2. Introduction

[Top](#)

The survey on consumption of petroleum products is annual and is based on administrative sources and files. The survey presents results on the total petroleum consumption per Region and per Regional Unit of the Country. The primary data are transmitted to the Hellenic Statistical Authority by the General Directorate of Energy of the Ministry of Environment and Energy.

3. Metadata update

4. Statistical presentation

[Top](#)

4.1 Data description

The survey on the consumption of petroleum products is carried out on a census basis and collects data from administrative sources and files. The survey presents results on the total petroleum consumption per Region and per Regional Unit of the Country. The primary data are transmitted to the Hellenic Statistical Authority by the General Directorate of Energy of the Ministry of Environment and Energy.

4.2 Classification system

The results of the survey are broken down according to the following classifications:

1. Geographical classification per Region and Regional Unit of the Country
2. Classification per petroleum product category.
For the following petroleum product categories: super, unleaded, unleaded super 98/100, diesel for heating, diesel for transport, mazut low sulphur, mazut high sulphur and liquid gas.

4.3 Sector coverage

Sector of petroleum products consumption.

4.4 Statistical concepts and definitions

Primary data are transmitted to the Hellenic Statistical Authority by the General Directorate of Energy of the Ministry of Finance in table format.

The final data, after their control and treatment, are provided in annual table format, in which the annual petroleum products consumption per Region and per Regional Unit and per category are presented, along with the respective percentage rates in comparison with the previous years.

4.5 Statistical unit

The statistical units are the enterprises of trading and refining of petroleum products.

4.6 Statistical population

All enterprises of trading and refining of petroleum products.

4.7 Reference area

Total of Greece per Region and per Regional Unit

- **Article 3, paragraph 1c, of the Law 3448/2006** (Government Gazette No 57, Issue A): *"For the further use of information coming from the public sector and the settlement of matters falling within the responsibility of the Ministry of Interior, Public Administration and Decentralization"*.
- **European Statistics Code of Practice** adopted by the Statistical Programme Committee on 24 February 2005 and promulgated in the Commission Recommendation of 25 May 2005 on the independence, integrity and accountability of the national and Community statistical Authorities, after its revision, which was adopted on 28 September 2011 by the European Statistical System Committee.
- **Presidential Decree 226/2000** (Government Gazette No 195, Issue A): *"Organization of the General Secretariat of the National Statistical Service of Greece"*.
- **Articles 4, 12, 13, 14, 15 and 16 of the Law 2392/1996** (Government Gazette No 60, Issue A): *"Access of the General Secretariat of the National Statistical Service of Greece to administrative sources and administrative files, Statistical Confidentiality Committee, settlement of matters concerning the conduct of censuses and statistical works, as well as of matters of the General Secretariat of the National Statistical Service of Greece"*.

7.2 Data sharing

Not available

8. Confidentiality

[Top](#)

8.1 Confidentiality policy

The issues concerning the observance of statistical confidentiality by the Hellenic Statistical Authority (ELSTAT) are arranged by articles 7, 8 and 9 of the Law 3832/2010 as in force, by Articles 8, 10 and 11(2) of the Regulation on Statistical Obligations of the agencies of the Hellenic Statistical System and by Articles 10 and 15 of the Regulation on the Operation and Administration of ELSTAT.

More precisely:

ELSTAT disseminates the statistics in compliance with the statistical principles of the European Statistics Code of Practice and in particular with the principle of statistical confidentiality.

8.2 Confidentiality – data treatment

- ELSTAT protects and does not disseminate data it has obtained or it has access to, which enable the direct or indirect identification of the statistical units that have provided them by the disclosure of individual information directly received for statistical purposes or indirectly supplied from administrative or other sources. ELSTAT takes all appropriate preventive measures so as to render impossible the identification of individual statistical units by technical or other means that might reasonably be used by a third party. Statistical data that could potentially enable the identification of the statistical unit are disseminated by ELSTAT if and only if:
 - a) these data have been treated, as it is specifically set out in the Regulation on Statistical Obligations of the agencies of the Hellenic Statistical System (ELSS), in such a way that their dissemination does not prejudice statistical confidentiality or
 - b) the statistical unit has given its consent, without any reservations, for the disclosure of data.
- The confidential data that are transmitted by ELSS agencies to ELSTAT are used exclusively for statistical purposes and the only persons who have the right to have access to these data are the personnel engaged in this task and appointed by an act of the President of ELSTAT.
- ELSTAT may grant researchers conducting statistical analyses for scientific purposes access to data that enable the indirect identification of the statistical units concerned. The access is granted provided the following conditions are satisfied:

