Piraeus, 29 March 2006

#### **PRESS RELEASE**

#### Producer Price Index in Industry<sup>1,2</sup>

#### February 2006

The Producer Price Index (PPI) in February 2006 as compared to February 2005 recorded a rise of 8,9%. A year earlier, the annual rate of change of the PPI was 4,1%.

The PPI in February 2006 as compared to January 2006 increased by 0,4%. A year earlier, the PPI was increased by 0,8%.

In the twelve-month period March 2005 – February 2006 the annual average rate of change of the PPI was 6,1%. A year earlier, the annual average rate of change of the PPI was 4,3%.

The National Statistical Service of Greece availability of data of PPI with the distinction of non-domestic Index in Eurozone and non-Eurozone starts from January 2004 onwards.

<sup>&</sup>lt;sup>1</sup>The Producer Price Index (PPI) in Industry is released from January 2005 as first reference month revised and re-based in 2000=100,0. The PPI replaces the previous compiled till December 2004 Wholesale Price Index, which is therefore removed from compilation. This decision was taken considering consultations with users and also the international practices.

The revision of the Producer Price Index in Industry with base year 2000=100,0 is based upon the results of the annual PRODCOM survey of the year 2000, the annual Mining-Quarrying survey of the year 2000 and the annual External Trade survey of the year 2000. It has to be underlined that this revision is done in the framework of the Short –Term Statistics (STS) Council Regulation (EC) no 1165/98 and in the framework of the amendment Regulation 1158/05. The Regulation 1165/98 requires a breakdown into "domestic" and "non-domestic" for the PPI while the amendment Regulation requires a further distinction of the "non-domestic" index in Eurozone and non-Eurozone. The construction of the non-Domestic Index is done on the basis of collection of prices for products that are traded towards the non-domestic market and are distinguished according to the country of destination towards Eurozone and non-Eurozone markets.
