4. Statistical presentation

[Top](#)

4.1 Data description

The purpose of the survey is to monitor the evolution of ship repair activities.

4.2 Classification system

Geographical classification is based on NUTS 2.

4.3 Sector coverage

Water transport (Nace, H.50)

4.4 Statistical concepts and definitions

The variables and definitions are laid down in Circular 1, dated 16/1/1975, which was replaced by the Joint Circular dated 15/4/1998, with retroactive effect since 1/4/1998. The variables refer to the number of ships repaired in dry docks or in shipyards, the total number of repaired ships and GRT, as well as the total number of dry docked ships and GRT.

4.5 Statistical unit

The ships.

4.6 Statistical population

The total of repaired and dry-docked ships.

4.7 Reference area

All the ports of Greece where there are shipyards which are under the Port Authorities.

4.8 Time coverage

From 2000 until 2015, the tables with the survey results are available on the website of ELSTAT on a yearly basis.

8. Confidentiality

[Top](#)

8.1 Confidentiality policy

The issues concerning the observance of statistical confidentiality by the Hellenic Statistical Authority (ELSTAT) are arranged by articles 7, 8 and 9 of the Law 3832/2010 as in force, by Articles 8, 10 and 11(2) of the Regulation on Statistical Obligations of the agencies of the Hellenic Statistical System and by Articles 10 and 15 of the Regulation on the Operation and Administration of ELSTAT.

More precisely:

ELSTAT disseminates the statistics in compliance with the statistical principles of the European Statistics Code of Practice and in particular with the principle of statistical confidentiality.

8.2 Confidentiality – data treatment

- ELSTAT protects and does not disseminate data it has obtained or it has access to, which enable the direct or indirect identification of the statistical units that have provided them by the disclosure of individual information directly received for statistical purposes or indirectly supplied from administrative or other sources. ELSTAT takes all appropriate preventive measures so as to render impossible the identification of individual statistical units by technical or other means that might reasonably be used by a third party. Statistical data that could potentially enable the identification of the statistical unit are disseminated by ELSTAT if and only if:
 - a) these data have been treated, as it is specifically set out in the Regulation on Statistical Obligations of the agencies of the Hellenic Statistical System (ELSS), in such a way that their dissemination does not prejudice statistical confidentiality or
 - b) the statistical unit has given its consent, without any reservations, for the disclosure of data.
- The confidential data that are transmitted by ELSS agencies to ELSTAT are used exclusively for statistical purposes and the only persons who have the right to have access to these data are the personnel engaged in this task and appointed by an act of the President of ELSTAT.
- ELSTAT may grant researchers conducting statistical analyses for scientific purposes access to data that enable the indirect identification of the statistical units concerned. The access is granted provided the following conditions are satisfied:
 - a) an appropriate request together with a detailed research proposal in conformity with current scientific standards have been submitted;
 - b) the research proposal indicates in sufficient detail the set of data to be accessed, the methods of analyzing them, and the time needed for the research;
 - c) a contract specifying the conditions for access, the obligations of the researchers, the measures for respecting the confidentiality of statistical data and the sanctions in case of breach of these obligations has been signed by the individual researcher, by his/her institution, or by the

organization commissioning the research, as the case may be, and by ELSTAT.

- Issues referring to the observance of statistical confidentiality are examined by the Statistical Confidentiality Committee (SCC) operating in ELSTAT. The responsibilities of this Committee are to make recommendations to the President of ELSTAT on:
 - the level of detail at which statistical data can be disseminated, so as the identification, either directly or indirectly, of the surveyed statistical unit is not possible;
 - the anonymization criteria for the microdata provided to users;
 - the granting to researchers access to confidential data for scientific purposes.
- The staff of ELSTAT, under any employment status, as well as the temporary survey workers who are employed for the collection of statistical data in statistical surveys conducted by ELSTAT, who acquire access by any means to confidential data, are bound by the principle of confidentiality and must use these data exclusively for the statistical purposes of ELSTAT. After the termination of their term of office, they are not allowed to use these data for any purpose.
- Violation of data confidentiality and/or statistical confidentiality by any civil servant or employee of ELSTAT constitutes the disciplinary offence of violation of duty and may be punished with the penalty of final dismissal.
- ELSTAT, by its decision, may impose a penalty amounting from ten thousand (10,000) up to two hundred thousand (200,000) euros to anyone who violates the confidentiality of data and/or statistical confidentiality. The penalty is always imposed after the hearing of the defense of the person liable for the breach, depending on the gravity and the repercussions of the violation. Any relapse constitutes an aggravating factor for the assessment of the administrative sanction.

9. Release policy

9.1 Release calendar

The release date of the survey results is included in the Press Releases Calendar.

9.2 Release calendar access

The release calendar is available in the web site of ELSTAT:

<http://www.statistics.gr/en/calendar>

9.3 User access

Users have access to the survey data through the website of ELSTAT (www.statistics.gr).

Tables with the survey results are posted on the website of ELSTAT at:

<http://www.statistics.gr/en/statistics/-/publication/SMA24/->

10. Frequency of dissemination

[Top](#)

The survey data meet national needs and the annual data are published four (4) months after the end of the year.

