

Piraeus, February 13, 2023

ISSUING OF MOTOR VEHICLE LICENSES: JANUARY 2023

The Hellenic Statistical Authority announces that in January 2023, 21,129 road motor cars (both new and used from abroad) were put into circulation for the first time, recording a 50.4% increase compared with the corresponding month of 2022 when the number of road motor cars was 14,044. In January 2022, a 12.1% decrease had been observed in comparison with the corresponding month of 2021 (Table 1, Graphs 1,2,3,5). A total number of 11,638 new cars were put into circulation in January 2023 compared with 6,057 in January 2022, recording a 92.1% increase.

The new motorcycles over 50cc (both new and used from abroad) that were put into circulation for the first time in January 2023 amounted to 4,187, against 2,331 in 2022, thus recording a 79.6% increase. In January 2022, a 19.1% increase had been observed in comparison with the corresponding month of 2021 (Table 1, Graph 4). Out of the above motorcycles 3,864 were new, while the corresponding figure in January 2022 was 2,092, recording an 84.7% increase.

EXPLANATORY NOTES

Survey on the issuing of new road motor vehicle circulation licenses

The survey on the issuing of new motor vehicle circulation licenses is a census survey. The released data give information, at country level, on the brand and type of the motor vehicle, as well as whether it is new or used. The survey does not include vehicles that move on rails, trolley busses, agricultural tractors and machinery. In addition, the following are excluded: all motor vehicles of the Armed Forces, Police, Fire Brigade, State Services, Diplomatic Corps, Foreign Missions, and Invalids of Wars, as well as motorcycles with a cylinder capacity less than 50 cc.

Legal basis Law 3832/2010

Reference Period January 2023

Coverage

The production of monthly data is based on the registers held by the Ministry of Infrastructure, Transport and Networks, which records all the monthly changes observed in the vehicle registration licenses at country level.

Definitions Road motor vehicle is any vehicle that, irrespective of the number of wheels, is moved by an engine and is designed to transport persons or cargo or both of them, either they are on the same single vehicle or on a trailer carried by the main motor vehicle.

> New road motor vehicle is any motor vehicle that is registered for the first time in Greece during the reference month and has not been put into circulation in any other country.

> Used motor vehicle is any motor vehicle that is registered for the first time in Greece and has been imported as a used one from abroad

> Passenger motor vehicle: it is a motor vehicle designed to carry mostly people, having no more than 9 seats, including the driver's seat.

> Bus: it is a motor vehicle, which is designed to carry mostly people, having more than 10 seats, including the driver's seat. In the corresponding tables of this announcement, this category also includes articulated buses.

> Lorry: it is motor vehicle designed to carry mostly cargo. In the corresponding tables of this announcement, this category also includes tractors, tow trucks, articulated tractors, and trucks with trailers.

> Motorcycle: any two-wheeled motor vehicle, with or without sidecar, with maximum authorized design speed over 45 km/h, or in case it is powered by a combustion engine, with a cylinder capacity of 50 cc or over. In the corresponding tables of this announcement, this category also includes the three-wheeled motor vehicles - motor tricycles.

> Tricvcle motor vehicle: it is a motor vehicle with three symmetrical wheels with maximum authorized design speed over 45 km/h, or in case it is powered by a combustion engine, with a cylinder capacity over the 50 cc. This category also includes four-wheel vehicles, except the light four-wheel motorcycles, whose empty vehicle tare (excluding the weight of the fuel or mixture of fuel-oil or the weight of the batteries for electric cars) is up to 400 kg in the case the vehicle is designed for passenger use or up to 550 kg in case the vehicle is designed to carry cargo and whose engine is up to 15KW.

Methodology

Exhaustive Survey. The primary data derive from the Ministry of Infrastructure, Transport and Networks and are based on the issuing of new circulation licenses as they are registered by the Regional Offices for Transport and Communications.
