

PRESS RELEASE

COST INDICES FOR THE FACTORS OF AGRICULTURAL AND LIVESTOCK PRODUCTION: YEAR 2019

The Hellenic Statistical Authority (ELSTAT) announces the revised Cost indices for the Factors of Agricultural and Livestock, with base year 2015=100.0.

The revision was carried out in the framework agreement of the Member States of the European Union (EU), where for reasons of comparability, these indices are revised every (5) five years and specifically with base year in years that end in (0) and (5).

The evolution of the General Cost index for the Factors of Agricultural and Livestock production for the year 2019, is as follows:

The General Index in 2019, compared with 2018, increased by 2.7%. The corresponding index in 2018 had recorded an increase of 0.3%, compared with 2017 (Tables 1, 2).

The 2.7% increase of the General Cost Index for the Factors of Agricultural and Livestock Production in 2019, is on account of the following changes in the individual indices of the main groups:

- 1.2% increase in the Capital Cost Index (1.3% increase in loans interest and 1.8% increase in machinery rents)
- 2.5% increase in the Land Rents Index (land rents)
- 3.8% increase in the Labour Remuneration Index (agricultural wages)

The following tables present data on the evolution of the Cost index for the Factors of Agricultural and Livestock Production for the period 2009-2019.

Table 1. Annual Cost Indices for the Factors of Agricultural and Livestock Production

Base year: 2015=100.0

Groups	Weights	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019
Cost Index for the factors of production	10,000.0	100.6	99.9	102.0	104.8	101.3	101.5	100.0	99.3	101.6	102.0	104.7
1. Labour remuneration (wages)	3,897.1	120.1	112.9	109.9	104.3	101.7	99.8	100.0	99.8	100.8	101.9	105.8
2. Rent remuneration (land rents)	3,249.5	106.6	105.3	103.8	104.4	102.4	100.9	100.0	100.0	101.1	102.3	104.8
3. Capital (capital remuneration)	2,853.4	82.4	86.9	94.4	104.4	100.4	103.1	100.0	98.5	102.6	101.8	103.1
a) Loans interest	955.2	73.6	79.9	91.5	106.3	99.6	104.8	100.0	97.7	103.7	102.4	103.7
b) Machinery rents	1,898.2	96.7	98.5	99.4	102.0	101.7	100.2	100.0	99.9	100.7	100.9	102.8

Table 2. Annual rates of change of the cost indices for the factors of production

Base year: 2015=100.0

Groups	Annual rates of change (%)									
	2010/ 2009	2011/ 2010	2012/ 2011	2013/ 2012	2014/ 2013	2015/ 2014	2016/ 2015	2017/ 2016	2018/ 2017	2019/ 2018
Cost Index for the factors of production	-0.7	2.1	2.7	-3.4	0.2	-1.4	-0.7	2.4	0.3	2.7
1. Labour remuneration (wages)	-6.0	-2.6	-5.1	-2.5	-1.9	0.2	-0.2	1.0	1.1	3.8
2. Rent remuneration (land rents)	-1.3	-1.4	0.5	-1.9	-1.5	-0.9	0.0	1.1	1.2	2.5
3. Capital (capital remuneration)	5.5	8.6	10.6	-3.9	2.7	-3.0	-1.5	4.1	-0.7	1.2
(a) Loans interest	8.5	14.5	16.1	-6.3	5.3	-4.6	-2.3	6.2	-1.3	1.3
(b) Machinery rents	1.9	0.9	2.6	-0.3	-1.4	-0.2	-0.1	0.8	0.2	1.8

Note: The indices and the percentage changes are published rounded up to one decimal figure.

METHODOLOGICAL NOTES

Generally	<p>The Cost Indices for the Factors of Agricultural and Livestock Production were first compiled in Greece in 1975 with base year 1976=100.0. The General Cost Index for the Factors of Agricultural and Livestock Production distinguishes the following groups and subgroups:</p> <ol style="list-style-type: none">1. Labour (agricultural wages)2. Land (land rents)3. Capital (capital charges)<ol style="list-style-type: none">a) Loans interestb) Machinery rents
Purpose of the indices– definitions	<p>The purpose of the Cost indices for the Factors of Agricultural and Livestock Production is to measure the changes in the prices paid for by producers for the agricultural wages (Labour), for the land rents (Land) and for the capital remuneration (Capital), i.e. machinery rents and loan interests.</p> <p>The Cost Indices for the Factors of Agricultural and Livestock Production are compiled on a yearly basis for Greece total.</p> <p>The Cost Indices for the Factors of Agricultural and Livestock Production are compiled on the basis of data collected on the agricultural wages (Labour), on land rents (Land) and on machinery rents and agricultural loans interest (Capital).</p>
Legal basis	<p>The indices are compiled pursuant to the Law 3832/2010 (establishing law of the Hellenic Statistical Authority), as amended and in force and more specifically the relevant provisions concerning the conduct of statistical surveys and statistical works.</p>
Reference period	<p>Year.</p>
Base year	<p>2015=100.0.</p>
Revision	<p>The Cost Indices for the Factors of Agricultural and Livestock Production are fixed-basis yearly indices and they are updated every five (5) years, in years ending in 0 or 5. The most recent revision took place with base year 2015=100.0.</p>
Statistical classification	<p>In accordance with the common methodology applied by the EU Member States and Eurostat, the groups of products of the Agricultural Price Indices and accordingly those of the Cost Indices for the Factors of Agricultural and Livestock Production follow the same classification of groups as in EAA (Economic Accounts for Agriculture).</p>
Geographical coverage	<p>The index covers the whole of the country.</p>
Coverage	<p>The General Cost Index for the Factors of Agricultural and Livestock Production covers the prices paid by farmers for the purchase of consumable and the hiring of services, which are necessary for the production of the agricultural and livestock holding.</p>
Weighting coefficients	<p>The annual weighting coefficients have been calculated on the basis of the expenditures of National Accounts in Agriculture (EAA) for the year 2015, taking into account the available data of the 2016 Farm Structure Survey, for each category of individual indices.</p>
Price sources	<p>The price data for the cost indices for the factors of agricultural and livestock production are collected from: a) the local/Municipal communities as regards the agricultural wages (Labour), land rents (Land) and machinery rents and b) Piraeus Bank (ex-Agricultural Bank) as regards loans interest.</p>
Publication of data	<p>The data of Cost Index for the Factors of Agricultural and Livestock Production are announced 6 months after the end of the reference year. The data of Cost Index for the Factors of Agricultural and Livestock Production with base year 2015=100.0, are released since July 2020 with 2019 as first reference year. The time series with the same base year (2015) are available from 2000 onwards.</p>
References	<p>More information on the methodology concerning the compilation and calculation of the index, as well as the time series is available on the website of ELSTAT, at: http://www.statistics.gr/en/statistics/-/publication/DKT33/</p>
