

Piraeus, 28 June 2024

### PRODUCER PRICE INDEX IN INDUSTRY: May 2024, y-o-y decrease of 1.4%

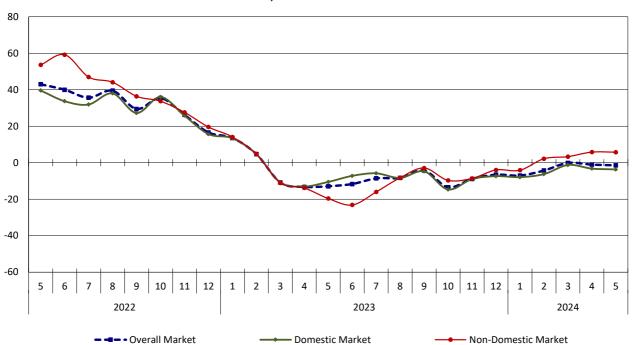

The Overall Producer Price Index (PPI) in Industry (total of domestic and non-domestic market) with base year 2015=100.0 in May 2024 recorded a decrease of 1.4% compared with May 2023. The corresponding index in May 2023 had recorded a decrease of 12.9% compared with May 2022 (Table 1.I).

The Overall Producer Price Index in May 2024 recorded a decrease of 2.9% compared with April 2024. The corresponding index in May 2023 had recorded a decrease of 2.6% compared with April 2023 (Table 1.II).

The average Overall Index for the twelve-month period from June 2023 to May 2024 decreased by 6.5% in comparison with the corresponding index for the period from June 2022 to May 2023, while the increase recorded between the previous twelve-month periods amounted to 14.3% (Table 6).

The time series of PPI are available on the website of ELSTAT, at: <a href="http://www.statistics.gr/en/statistics/-/publication/DKT15/-">http://www.statistics.gr/en/statistics/-/publication/DKT15/-</a>

# Evolution of annual rates of change (%) of Producer Price Index (PPI) in Industry: Overall Market, Domestic and Non-Domestic Market

### 1. Annual rates of change: May 2024 compared with May 2023

The decrease of 1.4% in the Overall Producer Price Index in Industry in May 2024 compared with May 2023 is on account of the annual changes of the sub-indices of the markets as follows:

### a. 3.7% decrease in the PPI of the Domestic Market (Table 2.I).

More specifically, the aforementioned decrease was the result of the yearly changes mainly of the sub-indices in the following NACE Rev.2 divisions:

| Code | Division  | Rates of change (%) |
|------|---|---------------------|
| 35   | Electricity, gas, steam and air conditioning supply | -15.0               |
| 10   | Manufacture of food products                        | 0.9                 |
| 20   | Manufacture of chemicals and chemical products      | 1.0                 |
| 27   | Manufacture of electrical equipment                 | 3.2                 |
| 23   | Manufacture of other non-metallic mineral products  | 3.5                 |
| 24   | Manufacture of basic metals                         | 3.6                 |
| 11   | Manufacture of beverages                            | 5.6                 |
| 31   | Manufacture of furniture                            | 5.7                 |
| 19   | Manufacture of coke and refined petroleum products  | 9.2                 |
| 05   | Mining of coal and lignite                          | 12.6                |

#### b. 5.7% increase in the PPI of the Non-Domestic Market (Table 3.I).

More specifically, the aforementioned increase was the result of the yearly changes mainly of the sub-indices in the following NACE Rev.2 divisions:

| Code | Division   | Rates of change (%) |
|------|--|---------------------|
| 21   | Manufacture of basic pharmaceutical products and pharmaceutical preparations | 16.4                |
| 10   | Manufacture of food products   | 16.2                |
| 07   | Mininigs of metal ores   | 9.4                 |
| 19   | Manufacture of coke and refined petroleum products                           | 8.2                 |
| 11   | Manufacture of beverages   | 7.6                 |
| 26   | Manufacture of computer, electronic and optical products                     | 4.0                 |
| 27   | Manufacture of electrical equipment  | 2.7                 |
| 25   | Manufacture of fabricated metal products except machinery and equipment      | -2.4                |
| 22   | Manufacture of rubber and plastic products                                   | -7.0                |
| 17   | Manufacture of paper-pulp, paper and paper products                          | -12.0               |

### 2. Monthly rates of change: May 2024 compared with April 2024

The decrease of 2.9% in the Overall Producer Price Index in Industry in May 2024 compared with April 2024 is on account of the monthly changes of the sub-indices of the markets as follows:

