The CPI is revised in regular time according to the results of the latest, each time, Household Budget Survey (HBS). The last revision of the CPI was based on the results of the HBS conducted in the period 2004/05 and since April 2006, the revised CPI is published, with base year 2005=100,0.

² The aim of this index is to estimate the general level of the prices of goods and services that compose the "basket" of the purchases of the average household.

³ The revised CPI in conformity with the HICPs practice is rounded up to 2 decimal figures when published.

More information about CPI is included to a special methodological note.
