

HELLENIC REPUBLIC HELLENIC STATISTICAL AUTHORITY

Piraeus, 25 July 2023

QUARTERLY NON-FINANCIAL SECTOR ACCOUNTS:

1st Quarter 2023 (Provisional data)

The Hellenic Statistical Authority (ELSTAT) announces the provisional data for the quarterly non-financial sector accounts for the 1st quarter of 2023.

Quarterly non-financial sector accounts provide an overall description of the Greek economy, based on the analysis of the economic behavior of the institutional sectors constituting the economy (households and non-profit institutions serving households, non-financial corporations, financial corporations, general government) and the relations of the national economy with the rest of the world.

The data which are presented in the current publication have been compiled according to the European System of National and Regional Accounts (ESA 2010 – Regulation (EU) 549/2013).

The data cover the period 1999 (1st quarter) till 2023 (1st quarter). For the compilation of these provisional estimates all the best available data sources have been used.

Users should note that the data of the current publication for the 1st quarter 2023, include the General Government data that were published on July 21, 2023.

It is also noted that any discrepancies with the figures of annual non-financial sector accounts published on October 26, 2022, are due to the fact that the annual sector accounts are in full consistency with the annual national accounts, while the quarterly sector accounts follow the quarterly General Government accounts.

During the 1st quarter of 2023, the external balance of goods and services recorded a deficit of 6.40 billion euro compared to a deficit of 8.21 billion euro recorded at the 1st quarter of 2022.

Moreover, during the 1st quarter of 2023, the external balance of primary income, current and capital transfers, recorded a surplus of 0.26 billion euro. The corresponding figure for the 1st quarter of 2022 was a deficit of 0.06 billion euro.

As a result of the above, the total economy (S.1) presented net borrowing of 6.14 billion euro to the rest of the world (S.2) in the 1st quarter of 2023. A year before, net borrowing was 8.28 billion euro (Table 1, Graph 1).

Table 1

(in billion €)

	Total economy (S.1)	2023Q1	2022Q1	Dif
(1)	Imports of goods and services	27.45	26.66	0.79
(2)	Exports of goods and services	21.05	18.45	2.60
(3)=(2)-(1)	External balance of goods and services	-6.40	-8.21	1.81
(4)	External balance of primary incomes, current and capital transfers	0.26	-0.06	0.33
(5)=(3)+(4)	Net lending(+) / net borrowing(-)	-6.14	-8.28	2.13
	Rest of the world (S.2)			
(6)=-(5)	Net lending(+) / net borrowing(-)	6.14	8.28	-2.13

Small deviations in sums are due to rounding

Graph 1. Net lending (+) / net borrowing (-)

Total Economy

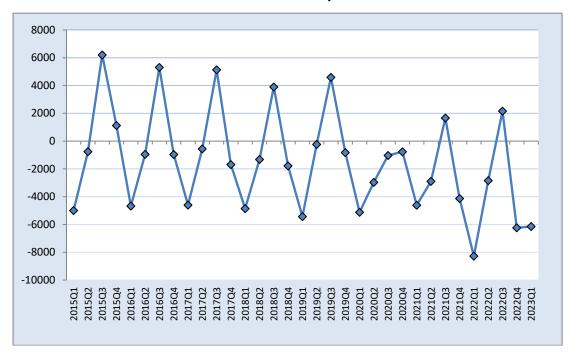

Table 2 presents the absolute values and the annual changes for the transactions of the secondary distribution of income account for households and non-profit institutions serving households (NPISH) sector for the 1st quarter of the years 2023 and 2022, which affect the gross disposable income.

During the 1st quarter of 2023, disposable income of the households and non-profit institutions serving households (NPISH) sector (S.1M) increased by 11.3% in comparison with the same quarter of the previous year, from 31.53 billion euro to 35.09 billion euro.

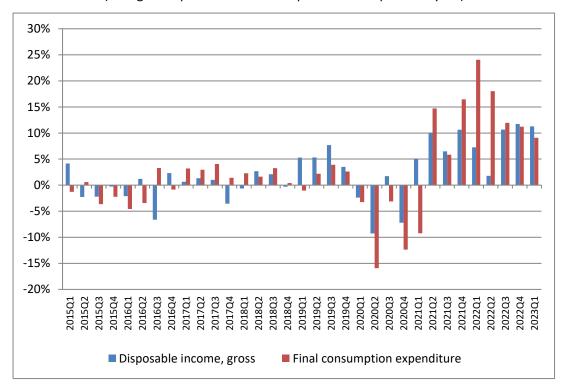

Table 2
Secondary distribution of income account (in million €)

Transactions and balancing items		Uses		y-o-y change %	Resources		y-o-y change %
		2023Q1	2022Q1		2023Q1	2022Q1	
B.5g	Balance of primary income. gross				34.344	31.405	9.4%
D.5	Current taxes on income. wealth. etc.	2.610	2.309	13.0%			
D.6	Social contributions	6.888	6.714	2.6%	9.836	8.843	11.2%
D.7	Other current transfers	329	289	14.0%	733	592	23.7%
B.6g	Disposable income. gross	35.086	31.529	11.3%			

Final consumption expenditure of the households and NPISH sector increased by 9.1% in comparison with the same quarter of the previous year, from 32.6 billion euro to 35.6 billion euro (Graph 2).

Graph 2. Households and NPISH gross disposable income and final consumption expenditure growth

(change compared to the same quarter of the previous year)

The saving rate of the households and NPISH sector, defined as gross saving divided by gross disposable income was -1.4% in the 1st quarter 2023 compared to -3.4% in the 1st quarter of 2022 (Graph 3).

EXPLANATORY NOTES

General: The quarterly non-financial sector accounts (QSA) provide a description of the

different stages of the economic process: production, generation of income, distribution of income, redistribution of income use of income and non-financial accumulation. They also provide a list of balancing items that have high analytical value in their own right: value added. operating surplus and mixed income, balance of primary incomes, disposable income, saving, net lending /

net borrowing.

Legal basis: The QSA are compiled in accordance with the European System of Accounts -

ESA 2010 of the Council Regulation (EU) No 549/2013 of the European

Parliament and of the Council of 21 May 2013.

Reference period: The accounting period is the quarter.

Geographical The whole Greek territory.

coverage:

Unit of measure: The economic data are published in million euro.

Revision: The quarterly non-financial sector accounts are revised following the revisions

of annual non-financial sector accounts, quarterly national accounts and quarterly non-financial accounts of General Government, in order to ensure

coherence between them.

Statistical The standard followed is the European System of Accounts (ESA 2010). The main

classification: categories are the institutional sectors and the transactions recorded between

the sectors.

The institutional sectors combine institutional units with similar characteristics

and behaviour and are classified as follows:

Total Economy (S.1)

Non-financial corporations (S.11) Financial corporations (S.12) General Government (S.13)

Households and non-profit institutions serving households (NPISH) (S.1M)

Rest of the World (S.2)

Compilation of Sector The COVID-19 pandemic has had impact on the Greek Economy, since mid-

Accounts in the March 2020. Eurostat and National Statistical Authorities in the European **context of the COVID-** Statistical System have been working together to elaborate guidelines and notes

19 crisis: on how to address the statistical challenges brought about by the pandemic.

For the compilation of the provisional estimates for the current quarter. the best available sources as well as the same estimation methods have been used as in

the previous quarters.

Publication of data: Quarterly non-financial sector accounts data are published at about 120 days

after the end of the reference quarter.
