7. Confidentiality Top
7.1 Confidentiality policy
<p>The issues concerning the observance of statistical confidentiality by the Hellenic Statistical Authority (ELSTAT) are arranged by articles 6, 7 and 8 of the Law 3832/2010, as amended by article 90 paragraph 8 of Law 3842/2010 and by article 10 of Law 3899/2010, as well as by article 8 of Law 2392/1996, which was brought back into force, in accordance with article 90 paragraph 8 of Law 3842/2010.</p>

Furthermore, ELSTAT disseminates the statistics in compliance with the statistical principles of the European Statistics Code of Practice and in particular with the principle of statistical confidentiality.

7.2 Confidentiality – data treatment

ELSTAT protects and does not disseminate data it has obtained or it has access to, which enable the direct or indirect identification of the statistical units that have provided them by the disclosure of individual information directly received for statistical purposes or indirectly supplied from administrative or other sources. ELSTAT takes all appropriate preventive measures so as to render impossible the identification of individual statistical units by technical or other means that might reasonably be used by a third party. Statistical data that could potentially enable the identification of the statistical unit are disseminated by ELSTAT if and only if:

- a) These data have been treated, as it is specifically set out in the Regulation on Statistical Obligations of the agencies of the Hellenic Statistical System (ELSS), in such a way that their dissemination does not prejudice statistical confidentiality or
- b) the statistical unit has given its consent, without any reservations, for the disclosure of data.

The confidential data that are transmitted by ELSS agencies to ELSTAT are used exclusively for statistical purposes and the only persons who have the right to have access to these data are the personnel engaged in this task and appointed by an act of the President of ELSTAT.

The Statistical Confidentiality Committee (SCC) operating in ELSTAT, examines issues referring to the observance of statistical confidentiality. Within its competence is to recommend on:

- the level of detail at which statistical data can be disseminated, so as the identification, either directly or indirectly, of the surveyed statistical unit is not possible;
- the anonymization criteria for the microdata provided to users;
- the granting to researchers access to confidential data for scientific purposes.

11. Accessibility of documentation	Top
11.1 Documentation on methodology	
<p>A short methodological note is available on the portal of ELSTAT, http://www.statistics.gr, at the link: “Statistical Themes > Education > Primary Education > Repatriated and Foreign Pupils (Primary schools – Beginning of the school year)”.</p>	
11.2 Quality documentation	
<p>After data collection through the survey questionnaire, logical checks are carried out in order to check correctness and completeness of data by contacting the involved agencies. Furthermore, electronic and quality checks are conducted on the tabulated data.</p>	

12. Quality management	Top
12.1 Quality assurance	
<p>During data processing, the data are also compared, mainly, with data from the previous school year, in order to detect any deviations. In case such deviations are identified, further clarifications are asked from the school units (Primary Schools), the Divisions of Primary Education and from the Ministry of Education and Religious Affairs and any errors are dully corrected.</p>	
12.2 Quality assessment	
<p>The Divisions of Primary Education transmit the questionnaires which have been filled in by the school units to the Education Statistics Section where they are checked for completeness and correctness and are then compared with the corresponding questionnaires of the previous year.</p>	

13. Relevance	Top
13.1 User needs	
<p>The main national users are government agencies, such as the Ministry of Education and Religious Affairs, the Ministry of Interior, Local Government, as well as university teachers, students, researches, the press, etc. At international level, the main user is Eurostat, as well as other international organisations (Unesco, OECD, etc.). Users’ needs are recorded in the publication “Information Bulletin” which is published by the Division of Statistical Information and Publications/Library Section every semester.</p>	

13.2 User satisfaction
Generally, there is a good cooperation and immediate respond to users' needs, thus comments received by users being positive. At the same time, ELSTAT conducts a user satisfaction survey every six months. http://www.statistics.gr/portal/page/portal/ESYE/BUCKET/General/library_news_letter.pdf
13.3 Completeness
The variables are collected in compliance with European Regulations and also on the basis of users' needs.

14. Accuracy and reliability	Top
14.1 Overall accuracy	
The overall accuracy is high because the survey is a census survey.	
14.2 Sampling error	
No sampling errors.	
14.3 Non-sampling error	
There are not any non-sampling errors because the survey is a census survey and it is conducted through the Divisions of Primary Education which supervise the school units.

15.2 Punctuality	
No delays.	

16. Comparability	Top
16.1 Comparability – geographical	
16.2 Comparability over time	
The results of the Survey are fully comparable over time. There are data, by school year, since the year 1995.	

17. Coherence	Top
17.1 Coherence cross-domain	
Any differences that may be identified with relevant surveys conducted by the Ministry of Education and Religious Affairs may be on account of the different reference period of the surveys.	
17.2 Coherence – internal	
No inconsistencies are observed.	

18. Cost and burden	Top
No other burden than the operational expense of the Section / Division of ELSTAT.	

19. Data revision	Top
19.1 Revision policy	
The revision policy is usually on line with the revision policy of the Ministry of Education and Religious Affairs.	
19.2 Revision practice	
The latest adjustment of the questionnaire ΣΕ-2Γ was carried out in the school year 2007/2008.	

20. Statistical processing	Top
20.1 Source data	
The questionnaire ΣΕ-2Γ of the survey includes aggregate numerical data referring to the repatriated and foreign pupils of every public and private school unit (primary school), by gender, year of birth, class, country of birth and country of origin, citizenship, etc, during the beginning of the school year.	
20.2 Frequency of data collection	
Data are collected once a year, at the beginning of every school year.	
20.3 Data collection	
The Section of Education Statistics transmits the questionnaires ΣΕ-2Γ, through the Divisions of Primary Education, to all the school units from which are collected the filled in questionnaires with the aggregate data for the school units under their supervision.	
20.4 Data validation	
The data are validated by means of a series of checks. The control of the questionnaires encompasses completeness, accuracy and logical checks at the level of the Division of Primary Education, electronic and quality checks. The main variables are compared with variables from other statistical sources. Primary data are cross-checked with the corresponding data of the previous year.	
20.5 Data compilation	
The data after having been collected undergo logical checks, are codified, are entered the electronic data base, are tabulated and finally they are published.	
20.6 Adjustment	
Not necessary.
