The Hellenic Statistical Authority (ELSTAT) announces the provisional data for the quarterly non-financial sector accounts for the 4th quarter of 2019. Quarterly non-financial sector accounts provide an overall description of the Greek economy, based on the analysis of the economic behavior of the institutional sectors constituting the economy (households and non-profit institutions serving households, non-financial corporations, financial corporations, general government) and the relations of the national economy with the rest of the world.

The data which are presented in the present Press Release have been compiled according to the European System of National and Regional Accounts (ESA 2010 – Regulation (EU) 549/2013).

The data cover the period 1999Q1 - 2019Q4.
