

EVOLUTION OF TURNOVER OF ENTERPRISES JANUARY 2026

The Hellenic Statistical Authority (ELSTAT) announces data on the evolution of turnover of enterprises in all sectors of the economy, incorporating the most recent data on turnover from Administrative Sources for **January 2026**.

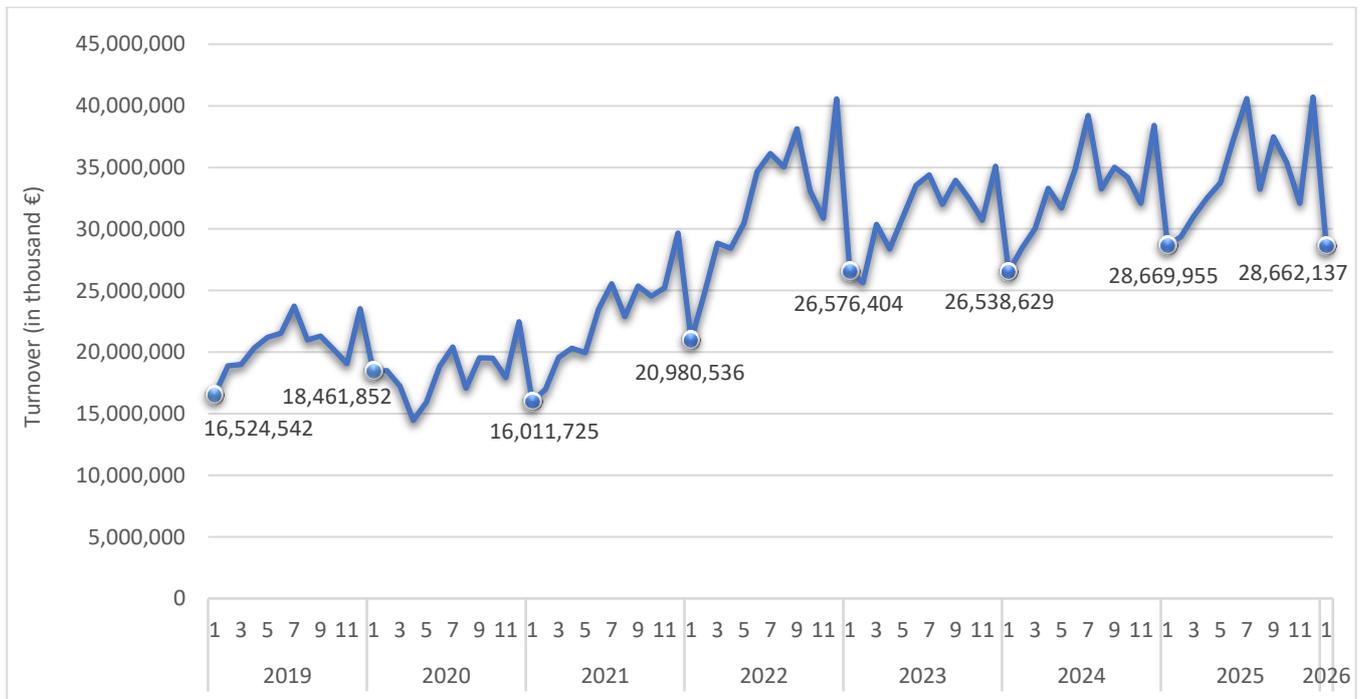

Starting from the current announcement, an updated framework for the determination of the total of enterprises in the Greek Economy is used, which occurs from the linking at micro-data level of administrative transactions files, of the reference years 2019 to 2026, administrative registers of enterprises, of the reference years 2024 and 2025 and of the final Statistical Business Register, of the reference year 2023, that provides a standardized set of data, harmonized with European classifications.

Specifically, enterprises from all economic activity sections that were established in 2024 or 2025 and recorded an annual turnover of at least 5,000 thousand euro in 2025 were included in the framework. In particular, for the section “Accommodation and Food Service Activities”, enterprises established in the same period and recorded an annual turnover of at least 500 thousand euro in 2025 were included.

For the enterprises of the economy as a whole, obliged to double-entry accounting bookkeeping, for which data are available on a monthly basis, the turnover in January 2026 amounted to 28,662,137 thousand euro, recording a decrease of 0.03% in comparison with January 2025, when the respective turnover was 28,669,955 thousand euro (Graph 1, Table 2).

The biggest decrease in turnover in January 2026 compared with January 2025 was recorded from the enterprises of the section Manufacturing, per 7.9%, while the biggest increase was recorded from the enterprises of the section Mining and Quarrying, per 25.9% (Table 2).

METHODOLOGICAL NOTES

Generally The current announcement provides statistical data on turnover for all enterprises and sections of the economy.

These statistical data have been compiled on the basis of the linking and processing of primary data from the following sources:

- The final Statistical Business Register of ELSTAT, of the reference year 2023.
- Administrative registers of enterprises, of the reference years 2024 and 2025.
- Administrative transactions files (tax, etc) of the reference years 2019 to 2026.

In particular, the following primary data have been used per source:

- Active enterprises and the economic activity class from the final Statistical Business Register of the reference year 2023.
- The economic activity class for the enterprises that started their activity after the reference year 2023 and have a significant turnover, from administrative registers of enterprises of the reference years 2024 and 2025.

Specifically, enterprises from all economic activity sections that were established in 2024 or 2025 and recorded an annual turnover of at least 5,000 thousand euro in 2025 were included in the framework. In particular, for the section "Accommodation and Food Service Activities", enterprises established in the same period and recorded an annual turnover of at least 500 thousand euro in 2025 were included.

- Income data from administrative transactions files of the reference years 2019 to 2026.

Statistical classifications For the economic activities, the European statistical classification of economic activities [NACE Rev. 2](#) is used.

Reference Period January 2026.

Statistical unit The statistical unit is the legal unit (distinct TIN).

Comparability The announced statistical data are comparable with the data of the final Statistical Business Register of ELSTAT, of the reference year 2023 (relevant link from the webpage of ELSTAT, where tables and information on the methodology applied are provided [Statistical Business Register](#)).
