ECONOMIC ACCOUNTS FOR AGRICULTURE:

Year 2025 & Revision of years 2023-2024

The Hellenic Statistical Authority (ELSTAT) announces the results of the Economic Accounts for Agriculture of year 2025 and the revised results of years 2023-2024, compiled in September 2026 according to the Regulation (EC) 138/2004.

The Economic Accounts for Agriculture refer to the Income of the agricultural industry (growing crops, farming of animals), they are a satellite account of the system of the National Accounts and provide additional information on the branch of agricultural activity.

The data required for the compilation of the Economic Accounts for Agriculture, are derived from surveys conducted by the ELSTAT, from data of the Ministry of Rural Development and Food, as well as from other administrative sources.

Information regarding the recent revision of Annual National Accounts, which is reflected in the Economic Accounts for Agriculture, is provided in the ELSTAT's announcement of Annual National Accounts of 16/10/2026, which is available on ELSTAT site in the following link:

Gross Domestic Product (2nd estimate)

In the context of the compilation of the Accounts of the agricultural industry, the revision work for years 2023-2024, included the utilization of updated data sources for the calculation of the components of the agricultural income.
