

PRESS RELEASE

JOB VACANCIES: 4th quarter 2020

The Hellenic Statistical Authority (ELSTAT) announces the quarterly Press Release aiming at presenting data on job vacancies¹ for the whole economy excluding Primary Sector and Activities of Households, referring to the 4th quarter 2020.

The number of job vacancies in the 4th quarter 2020 recorded a decrease of 31.4% in comparison with the 4th quarter 2019 (7,382 and 10,767 respectively), while the corresponding number of job vacancies in the 4th quarter 2019 had recorded an increase of 29.9% in comparison with the 4th quarter 2018 (Table 1, Graph 2).

Table 1 that follows depicts analytically the evolution of the number of job vacancies from the 1st quarter 2009 to the 4th quarter 2020.

Also, in Graph 1 that follows, the number of job vacancies and the annual change for each quarter of the period 2009-2020 are presented, while in Graph 2 the number of Job Vacancies and the annual change of the 4th quarter of the same period are depicted.

¹ The number of Job Vacancies refers to the Job Vacancies *to be filled in immediately*, that is job vacancies, which are to be filled in within a period *not longer* than three months and also refers to sections B-S of statistical classification of economic activities NACE Rev. 2. Job vacancies are recorded on the first day of the third month of each calendar quarter.

(Table 1 – Continued)

Year	Quarter	Job Vacancies to be filled in immediately	Quarterly rate of change (%)	Annual rate of change (%)
2019	Q1	12,570	51.7	-12.4
	Q2	14,343	14.1	-0.9
	Q3	12,897	-10.1	-5.1
	Q4	10,767	-16.5	29.9
2020	Q1	9,617	-10.7	-23.5
	Q2	5,594	-41.8	-61.0
	Q3	9,685	73.1	-24.9
	Q4	7,382	-23.8	-31.4

Graph 2: Evolution of Job Vacancies¹ of 4th quarter 2009 –2020

¹ The number of Job Vacancies refers to the Job Vacancies to be filled in immediately, that is job vacancies, which are to be filled in within a period not longer than three months and also refers to sections B-S of statistical classification of economic activities NACE Rev. 2. Job vacancies are recorded on the first day of the third month of each calendar quarter

EXPLANATORY NOTES

Survey on Job Vacancies	The Survey on Job Vacancies is conducted on a quarterly basis in a sample of enterprises, aiming at recording the number of job vacancies in the whole economy excluding Primary Sector and Activities of Households, of NACE Rev. 2.
Purpose of the survey	The purpose of the survey is to record on a quarterly basis the job vacancies to be filled in immediately, that is job vacancies, which are to be filled in within a period <u>not longer</u> than three months.
Methodology	<p>Data for the number of job vacancies are collected with the Labour Cost and Job Vacancies survey which is conducted on a quarterly basis.</p> <p>The statistical population is the total number of enterprises employing at least three (3) employees and belongs to sections B-S of Nace Rev.2. The survey covers the entire Country.</p> <p>The one-stage stratified sampling method is applied, using the enterprise as a surveyed unit. The strata are derived from the combinations of the 2-digit code of economic activity (NACE Rev.2) and the enterprise size class.</p> <p>The sampling frame is the current Business Register of ELSTAT.</p> <p>The survey is conducted by visits on enterprise premises by means of printed questionnaires (PAPI).</p>
Legal Framework	Regulations (EC) 453/2008, (EC) 1062/2008 and (EC) 19/2009 of the European Parliament and of the Council.
Reference date	Job vacancies are recorded on the 1 st day of the 3 rd month of each calendar quarter.
Data collection during the pandemic period of COVID-19	Data were collected during February and March 2021 and the response rate of the enterprises was lower compared to the corresponding period of the previous year due to the special circumstances resulting from the restrictive measures imposed due to the COVID-19 pandemic.
Definitions	<p>The statistical unit is the enterprise employing at least three (3) employees.</p> <p>Job vacancy is considered a paid post that is newly created, unoccupied, or about to become vacant, for which the employer is taking active steps and is prepared to take further steps to find a suitable candidate from outside the enterprise concerned and which the employer intends to fill either immediately or in the near future. It should be noted that job vacancies refer only to employees.</p> <p>A vacant post which is going to be filled by the following categories is not considered as Job Vacancy:</p> <ul style="list-style-type: none">➤ an apprentice without remuneration coming either by the employer or through the Social Security Funds➤ contractors which are not on the payroll list,➤ personnel who is re-hired or returns to the enterprise after a holiday, paid or not, leave➤ internal movement of a member of personnel inside the enterprise <p>Job Vacancies to be filled in immediately are job vacancies for full or part-time employment, which are to be filled in within a period <u>not longer than three months</u>.</p>
