PRESS RELEASE

SUPPLY & USE TABLES: Year 2014

The Hellenic Statistical Authority (ELSTAT) announces the Supply and Use Tables for the year 2014. These tables are compiled according to the European System of Accounts ESA 2010 (Regulation (EU) No 549/2013 of the European Parliament and of the Council) and are consistent with the respective annual national figures.

Supply and Use tables provide detailed information for a given year on production activities, the supply and demand of goods and services, intermediate consumption, primary inputs and foreign trade.

Supply and Use tables are matrices by product and industry showing the production processes and transactions for particular products or industries.

These tables present:

- a) the structure of the costs of production and the value added that is generated in the production process;
- b) the flows of goods and services produced in the Greek territory; and
- c) the flows of goods and services with the rest of the world.

For the compilation of Supply and Use tables data are used from the tables compiled by the National Accounts Division of ELSTAT for the calculation of Gross Domestic Product and the other macroeconomic variables.

The data sources used concern mainly:

- Surveys carried out by ELSTAT, like Structural Business Surveys, Household Budget Survey, Foreign Trade Statistics, Labor Force Survey, Labor Cost Survey, the census of population and buildings, Short Term Indicators for the volume and the prices etc.
- Administrative sources, like financial data of enterprises, the State Budget Outturn, Value Added Tax data from the Ministry of Finance etc.
- Balance of Payments data from the Bank of Greece
- Data from the business register of ELSTAT etc.

The data are presented using NACE Rev. 2 in 64 sectors and activities under the CPA 2008 to 64 products.

The figures in the Supply and Use Tables are in current prices.

The Supply and Use Tables are available on ELSTAT portal at the following link:
