Graphs: Quarterly Evolution of Producer Price Indices for Services

METHODOLOGICAL NOTES

Generally	The Producer Price Indices for Services (SPPI) are quarterly indices, which were first compiled and published in Greece with base year 2006=100.0 and were revised with base year 2010=100.0.
Purpose of the indices	The purpose of these indices is to measure the quarterly rates of change in the producer prices of services and to record the prices evolution that reflect the supply and demand conditions in the service markets, for the analysis of the real changes in the economy and in monitoring inflationary pressures.
Definitions of the indices	<p>The Producer Price Indices for Services are output price indices for the service production of resident producers. The SPPI cover services provided in the market for all uses, that is intermediate, final consumption and exports. However, the intermediate consumption dominates, because the SPPI are identified in to those branches of services whose production is directed mainly to other productive units (Business to Business), but do not differ significantly in the overall index (Business to All). Exceptions cases: the air transport services index, that is compiled as overall index (Business to All-B2All) and the two indices for postal and courier services, that are compiled as overall indices and also as partial indices for enterprises (Business to Business-B2B) and for consumers (Business to Consumer-B2C). Particularly in new branches of services: the sea and short sea shipping index, is compiled as overall index (B2All) and telecommunication indices, are compiled both as overall indices and sub-indices for businesses (B2B) and for consumers (B2C).</p> <p>The SPPI measure the prices of actual transactions that reflect the price that the producer receives for services that are actually sold to purchasers, including discounts, rebates or other surcharges. The collected prices are the basic prices for services sold. i.e. prices excluding VAT and other similar deductible taxes directly linked to turnover and also excluding all other taxes on products, but including any subsidies on products.</p>
Legal basis	The Producer Price Indices for Services are compiled in compliance with the Council Regulation (EC) No.1165/98 “concerning short-term statistics” as it was amended by the Regulations No.1158/05, 1503/2006 of the European Parliament and of the Council. Moreover, the aforementioned indices are compiled in compliance with the Regulation (EC) No.1893/2006 of the European Parliament and of the Council, as well as by the Regulation (EC) No.451/2008 of the Council.
Reference period	Quarter
Base year	2010=100.0.
Revision	The SPPI are fixed base indices. Pursuant to the provisions of Council Regulation No 1165/98 concerning short-term statistics, the indices in question are updated every five (5) years, in years ending in 0 or 5.
Statistical classifications	At the level of categories of economic activities Eurostat’s classification NACE Rev. 2, was used (Regulation 1893/2006), while at products-services level, Eurostat’s classification CPA 2008 was used according to the Council Regulation 451/2008.
Geographical coverage	The Indices cover the Whole Country.

Coverage of economic activities	<p>The SPPI are compiled from the 1st quarter 2014 for the following services:</p> <ul style="list-style-type: none"> • Freight transport services by road and removal services (industry 494) • Sea and coastal passenger and freight water transport services (industry 50: 501_502) • Scheduled air transport services (industry 51) • Warehousing and storage services (industry 5210) • Cargo handling services (industry 5224) • Postal and courier services (industry 53) • Telecommunications services (industry 61) • Computer programming, consultancy and related services (industry 62) • Information service on computers and related services (industry 63) • Legal services (industry 691) • Accounting, bookkeeping, auditing and tax consulting services (industry 692) • Management consulting services (industry 702) • Architectural and engineering services, related technical consulting services (industry 711) • Technical testing and analysis services (industry 712) • Services provided by advertising agencies (industry 7311) • Media representation services (industry 7312) • Market research and public opinion polling services (industry 732) • Employment services (industry 78) • Security and investigation services (industry 80) • Cleaning services (industry 812)
Statistical survey	<p>The data are collected from 355 enterprises, while the total number of observations (prices) is approximately 2500.</p>
Publication of data-References	<p>The data of SPPI with base year 2010=100.0 have being released since June 2014, with the 1st quarter of 2014 as first reference quarter. Data with base year 2010=100.0 are available from 2007 onwards. More information are available on the ELSTAT website: http://www.statistics.gr/en/statistics/-/publication/DKT59/-</p>
