Outpatient services include the medicaments, prostheses, medical appliances and equipment and other health-related products supplied directly to outpatients by medical, dental and paramedical practitioners and auxiliaries. There is a discrimination between services provided by medical analysis laboratories and x-ray centers and services provided by doctors and dentists. Usually medical laboratories and x-ray centers perform the analysis while doctors interpret the results. Details are provided in the respective codes below. Medical, dental and paramedical services provided to in-patients by hospitals and the like are included in hospital services (06.3).	<b>06.2</b>

<b>06.3</b>	<b>HOSPITAL SERVICES</b>  Hospitalisation is defined as occurring when the patient is accommodated for the duration of the treatment. Hospital day care and home based hospital treatment are included as hospices for terminally ill persons. This group covers general and specialist hospitals as well as medical and maternity centers and nursing and convalescence homes, which chiefly provide in-patient services. It also covers the services of institutions serving old people in which medical monitoring is an essential component and rehabilitation centers providing in-patient health care and rehabilitative therapy where the objective is to cure the patient rather than to provide long-term support. Hospitals are defined as institutions, which offer in-patient care under direct supervision of qualified medical doctors. Medical centers, maternity centers, nursing homes and convalescent homes also provide in-patient care but their services are supervised and frequently delivered by staff of lower qualification than medical doctors. The group does not cover the services of facilities, such as surgeries, clinics and dispensaries, devoted exclusively to out-patient care (06.2), retirement homes for the elderly, institutions for disable persons and rehabilitation centres providing primarily long-term support (12.4).  <b>06.3.0 - Hospital services</b>	<b>06.3</b>

### **HBS: 1, HBS: 2 and HBS: 3 PART A': CODE OF GOODS AND SERVICES**

In column «CODE» of the questionnaires there is a pre-coded (entirely or partly) nine digits number.

A) The first digit of this number concerns the way of possession for each good and service.

More specifically, the following codes exist:

- 1 Purchases (P)
- 2 From own production (OP)
- 3 From own enterprise (EP)
- 4 Other ways of acquisition of goods and services (OW)
- 5 From the employer (E)

B) The next seven digits constitute the code of the good or service

C) The last digit refers to the period of each expenditure.

More specifically, the following codes exist:

- 1 14 days
- 2 Month
- 3 Two months
- 4 Three months
- 5 Four months
- 6 Six months
- 7 Year

In questions where the nine (9) digits do not exist, their completion will be done by the employee in charge of codification based on the records of the interviewer. For example, if the last digit (reference period) is absent and the interviewer has marked as reference period "two months", then the employee in charge of codification will record "3" as the last digit.
