

Migration Metadata and Quality Questionnaire

This questionnaire is developed to ensure compliance with the requirements of Article 3 of Regulation 862/2007 on Community Statistics on Migration and International Protection. As given in the Article 9 of the Regulation, Member States must report to Eurostat on the data sources used, the reasons for the selection of these sources and the effects of the selected data on the quality of the statistics.

Where estimations are applied to the data, **Member States should report on the estimation methods used. Member States should also inform Eurostat of any changes that are made to data sources and methods used.**

The metadata collected through this questionnaire will be used to analyse the level of data reliability, coherence and comparability. In addition, the summary of this information will be used for preparing methodological files at Eurostat level, containing information related to definitions, concepts and data quality.

3. Concepts and definitions

3.1. Are the following definitions stated in Article 2.1 of Reg. 862/2007 applied, when compiling immigration data for each of the requested datasets?

'Immigration'/'Immigrant'

X Yes No

If 'No', please specify for which dataset and reason:

.....
.....

'Citizenship'

X Yes No

If 'No', please specify for which dataset and reason:

.....
.....

'Country of birth'

X Yes No

If 'Yes', please specify which of the following possible definitions:

X *the country of residence (in its current borders, if the information is available) of the mother at the time of the birth*

the country (in its current borders, if the information is available) in which the birth took place

If 'No', please specify for which dataset and reason:

.....
.....

'Usual residence'

X Yes No

If 'Yes', please specify which of the following possible definitions:

X *the place at which a person normally spends the daily period of rest, regardless of temporary absences for purposes of recreation, holiday, visits to friends and relatives, business, medical treatment or religious pilgrimage*

the place of legal or registered residence

If 'No', please specify for which dataset and reason:

.....
.....

3.2. Is age defined as recommended in the Guidelines to the migration data collection, i.e. the age **reached** during the reference year based on the **year of birth**?

X Yes No

If 'No', please specify:

.....

Would you be able to provide immigration data by age **completed**, i.e. based on the **age at the event**?

Yes No

3.3. Are definitions used for national purposes compatible with those stated in Article 2.1 of Reg. 862/2007?

X Yes No

If 'No', please specify in which cases:

.....

If 'No', please specify the full content of the national definition:

6 Other source, <i>please specify</i> Vital Statistics	<input type="checkbox"/>	x	<input type="checkbox"/>

In case of estimated figures, please report on the estimation method and state for which type of data it was used:

The total number of immigrants was estimated according the 2011 Population Census and the residence permit database (RP) trends. Census results were also used for estimating the nationals' number. The RP was used for the allocation of those having third country nationality. For nationals and the EU citizens Census results were used. Vital statistics were also taken into account. Census was also used for the allocation by previous residence.

7. Timeliness, data release and revision policy

7.1. Specify the average production time for immigration data (from the end of the reference year to the time when all requested data can be submitted to Eurostat):

One year

.....

If the case, please state the approximate delay of data delivery and the reason for it:

Answer from previous questionnaire still applicable

.....

7.2. Please, provide a link to the on-line database, where disseminated immigration data at national level can be accessed:

p_param=A1605&r_param=SPO15&y_param=MT&mytabs=0](http://www.statistics.gr/portal/page/portal/ESYE/PAGE-themes?p_param=A1605&r_param=SPO15&y_param=MT&mytabs=0)

.....
.....

7.3. Please, indicate the month (and the date) of the national release of immigration data:

Answer from previous questionnaire still applicable

Just after Eurostat's release.....

.....

In case a pre-announced release calendar was set, provide an indication of the punctuality in the publication of immigration data:

.....
.....

7.4. Describe the general revision policy in the reporting country, whereby preliminary data on immigration are compiled and later revised. Please, indicate the period during which the revised data are disseminated:

Answer from previous questionnaire still applicable

.....
.....

8. Quality management

8.1. Are there national quality reports and reference metadata files available concerning the immigration data supplied? Are they available on-line and in which language(s)? Please, provide a link or other reference to those files:

[http://www.statistics.gr/portal/page/portal/ESYE/PAGE-themes?

.....

8.2. Provide a qualitative assessment of the completeness of the immigration data

a) for the data supplied under Reg. 862/2007:

Answer from previous questionnaire still applicable

After the release of the Census results the total evaluation is in a high level of completeness.....

.....

b) for the non-compulsory data:

Answer from previous questionnaire still applicable

.....
.....

8.3. Provide information on the length of time series (indicate the **first reference year** for which data are available), years at which series breaks occur and the reasons for the breaks:

	Series length (first ref. year)	Series breaks	Reasons for series breaks
Total immigration	2008		Data for nationals are not available for 2008 and 2009.
a) breakdown by citizenship	2008.....		Data for nationals are not available for 2008 and 2009.
b) breakdown by country of birth	2008.....		Data for nationals are not available for 2008 and 2009.
c) breakdown by country of previous residence	2008.....		Data for nationals are not available for 2008 and 2009.