11. Dissemination format

[Top](#)

11.1 News release

Annual press release is compiled.

11.2 Publications

No statistical publications.

11.3 On-line database

Users can be informed about most of the survey results electronically, through the following electronic address:

<http://www.statistics.gr/en/statistics/-/publication/SMA24/->

11.3.1 Data tables - consultations

Total access to the website as regards the above survey for the year 2015 amounts to 206 hits.

11.4 Micro-data access

Microdata are made available to users after their submitting a request to the:
Division of Statistical Information and Publications

12. Accessibility of documentation

[Top](#)

12.1 Documentation on methodology

The methodology of the survey is compiled by ELSTAT:

Circular 1, dated 16/1/1975, which was replaced by the Joint Circular dated 15/4/1998, with retroactive effect since 1/4/1998.

12.1.1 Metadata completeness - rate

Metadata completeness rate is 97%.

12.2 Quality documentation

The quality is documented through the processes for checking data, correcting errors and checking the tables.

13. Quality management

[Top](#)

13.1 Quality assurance

Quality assurance controls mainly refer to the responsiveness of the respondents, logical and quality checks on primary data, computerized checks and the checks on the produced data.
Moreover, in order to ensure the quality of data, all the procedures that are described in the quality policy of and the circulars on the Quality Policy of ELSTAT are followed:

<http://www.statistics.gr/en/policies>

13.2 Quality assessment

As regards the quality of the results of the survey on ship repair activities, during the collection and

processing of data, logical checks are carried out and any errors are duly corrected.

14. Relevance

[Top](#)

14.1 User needs

Users are mostly individual users or agencies involved with maritime transport for educational, vocational, scientific, research and other purposes.

14.2 User satisfaction

Information on user' profile and user satisfaction and other relevant information are available in the Library's Newsletter, posted at the following link:

<http://www.statistics.gr/en/user-satisfaction-survey>

14.3 Completeness

The completeness of the survey is 100%.

15. Accuracy and reliability

[Top](#)

15.1 Overall accuracy

The survey is a census survey and the main source of errors is non-sampling error.

15.2 Sampling error

No sampling errors, because the survey is a census survey.

15.3 Non-sampling error

Non-response errors refer to the response rate of the Port Authorities. In most of the cases, errors are due to the inappropriate filling in of questionnaires by the administrative sources; these errors are checked and are duly corrected.

15.3.1 Coverage error

No coverage errors.

15.3.1.1 Over-coverage – rate

No over-coverage.

15.3.1.2 Common units – proportion

No.

15.3.2 Measurement error

There are some errors in the data of the port authorities, which after communication with them, are duly corrected.

15.3.3 Non response error

There are no non response errors. The response of the respondent agencies is checked.

15.3.4 Processing error

After data entry, the data are checked.

15.3.5 Model assumption error

No model is implemented.

16. Timeliness and punctuality

[Top](#)

16.1 Timeliness

The survey data meet national needs and the annual data are published, approximately, four (4) months after the end of the year.

16.2 Punctuality

The data are usually published on time and the statistical product is up-to-date.

17. Comparability

[Top](#)

17.1 Comparability – geographical

The data are comparable throughout Greece.

17.2 Comparability over time

The data are checked as regards their comparability over time by the Hellenic Statistical Authority.

18. Coherence

[Top](#)

18.1 Coherence cross-domain

There are no other relevant data from other sources or agencies of the Hellenic Statistical System concerning this survey.

18.1.1 Coherence – sub annual and annual statistics

The data on repaired and dry docked ships are coherent and any discrepancies observed are examined and corrected.

18.1.2 Coherence – National Accounts

No other relevant data are compiled by National Accounts concerning the data on ship repair industry.

18.2 Coherence – internal

The data are characterized by internal coherence (between time series and between variables).

19. Cost and burden

[Top](#)

Not estimated.

20. Data revision

[Top](#)

20.1 Revision policy

The data are revised in compliance with the Revision Policy of ELSTAT.

<http://www.statistics.gr/en/policies>

20.2 Revision practice

The revision policy of ELSTAT is implemented.

21. Statistical processing	Top
21.1 Source data	
The primary data of the survey derive from the Port Authorities. The collected data are census data and refer to the ships under repair or dry docked ships throughout Greece, pursuant to the Circular dated 15/4/1998 replacing Circular Bo 1 of 16/1/1975 with retroactive effect since 1/1/1998.	
21.2 Frequency of data collection	
Data are collected on a monthly basis.	
21.3 Data collection	
ELSTAT, Division of Trade and Services Statistics /Maritime Transport Statistics Section, sends the questionnaires to the involved agencies and then it collects the necessary data by post. These data are sent by the Prot Authorities and refer to ships under repair or dry-docked ships.	
21.4 Data validation	
The primary data undergo logical checks, consistency checks and checks as regards their chronological consistency. By means of logical and quality checks any errors are duly corrected.	
21.5 Data compilation	
The data, after having been collected, undergo logical checks, they are processed, tabulated and finally the final data are published.	
<u>21.5.1 Imputation – rate</u>	
Not applicable, the survey is a census survey.	
21.6 Adjustment	
No adjustment.	
<u>21.6.1 Seasonal adjustment</u>	
Not applicable.
