HELLENIC REPUBLIC HELLENIC STATISTICAL AUTHORITY

# ROAD TRAFFIC ACCIDENTS: April 2025

The Hellenic Statistical Authority (ELSTAT) announces provisional<sup>1</sup> data from the survey on "Road Traffic Accidents" for April 2025. In particular, the road traffic accidents which occurred in Greece, resulting in death or injury, decreased by 16.2% in comparison with the corresponding month of 2024 (895 road accidents in April 2025, against 1,068 road accidents in April 2024).

The casualties of the injury-causing accidents that occurred in April 2025 were as follows: 42 deaths, 54 serious injuries and 1,030 slight injuries. In April 2024 the corresponding figures were: 50 deaths, 51 serious injuries and 1,226 slight injuries. Therefore, road traffic accident casualties in April 2025 decreased by 16.0% for deaths and for slight injuries and increased by 5.9% for serious injuries.

# **EXPLANATORY NOTES**

Survey on
 Road Traffic
 Accidents
 Accidents
 The Survey on Road Traffic Accidents is conducted on a monthly basis and it records, for each region (see map) and department of Greece and for each month separately, the number of accidents resulting in death or injury, as well as the number of persons injured by categories (drivers, passengers, pedestrians).

On a yearly basis, road traffic accidents are further analyzed. The competent agencies for filling in/collecting the forms on road accidents are the local Police Authorities and the local Port Authorities of Greece.

The lower level of analysis for the place where an injury road accident occurred is the settlement. Data are collected on a monthly basis. The main variables are the following: place of accident, kind of road, casualties, conditions of road surface and type of road.

**Legal basis** The Survey on Road Traffic Accidents is governed by Council Decision 93/704 of the European Community.

Reference Monthly. period

Availability Provisional data are available 2 months after the reference month.

of data Final data are available 14 months after the reference year.

**Definitions Road accident** (injury accident): Any accident involving at least one road motor vehicle in motion on a public road or square to which the public has access (excluding yards, industrial sites or vehicle depot of public transport enterprises), resulting in at least one injured or killed person. Accidents with only material damages are not included.

**Fatality (Death):** Any person killed immediately or dying within 30 days as a result of an injury accident (This national definition applies since 01.01.1996)

**Person injured:** Any person who sustained an injury as result of an injury accident, and who normally needs medical treatment.

**Serious injury:** Any person who sustained an injury as result of an injury accident, such as brain damages, mutilation, multiple injuries, which may result in lack of awareness or which are life-threatening.

Slight injury: Any person injured who sustained minor and not life-threatening injuries.

**Vehicle**: Include motor vehicles, trolleybuses, motorcycles, bicycles, motorbikes, agricultural and road making machines, animal and hand-drawn vehicles. Railway vehicles are excluded, unless the road accident involves at least one of the aforementioned types of vehicles and therefore, railway vehicles are considered vehicles.

- **Methodology** The forms of the survey are filled in by the local Police Authorities and the local Port Authorities as well.
  - **References** More information about Road Traffic Accidents is available on ELSTAT's website and more specifically at the link: <u>https://www.statistics.gr/en/statistics/-/publication/SDT03/-</u>.
