PRESS RELEASE

MATERIAL COSTS INDEX IN CONSTRUCTION OF NEW RESIDENTIAL BUILDINGS: February 2012

The Material Costs Index in Construction of New Residential Buildings in February 2012 compared with February 2011 recorded a rise of 0.5%. The index in February 2011 had recorded an increase of 4.2% compared with February 2010 (Table 1).

The Material Costs Index in February 2012 compared with January 2012 increased by 0.1%. The index had increased by 0.3% between February 2011 and January 2011 (Table 2).

The twelve-month average index, from March 2011 to February 2012, compared with the same index of the period from March 2010 to February 2011, increased by 1.9%. The previous year the twelve-month average index had increased by 3.4% (Table 3).

Table 1: Annual rates of change of the Material Costs Index in Construction of New Residential Buildings**Base year: 2005=100.0**

Code	Material groups	Weights	February			Change (%)	
			2012	2011	2010	2012/2011	2011/2010
14612	Overall Index	100.00	125.7	125.1	120.1	0.5	4.2
1461201	Cement, mortars and ready mixed concrete	18.60	115.1	115.4	115.4	-0.2	0.0
1461202	Natural stone	1.94	115.8	117.3	115.3	-1.3	1.7
1461203	Marble products, granites	4.25	120.4	119.2	118.6	1.0	0.5
1461204	Artificial stone	5.23	133.6	132.9	131.3	0.5	1.3
1461205	Timber and builders' carpentry	16.64	118.9	118.8	118.0	0.0	0.6
1461206	Basic metals	22.59	137.1	137.0	125.1	0.1	9.5
1461207	Plumbing, heating and drainage equipment and supplies	7.42	144.5	141.4	127.5	2.2	11.0
1461208	Door and window fittings	2.16	118.7	119.1	119.8	-0.3	-0.5
1461209	Electrical equipment	4.74	138.2	137.1	124.2	0.7	10.4
1461210	Glass products	1.96	113.5	113.0	113.0	0.5	0.0
1461211	Paints and varnishes	3.08	116.9	113.9	113.4	2.7	0.4
1461212	Floor and wall tiles and sanitary ware	5.32	114.2	113.7	112.6	0.5	1.0
1461213	Insulating materials	1.17	116.4	115.8	115.4	0.5	0.4
1461214	Elevators	3.36	108.4	110.4	110.7	-1.7	-0.3
1461215	Fuel for machinery (diesel), electricity, water	1.54	158.8	145.7	124.7	9.0	16.8

Notes:

1. The indices are calculated with infinite decimal figures and are rounded up to one decimal figure when published.

2. Percentage changes are calculated on the basis of indices with five decimal figures and are rounded up to one decimal figure when published.

METHODOLOGICAL NOTES

Generally	The compilation of the Material Costs Index in Construction of New Residential Buildings started in 1975. The index, in its current form, is compiled since January 2005, when it replaced the previous index with base year 2000.
Purpose of the index – definitions	<p>The purpose of the index is to measure the monthly rates of change in the prices of building materials paid by the constructors and are consumed in the construction of new residential buildings.</p> <p>The Material Costs Index is a monthly index and consists a sub-index of the overall cost index in construction of new residential buildings.</p> <p>For the compilation of the index the selected prices of the materials are those which are actually paid by the construction enterprises for materials supplied at the site and do not include VAT.</p>
Legal basis	The compilation of the Material Costs Index is governed by Council Regulation (EEC) No.1165/98 concerning short-term statistics and by Regulation No.1158/05 (amending the above mentioned Regulation) of the European Parliament and of the Council.
Reference period	Month
Base year	2005=100.0.
Revision	The Material Costs Index is a fixed base index. Pursuant to the provisions of Council Regulation No 1165/98 concerning short-term statistics, the index in question is updated every five (5) years on years ending in 0 or 5.
Statistical classification	The national classification which includes 89 categories of materials aggregated in 15 groups is followed.
Geographical coverage	The Index covers the whole of the country. The prices are collected in the biggest cities of the country (Greater Athens, Thessaloniki, Patras, Volos, Larisa and Herakleion).
Coverage of economic activities	The Material Costs Index in Construction of New Residential Buildings is an input index that refers to the prices paid for building materials by the constructors of new residential buildings.
Statistical survey	A total number of 1477 observations (prices) collected from 270 commercial or industrial enterprises supplying building materials, is used for the compilation of the index.
Publication of data	The index with the new base year (2005) is being released since February 2009, with January 2009 as the first reference month. Times series data with base year 2005=100.0, are available from January 2000 onwards.
References	More information on the methodology concerning the compilation and calculation of the index and for the time series is available on the EL.STAT. website (www.statistics.gr).
