

HELLENIC REPUBLIC
HELLENIC STATISTICAL AUTHORITY

Piraeus, 16 March 2018

ANNOUNCEMENT

With regard to the infographic on the Labour Force Survey for the 4th Quarter 2017, which was published yesterday, Thursday 15 March 2018, the Hellenic Statistical Authority informs users as follows:

The percentage distribution of the unemployed by type of employment they are seeking has been estimated on the basis of the total of the labour force, while on the contrary, the percentage distribution of the employed by employment status has been, wrongly, estimated on the basis of the total number of the employed.

The infographic published today depicts the right figures.
