Piraeus, 10 June 2025

SURVEY ON ROAD FREIGHT TRANSPORT

REVISED DATA 2019

ANNUAL DATA

TABLE 1. Weight of transported goods and tonne-kilometres¹ effected by road freight vehicles registered in Greece, by type of vehicle use (for hire or reward, or own account), years 2018-2019

Type of road freight transport vehicles	Weight of transported goods (k-tonnes)			Tonne-Kilometers (k-tkm)		
	2018	2019	Change %	2018	2019	Change %
Total	383,946.6	372,511.9	-3.0	22,603,082.5	21,861,485.6	-3.3
Road freight transport vehicles, for own account	267,520.9	260,213.8	-2.7	6,749,248.4	6,335,125.4	-6.1
Road freight transport vehicles, for hire or reward	116,425.8	112,298.1	-3.5	15,853,834.0	15,526,360.2	-2.1

Remarks: Any differences in the totals across tables are on account of rounding up

¹ Tonne-kilometres (tkm) = weight of transported goods x distance travelled

TABLE 2. Weight of transported goods and tonne-kilometres effected by road freight vehicles registered in Greece, by type of cargo (transport packaging), years 2018-2019

Type of cargo	Weight of transported goods (k-tonnes)			Tonne-Kilometers (k-tkm)		
	2018	2019	Change %	2018	2019	Change %
Total of transports	383,946.6	372,511.9	-3.0	22,603,082.5	21,861,485.6	-3.3
Solid bulk goods (no cargo unit)	282,055.4	269,786.3	-4.3	8,625,103.2	7,939,962.7	-7.9
Palletised goods	40,062.8	45,088.3	12.5	9,183,469.8	9,805,130.0	6.8
Liquid bulk goods (no cargo unit)	21,998.2	22,085.5	0.4	2,030,821.9	1,417,289.5	-30.2
Freight containers	27,084.7	25,080.8	-7.4	824,511.2	1,194,392.2	44.9
Mobile, self-propelled units	4,126.1	1,804.8	-56.3	555,357.4	241,230.6	-56.6
Any other type of cargo	8,619.4	8,666.1	0.5	1,383,819.1	1,263,480.6	-8.7

Remark: Any differences in the totals across tables are on account of rounding up

Remark: Any differences in the totals across tables are on account of rounding up

QUARTERLY DATA

1st QUARTER 2019

TABLE 1. Weight of transported goods and tonne-kilometres¹ effected by road freight vehicles registered in Greece (national and international), 1st quarter of 2018-2019

Type of road freight transport	Weight of transported goods (k-tonnes)			Transport performance in thousand tonne-Kilometers (k-tkm)		
	2018	2019	change %	2018	2019	change %
Total	85,618.5	91,342.0	6.7	5,561,698.4	5,404,520.4	-2.8
National road freight transport	84,446.6	90,398.3	7.0	4,119,418.3	4,152,078.8	0.8
International road freight transport	1,171.9	943.7	-19.5	1,442,280.1	1,252,441.6	-13.2

Remarks: Any differences in the totals across tables are on account of rounding up

¹ Tonne-kilometres (tkm) = weight of transported goods x distance travelled

TABLE 2. Weight of transported goods and tonne-kilometres effected by road freight vehicles registered in Greece, by type of cargo (transport packaging), 1st quarter of 2018-2019

Type of cargo	Weight of transported goods (k-tonnes)			Transport performance in thousand tonne-kilometres (k-tkm)		
	2018	2019	change %	2018	2019	change %
TOTAL	85,618.5	91,342.0	6.7	5,561,698.4	5,404,520.4	-2.8
1 - Transport of goods loaded in Greece	85,049.3	90,910.3	6.9	4,857,578.0	4,830,572.6	-0.6
Solid bulk goods (no cargo unit)	63,552.1	66,465.0	4.6	1,944,948.6	1,784,175.4	-8.3
Palletised goods	8,979.7	10,538.4	17.4	2,065,098.4	2,202,028.7	6.6
Liquid bulk goods (no cargo unit)	4,292.9	6,284.9	46.4	412,794.5	323,088.1	-21.7
Freight containers	6,140.5	6,098.4	-0.7	157,602.5	266,838.8	69.3
Mobile, self-propelled units	243.7	433.2	77.8	23,334.1	63,809.7	173.5
Any other type of cargo	1,840.4	1,090.4	-40.8	253,799.8	190,632.0	-24.9
2 - Transport of goods loaded abroad (all types of cargo)	569.2	431.8	-24.1	704,120.4	573,947.8	-18.5