- a) an appropriate request together with a detailed research proposal in conformity with current scientific standards have been submitted;
 - b) the research proposal indicates in sufficient detail the set of data to be accessed, the methods of analyzing them, and the time needed for the research;
 - c) a contract specifying the conditions for access, the obligations of the researchers, the measures for respecting the confidentiality of statistical data and the sanctions in case of breach of these obligations has been signed by the individual researcher, by his/her institution, or by the organization commissioning the research, as the case may be, and by ELSTAT.
- Issues referring to the observance of statistical confidentiality are examined by the Statistical Confidentiality Committee (SCC) operating in ELSTAT. The responsibilities of this Committee are to make recommendations to the President of ELSTAT on:
- a) the level of detail at which statistical data can be disseminated, so as the identification, either directly or indirectly, of the surveyed statistical unit is not possible;
 - b) the anonymization criteria for the microdata provided to users;
 - c) the granting to researchers access to confidential data for scientific purposes.
- The staff of ELSTAT, under any employment status, as well as the temporary survey workers who are employed for the collection of statistical data in statistical surveys conducted by ELSTAT, who acquire access by any means to confidential data, are bound by the principle of confidentiality and must use these data exclusively for the statistical purposes of ELSTAT. After the termination of their term of office, they are not allowed to use these data for any purpose.
- Violation of data confidentiality and/or statistical confidentiality by any civil servant or employee of ELSTAT constitutes the disciplinary offence of violation of duty and may be punished with the penalty of final dismissal.
- ELSTAT, by its decision, may impose a penalty amounting from ten thousand (10,000) up to two hundred thousand (200,000) euros to anyone who violates the confidentiality of data and/or statistical confidentiality. The penalty is always imposed after the hearing of the defense of the person liable for the breach, depending on the gravity and the repercussions of the violation. Any relapse constitutes an aggravating factor for the assessment of the administrative sanction.

9. Release policy

[Top](#)

9.1 Release calendar

The publications that are related to the results of the survey on the consumption of petroleum products are included in the release calendar.

9.2 Release calendar access

The release calendar is available on the website of the Hellenic Statistical Authority:
www.statistics.gr

9.3 User access

According to the legal framework of the Community and the “European Statistics Code of Practice”, ELSTAT announces all the national statistical data on its website, respecting the professional independence and in an objective, professional and transparent manner, with which all users are equally treated.

10. Frequency of dissemination

[Top](#)

At the end of the first semester of each year, the results of the survey for the previous reference year, are transmitted for publication to the webpage of the Hellenic Statistical Authority

11. Dissemination format

[Top](#)

11.1 News release

Press releases are published on the webpage of the Hellenic Statistical Authority:

<http://www.statistics.gr/en/statistics/-/publication/SDE15/2017>

11.2 Publications

Tables and time series are published on the webpage of the Hellenic Statistical Authority:

<http://www.statistics.gr/en/statistics/-/publication/SDE15/2017>

11.3 On-line database

11.3.1 Data tables - consultations

The number of visits was 3,855 in total

11.4 Micro-data access

No microdata are available

11.5 Other

11.5.1 Metadata – consultations

The number of visits was 3,855 in total

12. Accessibility of documentation

[Top](#)

12.1 Documentation on methodology

12.1.1 Metadata completeness - rate

The percentage of completeness of metadata is 100%.

12.2 Quality documentation

Prior to the tabulation of the data, quality controls are conducted, such as comparison controls with the previous years' results and validation checks between the total of petroleum products consumption and the individual categories, per Regional Unit of the Country.

Methodological note is available on the website of ELSTAT.

13. Quality management

[Top](#)

13.1 Quality assurance

ELSTAT's policy for quality assurance is described at the following link:

<http://www.statistics.gr/en/quality-assurance-framework>

13.2 Quality assessment

Prior to the tabulation of the data, quality controls are conducted, such as comparison controls with the previous years' results and validation checks between the total of petroleum products consumption and the individual categories, per Regional Unit of the Country.

