-Union transactions, have been adjusted to the total trade transactions with EU countries, including the transactions below the statistical threshold<sup>(1)</sup>, on the basis of the Recapitulative Statements of Intra-EU Deliveries and Acquisitions that are submitted by the enterprises to the Independent Authority of Public Revenue. Accordingly, the provisional data derived from the available "incomplete or simplified customs declarations" have been incorporated in the monthly data on trade with third countries, which, once completed, will be replaced by the corresponding final data (supplementary declarations).

<sup>(1)</sup> By virtue of Union Regulations on the compilation of intra-Union trade statistics, Member States set out a "statistical exemption threshold". On the basis of the exemption threshold, the enterprises whose transactions are below the statistical threshold are exempted from the obligation to submit data on their intra-Union transactions (Intrastat declaration). The aim is to reduce the burden on enterprises. The statistical exemption threshold, valid for each year, is specified and released by the Hellenic Statistical Authority on a yearly basis.

## EXPLANATORY NOTES

<b>Commercial Transactions</b>	The Commercial Transactions are recorded on a monthly basis aiming at monitoring the total value of imports, exports and their changes. This recording does not include the imports and exports of services.
<b>Legal Framework</b>	The survey is conducted for Intra-Union trade and for trade with third countries in accordance with Regulations (EU) 2019/2152 and (EU) 2020/1197.
<b>Reference Period</b>	<b>April 2026</b>
<b>Provision of Results</b>	38 days after the end of the reference month (provisional data). The provisional data are revised and disseminated on a monthly basis for all the previous months until the finalization of the yearly data, which takes place ten months after the end of the reference year.
<b>Definitions</b>	<p><b>INTRASTAT</b> is the system for collecting Intra-Union statistical data (among the EU countries). It was implemented on January 1st, 1993.</p> <p><b>Import</b> is considered every import of goods from a country of the EU.</p> <p><b>Export</b> is considered every export of goods to a country of the EU.</p> <p><b>Extra-Union trade</b> is the system for collecting external trade data with third countries (countries outside the EU).</p> <p><b>Import</b> is considered every import of goods from a third country (outside the EU).</p> <p><b>Export</b> is considered every export of goods to a third country (outside the EU).</p>
<b>Methodology</b>	<p><b>INTRASTAT:</b> It is an exhaustive statistical survey. The parties responsible for providing statistical information through Intrastat System are the enterprises which perform Intra-Union trade transactions and they have exceeded the applied statistical thresholds. The statistical thresholds are readjusted each year. The statistical thresholds for 2026 are the following:</p> <ul style="list-style-type: none"><li>• Intra-Union Imports: € 250,000.00 (95.7% coverage)</li><li>• Intra-Union Exports: € 90,000.00 (98.7% coverage)</li></ul> <p>The statistical data of Intra-Union Trade include also the transactions of the enterprises, which are not obliged to submit Intrastat data since the value of their transactions is below the applied statistical threshold. In compliance with the obligations provided in the EU Regulations regarding the compilation of external trade statistics, these transactions are calculated on the basis of the Recapitulative Statements of Intra-EU Deliveries and Acquisitions that all the enterprises are obliged to submit to the Independent Authority of Public Revenue .</p> <p><b>ELECTRONIC SUBMISSION:</b> Intrastat declarations are submitted electronically via the following links: <a href="http://eurostat.statistics.gr">http://eurostat.statistics.gr</a> or <a href="http://www.statistics.gr">www.statistics.gr</a>.</p> <p><b>Extra-Union trade:</b> It is a statistical survey where data are collected by administrative sources. The Customs Authorities collect the relevant statistical data on trade by filling in the Single Administrative Document (SAD) and by Automated Export System (AES). All the transactions with third countries are registered. At the end of each month Customs Authorities transmit to the Hellenic Statistical Authority an electronic file with the customs data of statistical relevance of the previous reference month.</p> <p>The statistical data of imports and exports of goods with the Third Countries, are derived from the data transmitted by the Customs Authorities.