8.4. Describe the extent to which the immigration data are coherent **within each table** of the questionnaire and **between different tables**, by listing the breakdowns/tables for which there might be inconsistency:

Data are full coherent

.....

8.5. Describe the extent to which immigration data are coherent with respect to **related statistics** (e.g. demographic statistics, regional migration data):

Data are coherent within all demographic statistics tables.

.....

8.6. Provide an evaluation, if possible **quantitative**, of the non-sampling sources of error, and in particular:

a) rate of undercoverage:

.....

b) rate of overcoverage:

.....

c) error due to the estimation model used (if any):

.....

d) other sources of error:

.....

8.7. If sampling has been used, please provide a description of the sampling design used and a qualitative/quantitative estimate of the accuracy:

Answer from previous questionnaire still applicable

.....
.....

8.8. If any imputation has been performed (unit imputation and/or imputation of unknown variables) please describe it:

.....
.....

7. Timeliness, data release and revision policy

7.1. Specify the average production time for data on usually resident population (from the end of the reference year to the time when all requested data can be submitted to Eurostat):

One year after the end of the reference year

.....

If the case, please state the approximate delay of data delivery and the reason for it:

Answer from previous questionnaire still applicable

.....

7.2. Please, provide a link to the on-line database, where disseminated population data at national level can be accessed:

[http://www.statistics.gr/portal/page/portal/ESYE/PAGE-themes?
 p_param=A1605&r_param=SPO15&y_param=2012_00&mytabs=0](http://www.statistics.gr/portal/page/portal/ESYE/PAGE-themes?p_param=A1605&r_param=SPO15&y_param=2012_00&mytabs=0)

.....

7.3. Please, indicate the month (and the date) of the national release of data on usually resident population:

Answer from previous questionnaire still applicable

Just after Eurostat's release.....

.....

In case a pre-announced release calendar was set, provide an indication of the punctuality in the publication of population data:

.....

7.4. Describe the general revision policy in the reporting country, whereby preliminary data on usually resident population are compiled and later revised. Please, indicate the period during which the revised data are disseminated:

Answer from previous questionnaire still applicable

.....

8. Quality management

8.1. Are there national quality reports and reference metadata files available concerning the supplied data on usual resident population? Are they available on-line and in which language(s)? Please, provide a link or other reference to those files:

[http://www.statistics.gr/portal/page/portal/ESYE/PAGE-themes?
 p_param=A1605&r_param=SPO15&y_param=MT&mytabs=0](http://www.statistics.gr/portal/page/portal/ESYE/PAGE-themes?p_param=A1605&r_param=SPO15&y_param=MT&mytabs=0)

.....

8.2. Provide a qualitative assessment of the completeness of the data on usual resident population

a) for the data supplied under Reg. 862/2007:

After the release of the Census results the total evaluation is in a medium level of completeness

.....

b) for the non-compulsory data:

Answer from previous questionnaire still applicable

.....

8.3. Provide information on the length of time series (indicate the **first reference year** for which data are available **on 1 January**), years (on 1 January) at which series breaks occur and the reasons for the breaks:

	Series length (first ref. year)	Series breaks	Reasons for series breaks
Total population	1991.....
a) breakdown by citizenship	2008.....	2012.....	Population Census 2011.....
b) breakdown by country of birth	2008.....	2012.....	Population Census 2011.....

8.4. Describe the extent to which data on usual resident population are coherent **within each table** of the questionnaire and **between different tables**, by listing the breakdowns/tables for which there might be inconsistency:

Full coherence

.....

8.5. Describe the extent to which data on usual resident population are coherent with respect to **related statistics** (e.g. demographic statistics, regional migration data):

Answer from previous questionnaire still applicable

Full coherence.....
.....

8.6. Provide an evaluation, if possible **quantitative**, of the non-sampling sources of error, and in particular:

a) rate of undercoverage:

.....
.....

b) rate of overcoverage:

.....
.....

c) error due to the estimation model used (if any):

.....
.....

d) other sources of error:

.....
.....

8.7. If sampling has been used, please provide a description of the sampling design used and a qualitative/quantitative estimate of the accuracy:

Answer from previous questionnaire still applicable

.....
.....

8.8. If any imputation has been performed (unit imputation and/or imputation of unknown variables) please describe it:

.....
.....

9. **Supplementary information**

Census 2011 results by Country of Birth are not yet available. After release of these data, we will re-examine tables POP3 and POP4 and -if needed- the tables will be revised.....
