

According to the draft regulation 450/2003 of the E.C relating to the Labour Cost Index., N.S.S.G. calculates:

- Index of total labour costs – (lci_tot);
- Index of wages and salaries – (lci_wag);and
- Index of employers' social contributions – (lci_oth).

All the information is published for 1-digit Sector of Economic Activity for non-seasonally adjusted (Present.=NSA), Seasonally adjusted (SA) and working day adjusted (WDA) data with base year the 2002. Additionally groups of Sectors of Economic Activity are calculated.

The total Labour Cost includes compensation of employees, employers' social contributions, as well as the total taxes paid by the employers (excluding Tax for paid working time), relating to employment. Subsidies received from employers as well as costs relating to vocational training are also excluded from the total labour cost.
