INDEX OF WAGES OF THE WHOLE ECONOMY:

1st quarter 2006 – 4th quarter 2014

The Hellenic Statistical Authority (ELSTAT) announces data on the quarterly Index of Wages for the Greek economy for the 4th quarter 2014 (Primary Sector and activities of Households are not covered), with and without seasonal adjustment. This Press Release also provides the entire data series for the period 2006-2014.

The unadjusted Index of Wages for the 4th quarter 2014, compared with the corresponding Index of the 3rd quarter 2013, recorded an increase of 0.3%, while a decrease of 4.9% had been observed when comparing the corresponding quarterly Index of 2013 with that of 2012.

The Index of Wages presented in Table 1 is neither seasonally adjusted nor working days adjusted. This observation, in combination with the fact that the 14th salary and several overtime payments are paid in specific sectors of the economy during the 4th quarter of every year, should be taken into account when considering the high values of the index systematically recorded for this specific period of time.

The seasonally adjusted Index of Wages of the 4th quarter 2014 recorded an increase of 1.4% compared with the corresponding Index of the 3rd quarter 2013, while a decrease of 8.3% had been recorded when comparing the corresponding quarterly Index of 2013 with that of 2012.

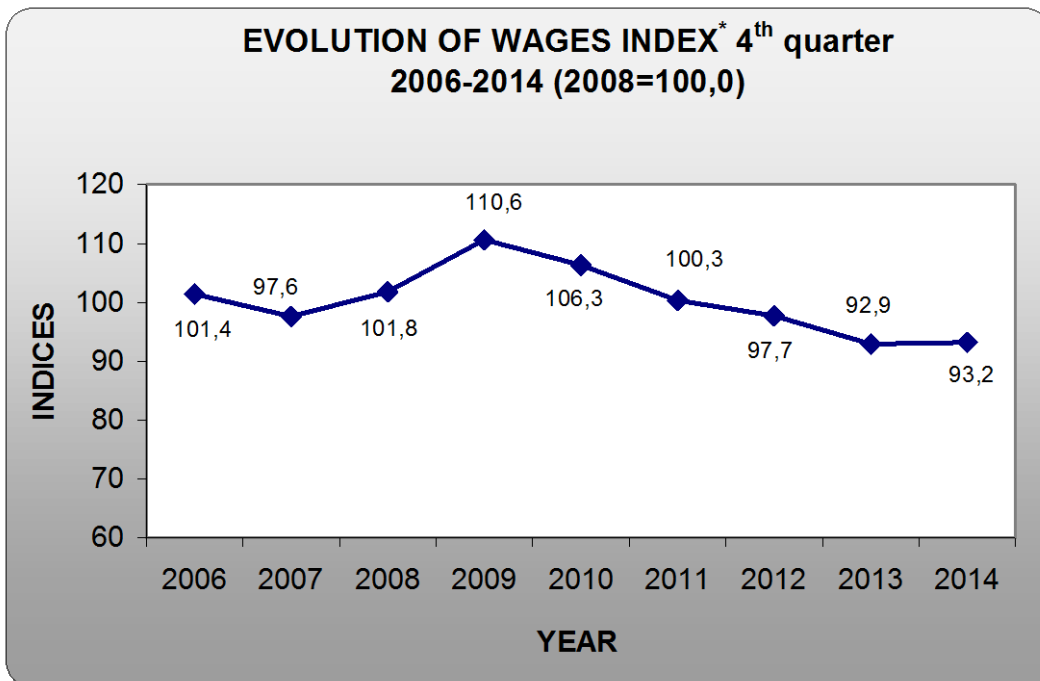

The Index of Wages presented in Table 2 is only seasonally adjusted, and not working days adjusted.

The working days adjusted Index of Wages of the 4th quarter 2014 recorded an increase of 0.7% compared with the corresponding Index of the 3rd quarter 2013, while a decrease of 2.9% had been recorded when comparing the corresponding quarterly Index of 2013 with that of 2012.

Table 3 illustrates the working days adjusted Index of Wages without seasonal adjustment.

Q4²	93,2	6,9	0,3

¹ The variation of the index is due to seasonality and to the payment of bonuses.² During Q4, the 14th salary is paid alongside bonuses, which are usually paid in the end of the year, resulting in an increase in the index.* In some branches, the 14th salary has been paid instead of at the end of the current year (Q4_2013), in the beginning of the following (Q1_2014).

¹ The working days adjusted Index of Wages for the branches B- S is being compiled since 2008.* In some branches, the 14th salary has been paid instead of at the end of the current year (Q4_2013), in the beginning of the following (Q1_2014).

METHODOLOGICAL NOTES

General	The Index of Wages in the Sectors B-S is a quarterly index with base year 2008=100,00.	
Purpose of the index – Definitions	<p>The purpose of the index is to measure the wages in the branches B-S. The Index is a Laspeyres-type chain index with base year the year 2008. It is compiled on a quarterly basis and includes the total of the gross earnings received by employees during the reference period.</p> <p>The Index is calculated on the basis of the gross earnings in comparison with the hours worked.</p> <p>Gross earnings include salaries and wages (regular payments and overtime payments), bonuses and extra extraordinary bonuses (Christmas and Easter bonuses, holiday pay and any other kind of bonuses not regularly paid), as well as payments for non working days (e.g. holidays, national holidays, maternity leave, child benefits, severance payments, etc).</p>	
Legal Framework	The Index of Wages in the Sectors B-S is compiled by virtue of Regulation 450/2003 (EC) of the European Parliament and of the Council. It is also available and released by international organizations (EUROSTAT, IMF).	
Reference period	Quarter	
Base year	2008=100,00	
Statistical Classification	The new Eurostat classification of economic activities, NACE Rev.2, is used and the sectors, which are covered by the index, correspond to branches B-S.	
Geographical coverage	Greece total	
Sectors of economic activity	Sectors of Economic Activity by NACE Rev. 2	Description
	B	Mining and quarrying
	C	Manufacturing
	D	Electricity, gas, steam and air conditioning
	E	Water supply, sewerage, waste management and remediation activities
	F	Construction
	G	Wholesale and Retail Trade, Repair of Motor Vehicles and Motorcycles