#### a. 3.0% decrease in the PPI of the Non-Domestic Market (Table 3.II).

More specifically, the aforementioned decrease was the result of the monthly changes mainly of the sub-indices in the following NACE Rev.2 divisions:

| Code | Division   | Rates of change (%) |
|------|--|---------------------|
| 19   | Manufacture of coke and refined petroleum products                           | -8.1                |
| 13   | Manufacture of textiles  | -0.9                |
| 21   | Manufacture of basic pharmaceutical products and pharmaceutical preparations | -0.8                |
| 20   | Manufacture of chemicals and chemical products                               | -0.6                |
| 10   | Manufacture of food products   | 0.3                 |
| 23   | Manufacture of other non-metallic mineral products                           | 0.5                 |
| 25   | Manufacture of fabricated metal products except machinery and equipment      | 1.4                 |
| 24   | Manufacture of basic metals  | 1.5                 |
| 27   | Manufacture of electrical equipment  | 1.6                 |
| 29   | Manufacture of motor vehicles, trailers and semi-trailers                    | 11.4                |

#### b. 2.9% decrease in the PPI of the Domestic Market (Table 2.II).

More specifically, the aforementioned decrease was the result of the monthly changes mainly of the sub-indices in the following NACE Rev.2 divisions:

| Code | Division   | Rates of change (%) |
|------|--|---------------------|
| 05   | Mining of coal and lignite                           | -10.1               |
| 19   | Manufacture of coke and refined petroleum products   | -7.3                |
| 35   | Electricity, gas, steam and air conditioning supply  | -4.2                |
| 11   | Manufacture of beverages                             | -0.2                |
| 17   | Manufacture of paper-pulp, paper and paper products  | -0.2                |
| 10   | Manufacture of food products                         | -0.1                |
| 16   | Manufacture of wood and of products of wood and cork | 0.5                 |
| 24   | Manufacture of basic metals                          | 0.5                 |
| 22   | Manufacture of rubber and plastic products           | 1.8                 |
| 27   | Manufacture of electrical equipment                  | 2.7                 |

#### **METHODOLOGICAL NOTES**

Generally

The Producer Price Index (PPI) in Industry, in its current form, has been compiled since January 2005, when it replaced the Wholesale Price Index which was compiled since 1963. The Producer Price Index (PPI) in Industry was revised with base year 2015=100.0 and the time series were adjusted accordingly.

Purpose of the index

The purpose of the Producer Price Index in Industry is to measure the monthly rates of change in the prices of goods that are produced in the domestic market, are sold in the domestic market, or are exported to the non-domestic market.

**Definitions** 

The Producer Price Index in Industry is a monthly index and it is composed by the sub-indices of the Domestic and Non-Domestic Market. The Index of the Non-Domestic Market is calculated as the composition of the Eurozone Index and the Non-Eurozone Index.

The collected values for products sold in the domestic market are basic prices, i.e. prices excluding VAT and other similar deductible taxes directly linked to turnover and also, excluding duties and other taxes on products. Moreover, subsidies on products are included in the basic prices. The values collected for products sold in the non-domestic market are quoted FOB (Free on board) prices.

The price data collected in the framework of the compilation of PPI refer mainly to transactions between the enterprises that produce and sell the surveyed products and the enterprises that buy those products, irrespectively of whether those products are to be used as raw materials or as merchandise.

Legal framework

The compilation of PPI is governed by Council Regulation (EC) 1165/1998 concerning short-term statistics and Regulation 1158/2005 (amending the above mentioned Regulation) of the European Parliament and of the Council. Furthermore, the PPI is governed by Regulation (EC) 1893/2006 of the European Parliament and of the Council, by the Commission Regulation (EC) 656/2007 and Regulation (EC) 451/2008 of the Council, by Regulation (EU) 2019/2152 of the European Parliament and of the Council on European business statistics (EBS-Regulation), as well as the Commission Implementing Regulation (EU) 2020/1197 laying down technical specifications and arrangements pursuant to Regulation (EU) 2019/2152.

Reference period

Month.

Base year

2015=100.0.

Revision

The PPI is a fixed-base index. Pursuant to the provisions of Council Regulation 1165/1998 concerning short-term statistics, the index is revised every five (5) years, with base years ending in 0 or 5.

Statistical classifications

At the level of branches of economic activities the statistical classification of economic activities NACE Rev.2 of EU is used (Regulation 1893/2006), while at the level of main industrial groupings, the allocation of two-digit and three-digit NACE Rev.2 headings to categories of aggregate classification is used, in accordance with Commission Regulation 656/2007. At product level, the statistical classification CPA 2008 of EU is used, according to the Council Regulation 451/2008.

**Geographical coverage** 

The index covers the whole of the country, with data from 48 Regional Units of the country.

Coverage of economic activities

The index covers all the sections of the Industry (mining and quarrying, manufacturing, electricity, natural gas and water supply), the main industrial groupings (MIGs) and all the levels of economic activities (divisions, groups, classes) and the relevant products.

Statistical survey

The data are collected from approximately 821 enterprises and the total number of observations (prices) amounts approximately to 2,713. More specifically, 403 products sold in the domestic market and 171 products sold in the non-domestic market were selected. Out of the 171 products sold in the non-domestic market, 141 products are sold in the eurozone countries and 156 products are sold in the non-eurozone countries.

**Publication of data** 

The PPI with base year 2015=100.0 is released since March 2020, with February 2020 as the first reference month. Data with base year 2015=100.0 are available from January 2000 onwards.
