

**GENERAL SECRETARIAT OF
THE NATIONAL STATISTICAL SERVICE
OF GREECE**

Piraeus, 14 April 2009

PRESS RELEASE

**Revised Import Price Index in Industry^{1,2}
February 2009**

The National Statistical Service of Greece announces the revision of the Import Price Index (MPI) with base year 2005=100,0. The MPI in February 2009 as compared to February 2008 recorded a fall of 2,5%. A year earlier the MPI increased by 8,3%.

The MPI in February 2009 as compared to January 2009 remained unchanged. A year earlier, the MPI increased by 0,9%.

In the twelve-month period March 2008 – February 2009 the annual average rate of change of the MPI was 5,3%. A year earlier, the annual average rate of change of the MPI was 4,2%.

¹ The Import Price Index (MPI) in Industry is released from March 2009 revised and re-based in 2005=100,0 with January 2009 as first reference month. The purpose of the MPI is to measure the monthly rates of change in the prices of goods that are imported in the economic territory from the euro-zone countries and the non-euro-zone countries. The MPI index is split up to partial indices of Eurozone and non-Eurozone, according to the country of consignment of the imported goods, forming two groups of Eurozone and non-Eurozone markets.

² The revision with base year 2005=100,0, is done in the framework of the Short -Term Statistics (STS) Council Regulation (EC) No 1165/98 concerning short-term statistics. According to this Regulation the index in question is updated every five years, in years ending in 0 or 5. At this revision has been applied (Council Regulation 1893/2006) the new Eurostat classification NACE Rev. 2 (at the level of categories of economic activity). In addition, at product level has been applied the new Eurostat classification CPA 2008 (Council Regulation 451/2008).

The National Statistical Service of Greece availability of data of MPI with base year 2005=100,0 starts from January 2000, whilst the distinguished series of Eurozone and non-Eurozone, complying with the above Regulation, starts from January 2004 onwards.

Monthly rates¹

Import Prices in total industry in February 2009, as compared to the previous month January 2009, remained unchanged due to the monthly changes of the Main Industrial Groupings prices, as following:

- Intermediate goods prices fell by 0,2%.
- Capital goods prices grew by 0,2%.
- Durable consumer goods prices remained unchanged.
- Non-Durable consumer goods prices grew by 0,3%.
- Prices in Energy fell by 0,4%.

Annual rates²

Import Prices in total industry in February 2009, as compared to February 2008, decreased by 2,5% due to the annual changes of the Main Industrial Groupings prices, as following:

- Intermediate goods prices grew by 1,3%.
- Capital goods prices grew by 0,7%.
- Durable consumer goods prices grew by 1,3%.
- Non-Durable consumer goods prices grew by 1,7%.
- Prices in Energy fell by 14,4%.

More information on the rates of change of the MPI, as it concerns the distinction coming from Eurozone and non Eurozone market, are presented in the annexed tables (1,2,3)

¹ The monthly rate compares the price levels in industry between the two latest months.

² The annual rate measures the price change in industry between the current month and the same month of the previous year.