Remark: Any differences in the totals across tables are on account of rounding up

TABLE 3. Weight of loaded goods on road freight transport vehicles (national and international) by place of loading, and tonne-kilometres effected, 1st quarter of 2018-2019

Place of loading	Weight of freight (k-tonnes)			Transport performance in thousand tonne-kilometres (k-tkm)		
<i>by Great Geographic Area (NUTS 1)</i>	2018	2019	change %	2018	2019	change %
Greece, Total	85,049.3	90,910.3	6.9	4,857,578.0	4,830,572.6	-0.6

EXPLANATORY NOTES

SURVEY ON ROAD FREIGHT TRANSPORT	The survey on road freight transport is a quarterly survey, which has been conducted in all EU Member States since 1999, by virtue of Council Regulation (EC) No 1172/98. The purpose of the survey is to monitor the road transport of goods carried out by road transport vehicles registered in each Member State, as well as the journeys made by these vehicles. The survey does not cover a) road vehicles for the transport of goods, the permissible weight or the permissible dimensions of which exceed the limits normally accepted in the MS concerned and b) agricultural vehicles, military vehicles and vehicles belonging to central or local public administrations, with the exception of road vehicles for the transport of goods belonging to public undertakings, and in particular railways. Each Member State may exclude from the scope of the survey goods transport vehicles whose load capacity or maximum permissible weight is below a certain limit (for Greece it is 3.5 tons of load capacity).
LEGAL FRAMEWORK	The survey is governed by Regulation (EU) No 70/2012 of the European Parliament and of the Council on statistical returns in respect of the carriage of goods by road. This Regulation is a recast edition of the Regulation (EC) 1172/98, which has been substantially amended several times.
REFERENCE PERIOD	The revised data refers to the year 2019.
SURVEY METHODOLOGY	The survey is conducted on a quarterly basis. The sample is equally distributed into the thirteen weeks of a quarter. Every vehicle is surveyed during a specific week of the year, from Monday to Sunday. The sample is selected on the basis of various criteria: the vehicle performing national or international road freight transport; the vehicle being for private or for public use; category of load capacity; type of chassis; registered office of the vehicle, etc. The questionnaires are processed, and the data are produced in line with rules and guidelines laid down in the relevant Manual of Eurostat.

LARGE GEOGRAPHIC AREAS OF GREECE (NUTS I)

REGIONS OF GREECE (NUTS II)

DEFINITIONS	<p>Registered vehicle: the state of having been entered in a register of road transport vehicles, kept by an official body in a Member State. In the case of carriage by means of a combination of road transport vehicles, the complete vehicle shall be deemed to be registered in the country where the goods road transport vehicle is registered.</p> <p>International Transport: a) a laden journey undertaken by a vehicle the point of departure and the point of arrival of which are in two different Member States, b) a laden journey undertaken by a vehicle from a Member State to a third country or vice versa, c) a laden journey undertaken by a vehicle between third countries, d) an unladen journey in conjunction with the carriage referred to in points a), b) and c). International carriage shall be carried out subject to possession of a Community license.</p> <p>National transport: transport by a loaded vehicle where the point of departure and the point of arrival are located in the same country (Greece).</p> <p>Load capacity: maximum weight of goods declared permissible by the competent authority of the country of registration of the vehicle. When the goods road transport vehicle is a road train made up of a lorry with trailer, the load capacity of the road train is the sum of the load capacities of the lorry and the trailer.</p> <p>Place of loading: the first place in which goods are loaded on the goods road transport vehicle, which was previously completely empty.</p> <p>Place of unloading: the last place in which goods are unloaded from the goods road transport vehicle, which is subsequently completely empty.</p> <p>Distance traveled: actual distance excluding the distance covered by the goods road transport vehicle while being transported by another means of transport.</p> <p>Types of journeys: 1) laden journey involving one single basic transport operation 2) laden journey involving several transport operations, but not considered as a collection or distribution round, 3) laden journey of the collection or distribution round type, 4) unladen journeys.</p>
