

PRESS RELEASE

SURVEY ON EPHORATES OF ANTIQUITIES, 2015

The Hellenic Statistical Authority (ELSTAT) announces, for the first time, a press release presenting the data of the Survey on Ephorates of Antiquities, conducted in 2015.

The Survey on Ephorates of Antiquities is an annual, census survey and presents the activities of 54 Ephorates of Antiquities, 9 Offices of Modern Monuments and Technical Works, as well as of the 7 Special Regional Operational Units in Greece, which all belong to the Ministry of Culture and Sports.

The survey helps collecting a wealth of information, the most important being: data on the excavations that were carried out, by type, the monuments and archaeological finds revealed, the declaration of archaeological sites, the exhibitions of archaeological finds, illicit trade and deliveries of antiquities, donations of archaeological objects, licenses to export antiquities, expenditure of projects (completed or under way) concerning monuments, archaeological sites and museums and maintenance of archaeological finds.

Five (5) concise tables and the relevant graphs are presented below, illustrating some of the data collected by the survey during the last decade. All the findings of the survey are presented more analytically in fifteen (15) tables which are posted on the portal of ELSTAT.
