

**Dr Konstantinos AMPOUNTOLAS**

**Senior Lecturer, School of Engineering, University of Glasgow, United Kingdom**

Dr Konstantinos Ampountolas is a Senior Lecturer in the School of Engineering at the University of Glasgow, UK. Before to joining Glasgow, he was research fellow at École Polytechnique Fédérale de Lausanne, Lausanne, Switzerland, research scholar at the University of California, Berkeley, and post-doctoral researcher at the Centre for Research and Technology Hellas, Thessaloniki, Greece. He was visiting professor at Technion - Israel Institute of Technology, Haifa, Israel, and at the Federal University of Santa Catarina, Florianópolis, Brazil. His research interests include automatic control, optimisation theory, and urban informatics, with applications to traffic and transport systems. Dr Ampountolas serves as an Associate Editor of the Journal of Big Data Analytics in Transportation and on the Editorial Advisory Boards of Data in Brief, Transportation Research Part C and Transportation Research Procedia. He is co-investigator of the Urban Big Data Centre (<http://ubdc.ac.uk>).