14. Relevance

[Top](#)

14.1 User needs

The main users of the results of the survey are individuals and researchers from Universities.

14.2 User satisfaction

The Division of Statistical Information and Publications of ELSTAT conducts a general user's satisfaction survey concerning the overall statistical production and not focused on specific surveys.

<http://www.statistics.gr/en/user-satisfaction-survey>

14.3 Completeness

For the reference year 2017, the completeness is 100%.

15. Accuracy and reliability

[Top](#)

15.1 Overall accuracy

The survey on the consumption of petroleum products is exhaustive and it is based on administrative sources and files. The reliability of the data is 100%.

15.2 Sampling error

Given that the survey is exhaustive, there are no sampling errors.

15.3 Non-sampling error

15.3.1 Coverage error

There are no coverage errors, given that the survey is based on administrative sources.

15.3.1.1 Over-coverage – rate

15.3.1.2 Common units – proportion

15.3.2 Measurement error

There are no measurement errors, given that the survey is based on administrative sources.

15.3.3 Non response error

There are no non-response errors, given that the survey is based on administrative sources.

15.3.4 Processing error

There are no processing errors, given that the survey is based on administrative sources.

15.3.5 Model assumption error

There are no model assumptions errors, given that the survey is based on administrative sources.

16. Timeliness and punctuality	Top
16.1 Timeliness	
Data are published on the website of the Hellenic Statistical Authority, 6 months after the end of reference year.	
16.2 Punctuality	
No delays occur in the publication of the data for the reference year 2017.	

17. Comparability	Top
17.1 Comparability - geographical	
The results of the survey are checked from the Hellenic Statistical Authority on the basis of their geographical comparability for each Region and Regional Unit.	
<u>17.1.1 Assymetry for mirror flows statistics – coefficient</u>	
Not applicable for this survey.	
17.2 Comparability over time	
The results of the survey are checked from the Hellenic Statistical Authority on the basis of their comparability over time for each year. For the years 2016 and 2017, the consumption of mazut low sulphur and mazut high sulphur, additionally includes the deliveries on domestic shipping fuels. The respective data of the previous years do not include information on domestic shipping fuels, therefore they are not comparable with each other.	

18. Coherence	Top
18.1 Coherence cross-domain	
The statistical data of the survey are not compared with the results of other surveys.	
<u>18.1.1 Coherence – sub annual and annual statistics</u>	
Not applicable for this survey	
<u>18.1.2 Coherence – National Accounts</u>	
Not applicable for this survey	
18.2 Coherence - internal	
Internal consistency of the data is validated by ELSTAT at the final stage of data processing.	

19. Cost and burden	Top
No expenses occur from the survey.	

20. Data revision	Top
20.1 Revision policy	
Data revision, if needed, is based on the Circular Revision Policy of ELSTAT that is available at the link: http://www.statistics.gr/en/policies	
20.2 Revision practice	

Along with the data for the year 2017, revised data for the year 2016 were published, which were made available by the Ministry of Environment and Energy.

21. Statistical processing

[Top](#)

21.1 Source data

The data are based on administrative sources and files. They are provided by the General Directorate of Energy of the Ministry of Environment and Energy.

21.2 Frequency of data collection

Data are collected on a yearly basis.

21.3 Data collection

The survey is conducted through the reception of electronic files from the General Directorate of Energy of the Ministry of Environment and Energy

21.4 Data validation

The data transmitted from the General Directorate of Energy of the Ministry of Environment and Energy are checked on the basis of their correctness and after these checks, tables and diagrams are compiled. The final results are sent for publication to the webpage of the Hellenic Statistical Authority.

21.5 Data compilation

The data transmitted from the General Directorate of Energy of the Ministry of Environment and Energy are checked on the basis of their correctness and after these checks, tables and diagrams are compiled (geographical breakdown per Region and per Regional Unit of the Country, breakdown per petroleum product category, for the following petroleum products categories: super, unleaded, unleaded super 98/100, diesel for heating, diesel for transport, mazut low sulphur, mazut high sulphur and liquid gas). The final results are sent for publication to the webpage of the Hellenic Statistical Authority.

21.5.1 Imputation – rate

Not applicable for this survey

21.6 Adjustment

Not applicable

21.6.1 Seasonal adjustment

Not applicable

22. Comment
